STOCK BROKER SHELDON GONE

Special to The Guardian. MONTREAL, Oct. 11.—D. Sheldon, who has been making a modest fortune for people and has been under continuous newspaper fire for some time, as to his methods, has left the city and payment at his office has been stopped. The clerks say he will return, but this is doubted. It is claimed that his business will not stand the scrutiny which he has been offering to afford the accountants appointed by leading newspapers.

WANT PROTECTION OF SHAD FISHERY

MONCTON, N. B., Oct. 10.—Lieut. Governor McClellan addressed the board of trade today on the importance of something being done to protect the shad fisheries in the Bay of Fundy, and urged the board to take the matter up with a view to preserving the spawning grounds for this fish. The matter was discussed by the board, and it was decided to memorialize the fisheries department to take measures to prevent the capture of fish on their way to the spawning grounds. It was stated that the shad industry in the bay was being killed out largely as a result of the fish being caught in St. John harbor, en route to the spawning grounds.

KING MANUEL FOR ENGLAND

GIBRALTAR, Oct. 10.—King Manuel of Portugal, and Queen Mother Amelia decided today to proceed to England. They will leave probably within a few days, but are undecided whether they will travel by land or sea. The Italian warship Regina Elena arrived here today to take on board the Dowager Queen Maria Pia, who will go to Italy. LISBON, Oct. 10.—DeCosta, the Minister of Justice, today ordered the release of Cardinal Joseph, Sebastiao Netto, former Patriarch of Lisbon, who had been seized and ordered to remain in the country. Costa explained that the real object of the arrest was to protect the Cardinal from possible outrage. The Minister declared that several monasteries and convents belonging to Portuguese or foreign orders were being suppressed, and that the activity of the clerics who resisted in obstinate resistance to the advent of the republic, hastened the order of expulsion which he added, was necessary to tranquilize the public spirit.

It is understood that all the officers who were refused, refused offers of promotion affirming that they had done only their duty to the nation. The theatre Queen Amelia, has been renamed the Republic. The Government has decreed the suspension by the cable companies of the acceptance and delivery of code and cipher messages. COULDN'T SCARE TAFT'S AUNT. WORCESTER, Mass., Oct. 9.—Although the police of Worcester and surrounding cities have been working the case all day, no trace has yet been found of the strange man who appeared at the home of Miss Delia C. Torrey, aunt of President Taft, at Millbury yesterday, and told her of a plot to kill the President. The man was traced from Millbury to Worcester, but here the trail ends, and the police have not been able to pick it up again. When the man left Miss Torrey's home yesterday it was with the injunction to her not to allow the matter to get into the newspapers if she valued her life. She, notwithstanding the threat, gave the matter out. Today a close watch was kept on all cars arriving in Millbury lest the man might carry out his threat, but nothing was seen of him. The police are satisfied that the man was a mere fanatic and do not expect ever to see him again.

LAST EVENING'S RECITAL.

For days past the organ recital in St. James Church was the theme of conversation, and last night a large number attended one of the finest evenings of music ever given in this city. Mr. Watkins, whose fame as a musician is widely known, proved himself capable of surpassing even his own piano playing, and his organ masterpieces from Raff, Calkin and Brahms, will linger as sweet memories for years to come in the minds of those who heard them. The choir was in excellent voice, and their selections in Fraix the Lord, He, Watching over Israel, Unfold Ye Portals Everlasting were given in such a manner as to bring out in finished harmony and tune the splendid voices of the singers. Miss Bremner, who is an excellent singer, sang delightfully that magnificent sacred solo. These are they from Gaul, her voice taking all the different

NEW CHAPTERS WERE FORMED

Organizing Committee of The Daughters of the Empire do Good Work, Instituting Two New Chapters Here.

A very enthusiastic meeting was held yesterday afternoon at the clock in the Armouries when the organizing committee of the Imperial Order of Daughters of the Empire, now in this city, instituted two new chapters—in addition to the Royal Edward Chapter, now complete in numbers. The meeting was presided over by ex-Governor McKinnon and there was a large attendance of those interested in the splendid work of the order. The organizers must have felt heartily encouraged by the enthusiasm displayed at yesterday's meeting and must feel a certain amount of genuine satisfaction in the business like way in which matters pertaining to the institution of the new lodges were taken up by those appointed.

The feature of the meeting was Miss Merritt's stirring address in the order which, with but one or two short omissions, follows. Miss Merritt was introduced in a happy manner by the chairman who incidentally passed a few remarks on the order. Miss Merritt said: Ladies: I have the honor in the name of the National Chapter of Canada of the Imperial Order of the Daughters of the Empire to greet you this afternoon.

