NATIONAL DIVISION SONS OF TEMPERANCE

ST. JOHN, July 19—About eighty delegates to the meeting of the National Division, Sons of Temperance which opens its business sessions in St. John this afternoon, are already here, and many more are expected to arrive today. Among the high officials of the order in the city are: Ross Shack, Trenton, N. J., most worthy scribe; J. O. McCarthy, Toronto, most worthy warden; A. J. Kirby, and others. Yesterday afternoon the high officials of the order held an interesting conference in St. David's church, where all the meetings will be held. They discussed in a general way the location of the temperance work and appointed a committee to draft a definite program to place before the meetings today. Last evening the Sunday School room of the church was the scene of a very pleasant informal reception which was largely attended. R. S. Hennigan, G. W. E. of New Brunswick, president and secretary, addressed the delegates. Addresses of welcome were also delivered in behalf of St. David's church. These were responded to. Great interest was manifested in the proceedings and it is expected that the sessions of the national division will be instructive and useful. There will be two business sessions today. In the afternoon, Mayor Frink will welcome the delegates to the city. Representatives of other temperance organizations will also speak. In the evening a social affair will take place for the delegates in Granite Rock Division hall, Carleton.

DOC. WIELDS BROOM. MEDICOS ARE ANGRY.

BOWMANVILLE, Ont., July 19—A horrible disgrace has fallen upon the devoted heads of the medical profession at Coburg. In their midst is a physician who has lowered the high social standards of the profession. He has designed to sweep up his office floor. Not only that, but in his hand, he had swept up the dirt from his office, and industriously cleaned off the sidewalk. Even worse, on occasions he ventures forth armed with a mop, and cleans his windows. In addition, he has completed the catalogue of offences by letting his wife wash and scrub the office floors. The medical men of Coburg are incensed over the matter, and declining to rest under the stigma, they sent a letter to the Medical Council condemning the unprofessional conduct of their fellow-physician. Just what the Council will be able to do in the matter remains to be seen.

EXTENSIVE LEGISLATION.

WELLINGTON, N. Z., July 20—In Premier Ward's Budget speech legislation is foreshadowed providing for national annuities proportionally to the number of children in the family. There is also a scheme for the extinction of the national debt by the creation of a sinking fund. Scott, City, who has just passed so successfully his final law examinations and has been admitted an attorney and called to the Bar of the Supreme Court at its present session in Georgetown is without doubt entitled to great praise for the record he has made since entering his articles five years ago as a student-at-law in the office of Matheson, McDonald & Stewart. On April 14, twenty-nine colleges, Dr. Pearson plans to make his last bequest to his colleges, which will be the last of his fortune. He will then rest content in the sanatorium waiting for the end. "A man is his own best executor," said Dr. Pearson, "and I intend to be mine. I will sell my home and use the money to pay my debts. 'I will make no more presents until my next birthday,' he said. 'Then I will dispose of everything.' All is in readiness at the Pearson's home for a tenant. Thomas, the Pearson's butler and general factotum, has been packing things for several weeks. "When my house is sold and the debts met I shall have been my own executor and shall have closed the estate entirely," said Dr. Pearson. "There will be no disputes about my money. That is what I want to be sure of."

Harry Flynn, a bartender in a Woonsocket hotel, was arraigned at Central Falls this evening on a charge of manslaughter in connection with the death of James O'Rourke, a laborer, who was found lying on the roadside on the road which runs along the main highway. A warrant, making the same charge against Councilman Napoleon D. Abell, of Woonsocket, has been issued and the police are now seeking him. O'Rourke was found lying on one side of the road and Guy Needham, James Larkin, another laborer, was found unconscious and at the time apparently fatally injured. Both men had evidently been struck by an automobile, the occupants of which had stopped and laid the victims by the roadside and left them. BERESFORD SAYS NAVY MUST HAVE WAR STAFF

