New Apparatus For Fire Dept.

Motor Pumper, Chemical, And Hose Cart To Be Purchased Is Decision At City Council Meeting Last Evening.

The purchase of a thousand gallon Metropolitan Triple Pumping Engine, chemical, and hose cart for the fire department at a price of \$15,500, was decided upon at the regular monthly meeting of the City Council held last evening in the Council Chambers with the Mayor Prowse presiding. After the reading of the minutes the usual bills were certified. Mr. J. P. McMillan, Health Officer, reported one case of scarlet fever since last meeting. A communication was read from E. J. and K. M. Martin, intimating that the city was in no way responsible for injuries received by certain parties who entered complaints. A communication was read from the Canadian Legion calling attention to the condition of Fort Edward and the two monuments on Queen Square.

SNAP AND PEP TO COMEDY AT PRINCE EDWARD

Popular Mae Edwards Players Well Received At Last Night's Opening Performance.

A full house greeted the popular Mae Edwards Players at the Prince Edward Theatre last night in their opening performance. The play, a social comedy entitled "What Every Woman Wants" gave Miss Edwards and Mr. Tye Ives, the leading man, an opportunity for skillful acting in their respective roles. Miss Peggy Downes, Carleton Pinckney, Miss Shute, Lou Roland, Charlie Downes, and Charles Phipps, formed a strong supporting cast. There were many amusing and surprising episodes in the three acts which carried the interest of the audience through till the final curtain. As usual, with the Mae Edwards Players, there was excellent vaudeville between the acts. Mr. Roland's songs made a special hit. So also did the jazz orchestra, which carried a new line of snappy numbers, all good stuff and delivered red hot. Tonight's performance is a comedy entitled "Pat Piker's Place."

to the city, to the local Government and to the Dominion Government.

PUBLIC PROPERTY

The park breakwork is now completed stated Councillor McDougall in reporting for the Public Property Committee. Councillor McDougall and the city engineer were congratulated for the saving of almost \$500 on the work of the park breakwork. The work was done for a sum slightly in excess of \$1,000.

FIRE COMMITTEE

Councillor Reardon in reporting for the Fire Committee pointed out that there should be a pumper and a street alarm system. He reported that the committee had carefully considered the question of purchasing a motor pumping engine of 1,000 gallons capacity. The committee recommended that the proposal of the La France Fire Engine and Foamite, Ltd., dated Oct. 10, 1930, to supply a 1,000 gallon Metropolitan Triple Pumping Engine, chemical and hose car at a price of \$15,500 f. o. b. Charlottetown, be accepted.

STREET COMMITTEE

Councillor Kennedy reported for the Street Committee that all permanent work for the year had been completed. He had spoken to a representative regarding the allotment of the government grant to civic uses. His Worship suggested that the chairman of finance and streets collaborate and bring in a report. Councillor Foster expressed surprise that Hon. J. P. McIntyre had proclaimed that there were no municipalities in the province. Recorder Martin stated that the city is a municipality. Resolutions were passed accepting a tender for the supplying of coal, and authorizing the city clerk to call tenders for supplying overcoats for the police officers. The recommendation of the fire committee was next dealt with. It was moved by Councillor Kennedy

(Continued on Page 3)

Coal Discovery

(Special to the Guardian)
JOHANNESBURG, South Africa, Oct. 13.—A large coal field was discovered today near Windhoek. It was expected to stimulate the development of native industries inasmuch as South Africa's entire supply of coal hitherto has been imported. Coal may even be exported, if the development proves to be as large and of as good quality as the discoverers assert.

Clever Skipper

Dorothy Miller, daughter of Toronto Harbor Commissioner Ben Miller, and student of Bishop Strachan school, who, unknown to her parents, sailed over National Yacht Club course, and won race for first prize medals, heading four other veteran entrants. Because she is not a member of club she cannot receive the medals.

FISHERIES REPORT TILL END OF SEPT.

Following is the total quantity and approximate value of the fish caught in P. E. I. up to and including September 30, 1930. Prices paid at boat-side, as computed by Mr. S. T. Gallant, Supervisor of Fisheries.

Kind of Fish	Quantity	Value
Lobsters	87,055 cwt	\$609,859
Smelts	1,935 cwt	20,825
Tomcod	873 cwt	2,245
Caplin	435 bbis	1,740
Herring	47,606 cwt	47,878
Mackerel	8,401 cwt	22,191
Cod	50,390 cwt	96,209
Haddock	1,433 cwt	2,835
Clams	1,232 bbis	1,479
Quahaugs	3,356 bbis	4,625
Blackfish	330 cwt	1,320
Salmon	106 cwt	2,120
Hake	16,079 cwt	13,540

Call-To-Arms

(Associated Press)
RIO DE JANEIRO, Oct. 13.—Scenes reminiscent of the Great War are being enacted here in connection with the Brazilian revolution with thousands of reserves answering the call to the colors amid a fan-fare of patriotism. Many foreign firms here are hit by the loss of employees, and many of them are giving the men two weeks salary in addition to offering to hold the jobs for a certain time. Some Brazilian and Portuguese Companies have made blanket promises to take their "reservist" employees back at any time, no matter how long the fighting lasts. Diplomatic and Consular offices also have lost many of their male workers.

