More rain fell on Prince Edward Island in October this year than in any month since December, 1902, Mr. Warren Burns, weatherr observer at the Charlottetown Experimental station said last night.

Precipitation this month was 8.85 inches, Mr. Burns said. The only time such heavy rainfall was exceeded was 37 years ago, when in December 1902 rain fell to the depth of 10.12 inches.

TRIBUTE TO MRS. WEST—In an account which appeared in connection with the funeral of Mrs. Jonathan West, Rev. Hugh Miller paid the following tribute to the deceased: There has passed from this present life one well known in her church and city and beyond. She endeared herself to many by her cheerful disposition, her gift of friendship and her character. She had tasted of sorrow and thus learned how to sympathise and comfort others. Many who had been her friends for years as well as more recent friends mourn her passing. She will be missed at the Sunday and mid-week worship of this church. It was always a pleasure to visit her in her home, where she will be so greatly missed. Her passing was as she wished no long suffering; no burden or care on others; enjoying life to the last, she quietly came to the end of the way and passed on. To those intimately bereaved we extend our sympathy and commend them to Him, who said. "Peace I leave with you, my peace I give unto you."

Worry Saps The Nervous System

Worry over business or household duties, sudden shock, the insane quest for pleasure, the foolish attempt to put a week of normal life into twenty-four hours, feverish activity, the demand for sensational literature are all conducive to the aggravation of wear and tear on the nervous system.

If you are tired, listless, nervous and worried why not give Milburn's Health and Nerve Pills a chance to help put you on your feet again. They are a body building, nerve strengthening tonic containing the essential elements for the nervous system.
