

KING EDWARD MAY BE CROWNED SOON IF DOCTORS CONSENT

The Coronation Bazaar Opened by the Queen—Boer Losses in the War—Their Total Forces—Affairs in China—Probable Murder of a Freight Handler.

CORONATION IN AUGUST.

LONDON, July 10.—(Special).—It is said if the King's physicians approve the coronation will take place August 9th.

THE CORONATION BAZAAR.

The Coronation Bazaar was the biggest affair of the kind ever held. It was opened by the Queen under a temporary structure in the Botanical Gardens and is in aid of the hospital for sick children.

BOER FORCES AND THEIR LOSSES.

PRETORIA, July 10.—(Special).—The

Boer losses during the war were 3,700 killed, 32,000 made prisoners. The Boer forces in the field numbered 73,000.

SURRENDER OF TIEN TSI.

PARIS, July 10.—(Special).—Advice from China say the surrender of the administration of Tien Tsin is expected.

STRIKERS MURDER A COMRADE.

CHICAGO, July 10.—(Special).—James Landers a striking freight handler who had declared he intended returning to work to-day was found with his throat cut, dead.

THE CHICAGO AND NORTH-WESTERN.

A double track, block system line of transcontinental railway now reaches out to the westward as far as Omaha. The rapid development of our great agricultural states has been lost sight of to a certain degree in the discussion that has arisen lately concerning the commercial invasion of China and the far East, our occupation of the Philippine Islands, the annexation of Hawaii, and the whole general movement by which we have suddenly become a world power. The result is shown, in part, in the necessity on the part of the Chicago & North-Western for this double-track line, where great trains of live stock and grain move in long lines eastward, to feed not only the eastern states, but to afford an outlet for the products of what is now, more than ever before, the granary of the world.

To the westward there is also a continuous stream of travel. The North-Western Line operates three daily passenger trains from Chicago to the Pacific Coast. One of these, known as the Overland Limited, as probably the most luxurious and beautiful train in the world. Through Pullman service to Omaha, Denver, Portland and San Francisco leaves Chicago

daily heavily loaded with traffic to those points. With all this development in various directions the North-Western never for a moment lost sight of the great fact that the transcontinental business of this nation is for many years to come to be to furnish a great volume of traffic. The Chicago and North-Western is the pioneer transcontinental line, its little train, miles forerunner of '48, reaching bravely out to the great West, has always kept just a little ahead of the fast pace set for progress by the young man, who, taking Greeley's famous advice has gone West, until the West and the Far East are ready to join hands as one. The North-Western has played an important part in the growth of the western country. Double-track trunk lines, heavy locomotives and palace-like passenger trains have all come to the West largely as a result of the work of this Pioneer line. The completion of the double track to Omaha, the first double track between Chicago and the Missouri River, puts the road not only at the front as compared with the other western roads, but in advance of many of the eastern lines that traverse country where the population is much more dense.

OR IN NEW BRUNSWICK.

Missouri Man refuses to accept a legacy of \$15,000 conditional on changing his name. There are plenty of girls in Missouri, no doubt who will change their names for half the amount.—Montreal Herald.

TO PRISON FOR 25 YEARS.

ELDORADO, Kansas, July 8.—Jessie Morrison, convicted June 20 of murder in the second degree for killing Mrs. Olin Castle by cutting her throat with a razor in June, 1900, was today sentenced to 25 years in the penitentiary. Motion for a new trial was overruled.

OUR \$1.00 VALUE!

Ladies' Fine Laced Shoes made of Fine Dongola Kid, lined with Kid, fairly heavy sole a good fitter and made on a stylish last. This is without doubt the finest shoe in the city for \$1.00. See them at

Agents for Ch'town.

SCGRES OF USES.

While Dr. Chase's Ointment is best known on account of its wonderful control over eczema, salt rheum and piles, it is found to be in almost daily demand in many homes as a cure for children, chafing, pimples, sunburn, burns, scalds, and each and every form of itching, irritated or inflamed skin. It is invaluable in every home and as a soothing and healing application known no equal.

CHICAGO MARKETS.

CHICAGO, July 9.—(Special).—July.—Wheat, 78½; Corn, 61½; Pork \$18.60
Sept.—Wheat, 78½; Corn, —; Pork \$18.72½
Oct.—Wheat, —; Corn, —; Pork —

THE AGE OF BRAIN WORK

"In these days, half our diseases come from the neglect of the body in the over work of the brain. In this railway age the wear and tear of labor and late let go on without pause or self pity. We live longer than our forefathers but we suffer more. They fatigued only the muscles, we exhaust the finer strength of the nerves. Dr. Chase's Nerve Food is the greatest medicine of this age because it is best suited to the needs of the present day. It restores and revitalizes wasted nerve cells and makes the pale, weak and exhausted strong and healthy and vigorous."