NEW RECORD

(Canadian Press)
KARACHI, India, Oct. 13.—Wing Commander Charles Kingsford-Smith, who is attempting a record flight to Australia, arrived here this afternoon 4 1/2 days out of London. This is a new record for the distance by London to Australia.

RUSSIAN COAL

(Canadian Press)
OTTAWA, Ont., Oct. 13.—Canadian importers of Russian coal have given to the Government an undertaking that importation of this coal, with the exception of cargoes now afloat, will cease for the fall and winter months. Announcement to this effect was made by Sir George Perley, acting minister, this evening.

POTATO MARKET IS STILL VERY DULL

No Sale For The Commodity Locally At The Present Time.

The potato market locally continues dull with no sale for the commodity at present. Foreign markets are also dull, as hot weather and heavy shipments are not conducive to good sales. An analysis of the increase in potato estimates in United States for the month of September over that of August, according to information received by Mr. J. W. Boulier, secretary of the Potato Growers Assn., shows that the increase is made principally in Maine, Pennsylvania, Ohio and North Dakota, while there is a decrease in Wisconsin and some of the Western States. Figures received from the different states indicate that, in the states shipping the commodity there are between 12,000,000 and 14,000,000 bushels less than at this date in 1929. At least 7,000 more cars have been shipped to date than in 1929 during the same period. It is expected that the first movement in seed potatoes in the province will begin about Oct. 20.

RIOTING IN GERMANY

(Associated Press)
BERLIN, Oct. 13.—Troops of Fascist rioters storming through downtown Berlin, smashing shop windows and firing pistols into the air, turned the opening of Germany's new Reichstag today into a wild region of anti Jewish roidism. The proceedings of the Reichstag itself were thrown into relative obscurity. The violence of the Fascists and rioting of Communists in the shadow of the Parliament Building at the edge of the famous Tiergarten, taxed police efforts.

Fort Churchill As A Terminus

(Special to the Guardian)
OTTAWA, Oct. 13.—The opening of Fort Churchill as a terminus of the Hudson Bay Railway for test shipments next September, was forecast by Hon. R. J. Manion, Minister of Railways and Canals on his return from a flying inspection trip of the line. When properly dredged, the harbor at Churchill will be able to hold an immense fleet, he said. The fall of 1931 should see Churchill with elevator facilities for handling one ship a day. Final plans call for increasing this capacity to three boats a day. Half of the main dock is completed months ahead of schedule.

To London?

Sale of Dr. Herbert Bruce's Bayview residence and his resignation a fortnight ago as professor of clinical surgery at the University of Toronto, is lending weight to the rumor that he may be slated for the Canadian commissionership to London.

WARMEST ON RECORD

82 Degrees Registered; Three Higher Than Maximum All Summer.

(Special to the Guardian)
EASTPORT, Me., Oct. 13.—This section of Maine had the hottest day of the year today, when the thermometer at the U. S. weather bureau station registered 82, three degrees higher than the maximum temperature during the summer. It was the warmest Oct. 12 on record.

Summerside Town Council

(Special to the Guardian)
SUMMERSIDE, Oct. 13.—The regular monthly meeting of the Summerside Town Council was held tonight with Mayor Lidstone presiding and a full Council Board present. The minutes of the last regular meeting and two special meetings were read and approved. Paid bills to the amount of \$9,419.87 and unpaid bills \$4,894.17, and unpaid bills amounting to \$1,432.93 were read and confirmed. Finance report by Councillor McNeill was considered very satisfactory. The financial report showed that most departments have not exceeded their estimates. In the Police Department the expenditure is above last year, but the fines and costs and miscellaneous amount to \$1,823.05, which is higher than heretofore and more than justified the extra expenditure. The police have carried out their duties in a very satisfactory manner, justifying the extra expense involved. The expenditure on the streets up to Sept. 30th amounted to \$17,998.15, with the addition of \$3,500 unpaid bills. This report was read, discussed and adopted. Report of street committee by Councillor Phillips was to the effect that the paving of Central St. will only go as far as a little north of Myrtle Street, this season as owing to the men being required for loading the potato boats, etc., they would not be able to proceed with the work this year. The sewers and other underground work should be done this fall as recommended by Engineer Messery. The report was approved and adopted. Police report by Councillor Moore reported nineteen arrests made, fines amounting to \$294, licenses \$10, \$304 in the month. A motion was passed to purchase new overcoats for the policemen. Mr. Schurman reported on the failure of electric lights plant on Saturday which plunged the town in darkness for over half an hour. He explained that it was caused by the burning out of the carbon of large plates probably due to the heavy load into this and promised it would not happen again. Mr. Kelly reported on the Fire Department and asked that a hydrant be installed at the

Proud At Being First Canadian To Make Hop

Captain Errol Boyd, Pilot Of Columbia, Sends Message To Canadians.

