PRINCESS HERMINE SCORES

DOORN, Holland, Dec. 5.—The first change in the Kaisers household since Princess Hermine took over the reins is the departure of Count von Moltke, the court marshal.

The dispute between Princess Hermine and the retiring marshal is said to have arisen over the question of whether the Kaiser should confine himself to Doorn Castle. The former Emperor's bride favored more freedom of movement for her husband, but this was contrary to the wishes of Von Moltke who is regarded as responsible for the virtual imprisonment of Wilhelm within the garden walls.

Another change in the household regime is the prospective departure of Dr. Haechner, court physician.

The new mistress of Doorn Castle chats freely with all sorts of people during her daily walks. She has a very pleasant manner on these occasions, visiting with everyone who shows much interest in her new surroundings. She is already gaining popularity among the townspeople of Doorn. Many children of the village were guests at a recent party given in honor of her daughter's fourth birthday.

"I Can Now Do My Work Without Feeling Tired"

Mrs. A. Moffatt, Rexton Falls, Que., writes:

"I suffered from a run-down system and nervous debility. I could not sleep or rest at night, and felt so weak I could not walk any distance. I took several tonics, but they only helped me while I was taking them. Mother advised me to take Dr. Chase's Nerve Food, and I felt great benefit from the first box, and continued taking several boxes. Today I feel like a new woman, and am able to do my work without that dreadful tired feeling."