LONDON, July 19—Lord Charles Beresford reappeared unrepentant and incorrigible before the Cecil Club, an organization formed years ago for the purpose of stimulating the stalwart feeling among conservatives of the Salisbury pattern. Rudyard Kipling introduced him in a speech of exceeding ineffective prose after a pleasant dinner at the Whitehall Rooms, and the naval warrior soon took advantage of the occasion to reinforce all that he had ever said as a reformer of the navy. Lord Charles made a long and interesting speech on the condition of the fleet, and laid stress on the fact that the nation could never be prepared for war unless it had a war staff, which it did not yet possess. He discussed the folly of building Dreadnoughts at vast expense unless there was assurance from the admiralty that as a matter of tactics every link in the chain was adequately supplied and that every unit of the navy as a fighting organization was complete, from torpedo craft to big guns. He reasserted with increased emphasis that the trade routes linking together the mother country and the states of the empire were not safe, and that the admiralty in a recent crisis was under an obligation to the patriotic and loyal colonies for timely assistance, whose feeble efforts, though appreciated, were really pathetic.

MR. BORDEN ADDRESSES COMMISSION IN HALIFAX

HALIFAX, N. S., July 19—The government of Ontario will take pleasure in giving you all information possible. This was a sentence read by Professor J. W. It made him more than ever a Canadian to have been in Europe and he congratulated Nova Scotia on what it had done for technical education and expressed the opinion that the dominion should make it a part of the public service in each province. He spoke of technical education as tending to give every man an equal chance and make him better fitted for serving himself and benefiting the community. He trusted that the work of the technical commission would be successful and its report of value to the industrial life of Canada. The commission in the forenoon took evidence from educationists and from manufacturers as to the benefit from the training of the technical staff. In the afternoon they visited industrial establishments. The commission will conclude its meetings here tomorrow, bearing representatives of the labor unions in the evening.

TORONTO FEARS AN ICE FAMINE

Special to The Guardian. TORONTO, July 20—A serious feature of the Grand Trunk Railway strike is the possibility of an ice famine in Toronto and other places dependent on outside sources for supply. Little was delivered in Toronto yesterday and none today.

FRENCH HAS NOT LIKELY YET SPOKEN

OTTAWA, July 19—The criticisms attributed to General French in the cables are all along contained. The men are all right, the intentions are there, but the staff is altogether useless. This has been often repeated against the militia department here. Still it is said that no credence is placed at the militia department by the officials now on duty in the cable report from London to the effect that General French's report is a sweeping condemnation of the Canadian militia system.

Special to The Guardian. MONTREAL, July 20—Locally there is no change in the Grand Trunk strike situation. The company is well satisfied with the progress of events all along the line and so are the men.

MISLEADING SAYS SIR FREDERICK

OTTAWA, July 19—Sir Frederick Borden, minister of militia and defence, who is now at Canning, Nova Scotia, replying to a telegram sent to him in reference to the London cable purporting to give a summary of the report of General Sir John French upon the conditions of the Canadian militia, wires a reply: "I have no statement to make at present, except that the summary quoted in your telegram is entirely inaccurate and grossly misleading."

LONDON, July 17—A correspondent of the Times understands that when General Sir John French's report is published it will disclose a state of military inefficiency in the Dominion that will probably be a revelation to most Canadians. The correspondent of the Times adds: "I believe it will be found that General French, in the first place, condemns the whole existing conception of strategic requirements in the Canadian militia. This is coupled with the non existence of a sound peace organization and an effective staff. He suggests from a very outset that the Dominion defence forces are in a bad way. If such a staff as exists does not understand the first principles of strategic disposition of its forces, then it is impossible for it to have a sound peace organization."

THE LIBERTY OF CHILDREN

I do not believe in the government of the lash. If any one of you ever expects to whip your children again, I want you to have a photograph taken of yourself when you are in the act, with your face red with vulgar anger, and the face of the little child, with eyes swimming in tears and the little chin dimpled with fear, like a piece of water struck by a sudden cold wind. Have the picture taken. If that little child should die, I can not think of a sweeter way to spend an autumn afternoon than to go out to the cemetery, where the maples are clad in tender gold, and the little scarlet-runners are coming like poems of regret, from the sad heart of the earth—and sit down upon the grave and look at that photograph, and think of the flesh, now dust, that you beat. I tell you it is wrong; it is no way to raise children! Make your home happy. Be honest with them; divide fairly with them in everything. Do