CLERGUE'S STEEL RAILS COMING.

OTTAWA, July 8.—Two thousand tons steel rails for the I. C. R. have reached Depot Harbor, from the Clergue works at the Soo, this being the first shipment.

Picnic Baskets.

One case nice, light PICNIC OR MARKET BASKETS, all sizes. Prices from 10c. to 30c. each.

THEY WON'T STAY HERE LONG.

Haszard & Moore's

BRITAIN'S WELCOME TO THE CANADIANS.

Owing to Crush of People Part of the Program Had to be Abandoned.

ALEXANDRA PALACE, London, June 23, 1902. On Saturday was held London's Welcome to the Colonials. All day long Londoners streamed on to the grounds which are about 160 acres in extent and by evening the crowd had swelled to tens of thousands, so large in fact that some of the program had to be abandoned. The admission to the grounds and palace was one shilling, so that the gate receipts must have totalled thousands. It is said that Crystal Palace never had as many people within its bounds as assembled here on Saturday to be present at the military tattoo and extend a welcome to the representatives of Britain's kinsmen from over the seas. And there was no mistaking the sincere and spontaneous character of the welcome which these 50,000 Londoners gave us. Whether the wearer of the King's uniform was white, swarthy or black, it mattered not, he was a British subject and a British soldier, and distinction of climate and race were forgotten in the general rejoicing. Five bands were in attendance and furnished music all the afternoon. At night owing to the desire on the part of each one to be nearest the colonial soldiers during the tattoo it was found impossible to maintain the necessary space for the ceremony and what might have been picturesque, resolved itself into a mere torchlight procession. The fireworks on the lake front were grand. This consisted of five portraits of distinguished Generals, patriotic devices and the final flight of a thousand rockets. Then the National Anthem from 50,000 throats called out into the night. As the Anthem ceased a pyrotechnic portrait of the King blazed out. There a deafening cheer and the day's proceedings were at an end. The following colonials are now under canvass at this place.

	No. men	Six Nations
Canada	655	1 Indian
Australia	140	
New Zealand	127	33; Maories
Cape Colony	150	
Bermuda	6 Europeans	16 natives
North Borneo	2	22
Rhodesia	26	"
Ceylon	55	48 Cingalese
Cyprus	14	"
Fiji	3	21 natives
Gambia and Sierra Leone	1	23
Gold Coast	1	32
Jamaica	2	25
Lagos	2	25
Natal	100	
Northern Nigeria	2 Europeans	32 natives
Southern Nigeria	2	49
Straits settlements and Federated Malay States	53 Europeans,	57 natives.
Trinidad	31 Europeans	19 natives
Uganda	2	90
Gold Coast Volunteers	6	

In addition there are contingents of local Imperial Forces from Egypt, Jamaica, Malta, Hong Kong, and Sierra Leone. The Indian troops are quartered at Hampden Court. Later on I will give a complete list of these. One thing to be seen in London that will interest Canadians is the Canadian Arch. It cost over \$30,000. The material which was brought over from Canada filled six railway cars. The arch is horse shoe shape, with a central roof 32 ft above the roadway. The total elevation is 76 feet and it is covered with all the products of the Dominion. At the last moment 10,000 roses shaped into festoons will be added. A new plague is now rampant in London; it is called kindness. If the Canadians never return you will know their fate, exterminated by the English people with kindness.

Yours Truly
F. B. McRAE.

THE MARITIME DENTAL ASSOCIATION.

The Closing Sessions—Drive in the Afternoon and Smoker in the Evening.

At yesterday morning's session of the Maritime Dental Association Dr. Lawrence Baker gave an address on Facial and Dental Harmony, illustrated by charts. His address was much appreciated and generally discussed. An invitation was accepted from the Maritime Medical Association to meet with them at 2 o'clock in the Legislative Assembly Chambers to hear essays by John R. McIntosh, M. D. of St. John, on Diseases of the Eye and Ear in relation to the Teeth; and J. M. Magee, D. S., of St. John, on The Mouth as an Index of Disease; and H. D. Weaver, M. D., of Halifax, on The Therapeutics of the X-rays. Dr. Bagnall was elected Treasurer of the Association. On motion it was decided to meet in Halifax in 1904 at the same time as the meeting of the Maritime Medical Association instead of 1905 as arranged yesterday. A vote of thanks was tendered Dr. Dubrau, Webster, Baker, W. Innot, Murray, Cates, Burns, Belyea, and Magee. Lieut Governor McIntyre received the hearty thanks of the meeting for his kind invitation to Government House. A vote of thanks was tendered to the Maritime Medical Association for their invitation to meet with them in the afternoon. Dr. J. S. Bagnall and members of the P. E. I. Association were tendered a vote of thanks for their hospitality and courtesy towards the visiting brethren. The exhibitors of dental goods, S. S. White & Co, Boston, Brown & Webb, Halifax, Paterson & Foster, Montreal, Pattison Dental Co, Montreal, and H. K. Wampole & Company, were tendered a vote of thanks for their fine exhibits. The meeting adjourned to witness clinics by Drs. Belzar of St. John, Murray, of Moncton, and Burns of Sydney. In the afternoon the members of the Association met with the Medical Association where papers were read by Drs. J. M. Magee and J. R. McIntosh after which the Association drove to Saffik in carriages to be present at St. James' Sunday School Picnic.

