

THE CHARLOTTETOWN GUARDIAN

THURSDAY, JUNE 10, 1909.

SOME DIFFICULTIES OF THE PARTY ADVOCATE.

All are familiar with the ever-ready argument of the party advocate when his party is in power. He will tell you that you should vote for a minister or a candidate supporting the ministry, because the party is in power, and can do things, can make appointments to office and promotions, make grants for public works, railways, harbors, buildings, and so on.

But the difficulty comes when the party that was in power has been relegated to the cold shades of opposition. A case in point is in Saint John County, where a by-election for a seat in the Provincial Legislature is pending.

The seat was held by a Liberal, Hon. Mr. McKeown, who was recently appointed to a judgeship. The Provincial Government led by Premier Hazen is Conservative and the familiar arguments above referred to are put forward to show that a Conservative supporter ought to be elected for the vacant seat.

are quite as good in a provincial as in a federal election. But the Liberals are in power at Ottawa and the Conservatives in power at Fredericton. If the argument for supporting the party in power is sound (which we cannot think it is) the men of St. John ought now to support a Hazen candidate for the Legislature, while continuing to support Laurier candidates for the Commons.

The St. John newspapers are just now grappling with this question, just as the opposing party organs have done in Prince Edward Island and elsewhere in the past, with no very satisfactory results. The merits or demerits of parties and policies are always legitimate subjects for discussion and criticism, but the support of a party simply because it is in office and has gifts to bestow is essentially unsound.

PREMIER HAZARD TALKS OF THE TUNNEL.

During his recent visit to Montreal, Premier Hazard was thus quoted by the Montreal Star:

"The prospects of a Tunnel under Northumberland Straits to connect the Island with the main land depended entirely on the federal representatives of the larger Provinces.

"A survey is to be made this summer, a careful estimate prepared, and if it is found that a Tunnel can be constructed for a reasonable sum, say from ten to fifteen million dollars, I think our chances are very good in the Tunnel line, at least, larger undertakings have been carried out in many of the other Provinces, and to my mind this Tunnel is due the inhabitants of Prince Edward Island."

These are good words for the many who hold the Tunnel project very near to their hearts. There have been many disappointments, many hopes deferred over the matter. So little was said of the Tunnel, or the survey in Parliament, and so far as we could learn, no money voted.

that the people had about despaired of the present Government doing anything. It would be cruel to raise hopes again only to dash them down and we cannot believe that Premier Hazard would be a party to any such reprehensible proceeding. We therefore rely upon his word that "a survey is to be made this summer and a careful estimate prepared."

The Guardian would be glad that he would take the people more fully into his confidence at an early day, as befits a matter of such vital importance. He must know, however, whereof he speaks. And a survey, to meet the demands must be more thorough and exhaustive than that on which Sir Douglas Fox based his estimate, inasmuch as the Government has proclaimed that survey and report to be inadequate. Therefore, we take it, that the work will now be thoroughly done, and if so it must be very soon undertaken, for the summer will quickly pass. Thousands of Guardian readers will await with some impatience the early beginning of the promised survey.

THE MARITIME BOYS' CAMP FOR 1909.

The prospectus for the Maritime Boys' Camp for 1909 under the auspices of the Y. M. C. A. is to hand. This is the seventeenth season for these outings. There will be two camps, one at Robertson's Point, Grand Lake, N. B., and the other at Big Cove, Sutherland's River, Pictou County, N. S. in which Prince Edward Island boys will be more especially interested.

with sport and amusement under careful supervision, combined with character-building, developing all that is best in them. Most healthy boys greatly enjoy a week or two of camp life in summer, and we know of no better place for them to get it than at the Maritime Boys' Camp.

CASTORIA

For Infants and Children. The Kind You Have Always Bought Bears the Signature of J. C. Fitchner

Barefoot

Sandals

The Non Rip

Nearly half the members of the Canadian Government will soon be in the Old Country. Messrs Aylesworth and Fielding are already in London, Sir Frederick Borden and Mr. Brodeur will sail for England on or about June 25. Mr. Graham will leave about July 2 and will be absent for two months. A little later Mr. Oliver will cross the Atlantic on immigration business.

SPRING.

Spring, the beautiful, is here; Spring, the lovely, and the fair; Bringing life, and hope, and cheer, Lifting from our hearts all care.

Spring with beauty clothes the earth. At her call the birds return; At her touch there spring to birth Lovely flowers and dainty fern.

Softly, gently zephyrs sigh Birds sing carols loud and clear; Songs more wondrous, sweet and high Never greeted mortal ear.

New life everywhere is seen, From the flowers fair and sweet, To the grasses fresh and green Which we trample 'neath our feet. EDITH E. MURLEY, Prince of Wales College.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold if the goods you can possibly derive from them.

THE MORNING PAPER

Some Reasons Why It Makes the Best Advertising Medium.

A woman's curiosity to know about society, marriages, births, deaths, forces her to read it. The Morning Paper is before her all day long, and it is when she is doing her household duties, arranging and improving the appearance of her home, that the missing and necessary articles of furniture, rugs, carpets, curtains or other necessities show up the plainest, and there could be no more opportune time for a dealer to tell about the new designs, the new styles and the bargains offered for the day or week.

In a majority of homes the news paper is practically the bulk of the reading matter, and the long, all day life from 5 a. m. to 10 p. m. of The Morning Paper gives not only the housewife but every member of the family an opportunity to read it. The Morning Paper is read at the breakfast table, again at home at noon, on the trains, in the restaurants. It is read in doctor's offices, professional offices, clubs, hotels, cafes, barber shops. It is read by daylight everywhere you go by both employer and employee.

It is a known fact that throughout the world, possibly with a half-dozen exceptions, the papers with editorial influence and national reputation are Morning Papers. With these facts in mind, the business man who is looking after the real money-spenders of the family to interest in his goods will consult his best interests by placing his announcements where the women will read them.

Auction of Wagons

Benj Carter & Co. will hold their annual sale of second hand wagons on Friday, 11th inst. at 1 o'clock p. m. All parties having such to dispose of will make no mistake by sending same along on or before day of sale.