We live in a quickly moving age, and nowhere is history being made so rapidly, as herein our own country, where the common saying is: "The twentieth century belongs to Canada," and so it does. And it is to keep pace with the awakened spirit that a special organizing committee of the Imperial Order of the Daughters of the Empire has journeyed forth, two years in succession to the farthest limits of the Dominion, both eastward and westward, to seek the lovers of their country, those who have pride in Canada's past and hope for her future, and ask them to join in this active work of uniting every part of the Dominion in closest interest and knowledge, the East and West, and in union with those similar organizations with whom we are in alliance. The Guild of Loyal Women, South Africa, and the Victoria League in Australia, New Zealand and Great Britain.

W. J. Bowser, attorney general.

NEW ORDER IN PORTUGAL.

LISBON, Oct. 11.—The Provisional Government is "fixed in its determination to drive the monks and nuns out of the country." Otherwise they must quit the country.

AN ENGLISH JUSTICE ON CANADA

Special to The Guardian.

LONDON, Oct. 11.—Judge Grantham speaking at Lewes said Canada was a workingman's paradise, with no idlers, no unemployed, no employable and work with high wages for all. Many Canadians complain bitterly that the Mother Country would do nothing to assist in their economic difficulties and financial arrangements, treating them no better than her commercial enemies. There was danger of losing Canada, if she was deceived by the tempting bait of reciprocity.

HAD CLOSE CALL

BOSTON, Oct. 10.—During the northwesterly gale today the British schooner Abana, Capt. Clark, inward bound from New Brunswick, narrowly escaped being driven on Graves Ledges. The schooner lost her masts and drove in under head sails. She was picked up near the Island, by the tug H. A. Mathis, just as she was being slowly forced towards the rocks. The crew was preparing to throw overboard the Abana loaded at the anchor. The Bulls, between the Graves and Greca Crtek, St. John.

RALPH JOHNSTONE HURT

ST. LOUIS, Mo., Oct. 10.—Ralph Johnstone, fell from his biplane he was operating, from a height of 700 feet on the Aviation field this afternoon. He was slightly bruised. The machine was wrecked. Johnstone lost control while he was making a sharp turn. He was stunned by the fall. Before he was rescued from the grounds, he said: "I'm not hurt. The engine saved my life." The engine fell on the radiators, otherwise it would have pinioned the aviator.

BANNER BASEBALL YEAR

CHICAGO, Ill., Oct. 10.—Reviewing the 1910 season B. B. Johnson, President of the American League said today: In every respect the 1910 season has been the banner year of the American League both financially and in the standard of play. Striking features were the openness of the race until the new champions forged ahead to a more commanding lead in September. While the final figures on attendance were not been compiled the clubs of the league played a bigger crowd this season than in any previous race.

OTTAWA WOMAN BURNED

OTTAWA, Oct. 9.—Mrs. Patrick Murphy, of 138 Clarence Street, was burned to death this afternoon while cooking the Sunday dinner for her family. JUDGE LONGLEY CALLS ON TAFT

BEVERLY, Mass., Oct. 9.—A party of "home rule" Irishmen, John Redmond, John Boyle and Joseph Devlin, all members of Parliament, were received as British subjects by President Taft today. Mr. Redmond, leader of his party in Parliament, was accompanied by Mrs. Redmond. T. P. O'Connor was to have been a member of the delegation but could not be present. Mrs. Taft and Miss Taft, assisted in entertaining the guests. Before calling on the President, the Irish party were luncheon guests of A. Shuman, a neighbor of the President. They were joined there by T.B. and Mrs. Fitzpatrick, of Boston, and Judge and Mrs. Longley of Halifax, and were accompanied to the President's cottage by Mr. and Mrs. Shuman and Carl Dreyfus.

COLUMBUS DAY TO BE WELL OBSERVED BY BOSTONIANS.

BOSTON, Oct. 9.—Boston is making preparations to celebrate Columbus Day, the State's newest legal holiday, Wednesday, in a manner more elaborate than any holiday has been celebrated in the Hub for many years. Nor is Boston alone in celebrating, for in nearly every city and town in the commonwealth plans of some sort are being made for a proper observance of the anniversary of the date when Columbus set foot on American soil.

FOREST FIRES IN MINNESOTA

Fires Now Within Five Miles of War Road. A Thrilling Story Told by One Who Went Through the Fire.

Special to The Guardian. WAR ROAD, Minn., Oct. 11.—The fires are within five miles of this town. The fire department has been reinforced by a detachment of the Winnipeg department, and every available able bodied man is vigorously back of the fighting. Every available car and boat is held in readiness should it be necessary to vacate the town. WINNIPEG, Oct. 11.—Mrs. Townsend, of Warroad, who arrived on the Duluth train this morning, tells a thrilling story of the conditions in the fire district. The town of Beaudette, she says, is wholly destroyed. Everyone who has a revolver is carrying one. The survivors are desperate and a great deal of vandalism is rife. If a high wind should arise, nothing could save the town of Warroad. Two train loads of people left Warroad after midnight, but it is not known if they reached in safety. International Falls, Minn., Oct. 11.—International Falls is caring for 225 refugees of the fire stricken area. All are destitute, having lost everything out the clothes they were wearing. Timber fires are smouldering throughout an area of 5,000 square miles in Northern Minnesota, and Western Ontario, and the situation is critical. The State Government is pushing relief to the devastated areas and a company of militia, and fifty deputies arrived through here last night. International Falls, itself is threatened, and the citizens are fighting to save their lives and homes.