CLOSING SESSIONS OF THE MARITIME MEDICAL ASSOCIATION

At the opening session of the Medical Association yesterday morning the election of officers was proceeded with and resulted as follows: President—Dr. Murray McLaren. Vice President for P. E. Island—Dr. P. C. Murphy, Tignish. Vice President for N.B.—Dr. R. L. Bostford, Moncton. Vice President for N.S.—Dr. G. M. Campbell, Halifax. Secretary—Dr. T. D. Walker, St. John. Treasurer—Dr. C. A. McPhail, Summerside. Committee of Arrangement—Dr. White, Moncton; Dr. Ellis, Dr. McIntosh, Dr. J. P. McFevry, Dr. W. A. Christie. The retiring officers received the thanks of the Association and a vote of thanks was tendered to the secretary Dr. Cameron of Halifax who has been secretary for some five years. Dr. R. McNeill then followed with an address on Ethics. He said the question comes in from different standpoints and he thought that there should be no cast iron rules governing the conduct of medical men in their intercourse with each other. There is a Canadian code of ethics but as adopted the Maritime Association had not adopted it. A physician should be able to say that the profession is the better of him having been a member. He was sorry to say commercialism had taken a strong hold particularly upon the younger members. It is contrary to the rules of the profession to advertise. He believed the English practitioners to be the most advanced in professional ethics. Dr. Madler of Halifax followed Dr. McNeill, speaking along the same line. Dr. Stodart said that one part of the code in his opinion was neglected by medical schools and boards, viz: the Hippocratic oath. He believed that if every medical man had to take this oath and lived accordingly everything would be as desired. He strongly denounced clandestine advertising such as allowing cards to be published thanking doctors for free services. In consultations the doctor consulted should take great care not to injure in any way the professional reputation of his colleague. Dr. Beers of Ferry Valley wished to have a code of fees fixed. Dr. Murphy of Tignish, thought that legislation would do no good. If a physician's sense of honor was not sufficient to guide him along the right course he did not see how any code will regulate.

FIVE FIREMEN MEET DEATH IN AN ONTARIO FLOUR MILL

Meeting of Ottawa Cabinet—An Important Appointment Pending—Two Canadian Soldiers Ill—Canadian Oarsmen Did not Win at Henley.

VACANT OFFICE TO BE FILLED.

OTTAWA, July 10.—(Special).—A meeting of the Cabinet will be held next Tuesday and will probably select the new Dominion Archivist. Another report has it that no appointment is likely to be made until after the Premier's return.

CANADIAN SOLDIERS ILL.

A cable from South Africa says Ernest W. Walford of Ontario, a member of the Constabulary, is seriously ill of enteric

and Edwin E. Graham, Centerville, N. S., dangerously ill of pneumonia.

TORONTO, July 10.—(Special).—Five firemen were killed in a fire in McIntosh and McCann's flour mill.

HENLEY ROWING EVENTS.

At Henley F. S. Kelly of Oxford won the diamond sculls. The Third Trinity, which defeated the Argonauts of Toronto, won the grand challenge cup.

In consultation although nothing may be said to injure the attending physician a shrug of the shoulders or a mere hesitancy in expressing an opinion may do more to discredit the treatment of the attending physician than if he spoke out freely.

Dr. Madler then moved that a committee of three be appointed to frame a code.

Dr. Atherton of Fredericton thought that since a code can only be a guide the Canadian code should be adopted. Dr. Kelly then read a paper on "Treatment of Piacents Prævia". A subject of much importance and which every medical man must be prepared to treat promptly sometimes taxing the resources of the most skillful man. He cited a number of cases in his own experience with treatment and results.

Dr. Ross of Halifax then read "Some notes on treatment of prostatic cases." He illustrated his remarks with various instruments and at the conclusion a lengthy discussion was indulged in by Dr. Murphy of Halifax, Dr. DeWett of Wolfville, Dr. Atherton of Fredericton and Dr. Walker of St. John.

Dr. Weaver gave the last paper of the morning session on "Therapeutic use of the X rays." He cited the results obtained in all the large clinics on both sides of the Atlantic, splendid results being obtained in some cases, particularly in skin diseases. Dr. Atherton, and Dr. Ross discussed the paper.

AFTERNOON SESSION.

At the afternoon session of the Maritime Medical Association and Maritime (Continued on Fifth Page.)