(Canadian Press)
OTTAWA, Ont., Oct. 13.—In a cable received by Sir George Perley, acting Prime Minister from Captain J. Errol Boyd, the flier expresses pride at being the first Canadian to fly the Atlantic. Sir George sent Captain Boyd a congratulatory message upon receiving word that the Columbia had landed safely at Tresco in the Scilly Islands. The reply of the Canadian airman is as follows: "Allow me to thank you Sir for your kind and your most appreciated message. I feel proud of being the first Canadian to fly the Atlantic, and also more than pleased to receive your wonderful cablegram of congratulations. How well I remember the assistance you gave me in 1915 in obtaining my commission in the royal Air Force. Gratefully yours' Errol Boyd. The cablegram is dated from London. Captain Boyd was one of the first Canadians to be granted a transfer to the Royal Air Force during the early days of the war. At that time Sir George Perley was High Commissioner for Canada in London.

Would Retain The British Preference

(Canadian Press)
LONDON, Oct. 13.—The British Government today informed the heads of Dominion delegations to the Imperial Conference, that where Britain imposes customs tariffs carrying an Empire preference (as in the case of the McKenna duties) she is prepared to retain the British preference. This, it is intimated in British circles, does not imply that the Labor Government gives a pledge to maintain the duties carrying British preference. If any such duties are repealed the preferences would go overboard with them, but where there is no repeal of the existing general tariff, then the British preference will be continued.

Flying Visit To Island Home

On Monday evening the country side in the vicinity of Union Road, was agreeably surprised by the appearance of one of the St. John Flying Club planes, piloted by Instructor F. Hartwick. Mr. Ira Clark, who is a student at the air club, in St. John, chose this method of visiting his people on his first cross country trip. The landing was made in Mr. B. C. Hardy's field, opposite Ira's home. Nearly the whole country-side "turned out" to witness the novel occasion. Mr. Clark is taking a commercial course. The plane was under his control most of the trip. The distance was covered in 2 hours, 5 minutes. The Island, they said, looked particularly beautiful, while many forest fires were sighted while flying above the mainland. They intend, weather permitting, to return Tuesday afternoon. Mr. Clark anticipates visiting his home many times in this manner. His many friends will join us in congratulating him on his splendid progress.

De Mar Wins

(Canadian Press)
PORT CHESTER, N.Y., Oct. 13.—Clarence DeMar, veteran marathon runner now living in Keene, N.H., today won the sixth annual 26 miles jaunt from Columbus Circle, N. Y. City to Port Chester. He ran the distance in 2 hours, 46 minutes, 13 seconds.

The Weather, etc

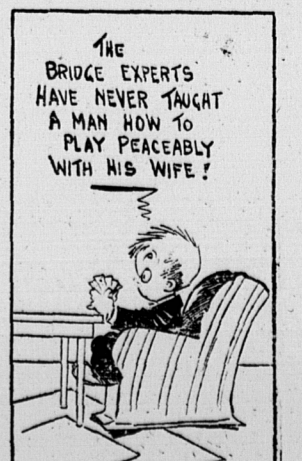

TORONTO, Ont. 14.—Fresh west early winds, mostly fair and warm. Maximum—62. Minimum—62. High tide this afternoon at and tomorrow morning at 2:25. Sun sets this afternoon at 5:15. Last quarter moon Wednesday, 15, 12:49 a. m. Summerside tide later than Charlottetown.

POOREST IN LAST DECADE

(Canadian Press)
LUNenburg, N.S., Oct. 13.—The Lunenburg fishery for 1930 has proven one of the poorest in the last decade. The total catch this year of sixty-four vessels engaged in the frozen baiting, spring and summer trips out of this port is not expected to reach in value the \$1,000,000 mark, whereas the 1929 catch was valued at \$1,500,000 and the 1928 return at approximately \$2,000,000. A total of 140,760 quintals made up this year's landings, as against 210,050 quintals taken by seventy-one vessels last year, and while fish taken on the summer trip this year have not yet been sold, the fishermen are expecting more than the \$8.50 per quintal paid for these landings last year.

\$7,500 Fire

(Special to the Guardian)
GALT, Oct. 13.—Carrying some chickens in a bag over his shoulder to place in the chicken house, and a lantern in the other hand, A. Williamson, living on the Hamilton highway, tripped over a pitch fork last night in his barn; the glass of the lantern broke, spreading fire and in a few minutes the structure was in flames. The building and the season's crop of 70 acres, which had not been threshed, were destroyed. The loss was estimated at \$7,500.

TORONTO, Ont. 14.—Fresh west early winds, mostly fair and warm. Maximum—62. Minimum—62. High tide this afternoon at and tomorrow morning at 2:25. Sun sets this afternoon at 5:15. Last quarter moon Wednesday, 15, 12:49 a. m. Summerside tide later than Charlottetown.