STRIKER ACQUITTED

HALIFAX, N. S., Oct. 11.—The jury in the case of Jules Lefere, of Springhill, charged with perjury in connection with picketing in the strike in that town, this afternoon brought in a verdict of not guilty.

SUBSIDY RENEWED

OTTAWA, Oct. 10.—The subsidy to the C. P. R. for the winter service from St. John, N. B., to London has been renewed for a year. It amounts to \$15,000. CHICAGO, Ill., Oct. 10.—Miss Dorothy Campbell, of Hamilton, Canada, holder of the women's national golf championship, led in the field of fifty ladies in the eleventh annual tournament for the Women's United States Association battle at the Homewood Country Club today. Miss Campbell turned in a card of 85 for the 18 holes, four under the best previous record made by Miss Campbell last week in practice. Miss Campbell played excellent golf throughout except on the long eight hole which she went one stroke over bogey.

TORONTO, Oct. 10.—It is stated here that negotiations are pending with a view to giving Ontario commercial access to Hudson Bay. They involve a reconsideration of the boundary line dividing this province from Manitoba through Keewatin territory.

CHINA'S NEW WARSHIPS

LONDON, Oct. 10.—A dispatch from Peking says it is officially stated that China's reported contracts for warships with Americans have not been given out, and that the contracts are not likely to go to the United States.

THIS HOCKEY STORY SOUNDS LOGICAL.

SYDNEY, Oct. 8.—The report from Montreal that the Shamrocks intend to buy up seven or eight of the best players in sight and go in for professional hockey on a more extensive basis is giving color through the appointment of Ernie Johnson to a permanent position in the Montreal customs house. Johnson resigned his position on the Grand Trunk some weeks ago and was negotiating with several outside clubs. Renfrew included. In fact it was stated on good authority that the diamond-studded yellow-haired cover-point will wear a green jersey during the coming winter. The Blamney Stones, by the way, may also have Art Ross and Walter Small and others who have had a falling out with the Wanderer management. Billy Lunny of the Shamrocks recently announced that the Shamrocks would again have a professional team, so in the light of the Johnson appointment and personal information from former members of the Wanderer team it would not be surprising to see Shamrocks very much in the running for the Stanley Cup. Harry Hyland may also jump back to his first love, and as the Shamrocks has the greatest following of any Montreal club, a winning team would, to them, mean a big money making investment.

Special to The Guardian.

LONDON, Oct. 11.—Mount Blanc is responsible for another Alpine tragedy. Three men had intended to climb to the top of Mount Blanc, without a guide. They had not gone very far and were within a comparatively short distance of shelter when two of them became exhausted and found it impossible to continue. The third, who was a little stronger, tried to reach shelter and procure assistance, but was unable to do so.

NEW RECORD IN PASSENGER TRAFFIC.

MONTREAL, Oct. 8.—With the rush between east and west bound traffic over, the officials of the different steamship companies in the city are able to make a calculation of the season's total business in passenger traffic, and all agree that it has been a banner year. "I thought at one time," remarked W. G. Annable, General Passenger Agent for the C. P. R. Atlantic lines, "that this year would show only secondary results to the splendid returns in 1909, but I am satisfied now that we have carried more passengers, both east and west, than we did in that year." The White Star-Dominion, the Alcan, the Canadian Northern, and the Donaldson lines all report increased business as compared with previous summers, so that 1910 will surely set up a record.

WHY LACK ANYTHING

No man has the right to be lacking in anything that he ought to possess. For Jesus Christ puts at our disposal a bank of unlimited resources, and offers us unlimited credit in that bank. That bank is God our Heavenly Father. In him is the limitless supply of all that we lack; and he offers it to us in Christ. We find our lives always shifting and changing, full of weakness, wavering, and deception, and impurity, and inconsistency, and backsliding. We start a day in the right direction and finish it in the wrong direction. Yet God never changes. He is strength, and unwaveringness, and truth, and purity, and consistency; he moves always in the same direction, straight ahead, and he always reaches any goal for

RESULTS OF WESTERN FIRE.

WARROAD, Minn., Oct. 11.—The latest reports of the forest fires in Rainy River region increase the horrors of the situation. It is estimated that the number of persons killed ranges from 75 to 400. This is a considerable estimate. Men of authority place the deaths at more than 100. But the greater concern for the present is the rescue of the helpless and the relief of thousands of business men, women and children. Scores of wild animals fleeing for safety side by side with human beings, their natural hostility and fear of man overcome by terror, show stress of the situation. Tales also come of mothers burned to death with their babies on their breasts, and men calmed while endeavoring to shield their children.
