### Eye Examination

Exhaustive research has revealed that at least seven out of ten people need glasses but only three out of ten wear them. That means that about four out of every ten are in need of optical service.

It may be that you are one of the four. An examination of your eyes will readily determine the condition of your eyesight and we earnestly urge you to give serious consideration to the matter of having this examination made.

### Drink Water if Kidneys Bother

Take a Teaspoonful of Salts if Back Pains or Bladder is Irritated

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which in most paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weak; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids; to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take a teaspoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and bakes a delightful effervescent lithia-water drink. It all means have your physician examine your kidneys at least twice a year.

### Maritime Religious Educational Council

Some of the finest C. G. I. T. work is done by groups that have to be reached by a branch railway. Miss Trotter, Maritime Girls' Work Secretary, recently visited such a group at River Herbert. Miss Roxie McKenzie, principal of the school, assisted by two of the teachers, is giving generous and capable leadership to the girls of this community. The girls entertained their mothers on the occasion of Miss Trotter's visit.

Springhill is one of the centres where C. G. I. T. groups have lately been organized, both in the Presbyterian and Baptist churches. The Presbyterian groups have already held a mother-and-daughter banquet which was voted a great success.

The annual meetings of the Religious Education Council of Canada and all its departmental boards, as well as a staff conference of the girls' work secretaries of all the provinces will be held in Toronto April 24th—May 6th. In preparing the report of Maritime Province Girls' Work, it has been encouraging to note a steady, quiet growth during the past year. Thirteen new communities have seen the C. G. I. T. program introduced. There are local boards doing active work in eighteen centres. There are eight girls' councils operating, Truro being the latest to organize. It is not possible to state definitely just the number of Canadian Girls in Training in the Provinces by the sea, but 5,000 is a conservative estimate, from available records.

With the coming of spring there is much activity on the part of the Provincial Girls' Work Boards in preparation for the summer camps. Six girls' camps will be held, this being an increase of one over last year. It is also purposed to emphasize more than in former years the leadership camp in August.

Word has been received that the National Girls' Work Board will send Miss May Gemmill of Toronto to assist Miss Trotter in directing the camps.

## Ask your Dealer to Show You the Beautiful New Patterns

One of the new patterns, Congoleum Art-Rug No. 536, is shown here. It has a warm tan center, and the motifs are in harmonizing shades of blue.

As artistic in design as any woven floor-covering! This is the verdict of Canadian housewives everywhere on Gold-Seal Congoleum Art-Rugs. And now two new patterns are offered, displaying all the harmony of color and motif which has made these rugs so popular. These new patterns are sure to be welcomed, for—like all Congoleum floor-coverings—they are as practical as they are attractive.

### Waterproof—Seamless

Congoleum Art-Rugs are made on a waterproof base with a firm, smooth, seamless surface. They are absolutely sanitary and very easy to clean. Dust and spilled things cannot penetrate or stain them. A light mopping is all they require to make them spotless—their cheery colors fresh and bright. Think of the time and strength spent in beating and sweeping the old-fashioned dust-collecting woven rugs and carpets! Then you will realize how much leisure you can gain by using Congoleum!

Congoleum Art-Rugs are exceedingly durable, too. Another desirable feature—they lie perfectly flat without fastening of any kind. No matter how long or severe the wear, they never curl at the edges or corners.

Attractive, sturdy, easy to clean—Gold-Seal Congoleum Art-Rugs are well adapted for use all over the house. And their prices are so moderate they will surprise you.
