MOORE & McLEOD LIMITED

HAMILTON'S Royal Milk Lunch BISCUITS

Delicious To The Last Crumb!

A Two Million Dollar Building for Ottawa

A house in which lived the Honorable Alexander MacKenzie, prime minister of Canada between 1874 and 1878 was torn down with several others to make way for a fine new home of the Metropolitan Life Insurance Company in Ottawa. It is to be ready for business by next autumn.

—GEORGETOWN SERVICES.—Georgetown, Holy Trinity, Holy Communion, 11 a. m. Evenson's p. m. Preacher both services E. M. Malone.

—Minard's Lintment used by physicians.

—Berlin, May 21.—The younger set of the German capital is threatening war on Berlin's police department. The storm of indignation from the German youth arose when a police order banned curtains and taxicab accessories. It grew in strength when several taxi drivers carrying "petting" parties, were warned that another appearance of these automobiles on the streets, with their interior concealed, would lead to arrest.

—"Petting" parties in the park and heavy curtained taxicabs have enjoyed great popularity here in the past. On Saturday long processions of the vehicles carrying boys and girls, under 20 years of age, have made their way out of the city and headed for the countryside—and seclusion. Sometimes, in the evenings, many such cars have been parked in the vicinity of Tiergarten Park.

Now the privacy of the taxicabs to be invaded by the stares of the pedestrians or the piercing gaze of passengers on a street car. (As the order is enforced the youth of the city becomes more and more enraged. They speak mockingly of the police commission's daring to attempt to protect morals in such a manner.

They are assisted in their campaign against the police by the taxicab drivers.

This latter class of workers, deprived of a regular source of income, naturally have nothing but harsh words for the new rule. They have been known to defy it on some occasions; especially in the

—W. D. Euler, Independent Liberal M.P. for North Waterloo, though announcing his intention to vote for the Robb budget, expressed the hope that there would be some changes in committee by which the tariff adjustments would not bear so heavily upon automobile parts struck down by a complication of

—Minard's Lintment used by physicians.

Science vs. Theology

THE WORD EVOLUTION IS BEING REPLACED BY THE WORD PROGRESS, DECLARES REV. DR. J. C. SPEERS.

(Canadian Press.)

HAMILTON, Ont., May 21.—Many have fears not because of the general fact of evolution but because of the implication. Science should be told to keep off the grass of theology. Science has to do only with material things. The word evolution is being replaced by the word progress among the best thinkers.

Such was the declaration of Rev. Dr. J. C. Speers, of Dundas, in addressing a session yesterday of the Theological Union of the Hamilton conference of the United Church.

Dr. Speers was chosen at the session to be the Union's president for the ensuing year.

Marriage Regretted

NOLAN A. HUSSEY OF ST. LOUIS GRANTED DIVORCE FROM DOROTHY LOUGHEED HUSSEY, DAUGHTER OF THE LATE SIR JAMES LOUGHEED.

(Canadian Press.)

ST. LOUIS, May 21.—Nolan A. Hussey, of St. Louis, was yesterday granted a divorce from Dorothy Lougheed Hussey, daughter of the late Sir James Lougheed, of Calgary, Alta. The decree was awarded by Circuit Judge Peary, on a charge of desertion.

Although he surrounded her with what he said were the "usual comforts and luxuries of a man of his station," Hussey told the court that the sharp contrast in her new life with the old, caused her to tire of her changed status and to regret her marriage.

—In Memoriam

MR. BERNARD D. BROWN

The death occurred at his home in Port Hill, P. E. I., on Wednesday, May 19th, 1926, of Mr. Bernard D. Brown at the age of seventy-eight. Mr. Brown had been in his usual health until a month previous to his death when he was stricken with a complication of

Science vs. Theology

heart and stomach trouble which baffled skilled medical attention. His death came as a great shock to his family who had hoped that he was on the road to recovery.

He was of a bright cheerful disposition, a deep thinker, and a witty conversationalist. Friends come and an hospitable entertainment. His demise will be deeply felt in the community and more especially in the home where his loss is irreparable.

He was a devout Roman Catholic and although living some seven miles from the church it was remarked that up to the time when he was somewhat incapacitated he was never absent from Holy Mass and was always one of the first to arrive. As a fitting reward for this practical devotion, he died, fortified and consoled by the last rites of Holy Mother Church, lovingly administered by his pastor the Rev. John A. McDonald.

Mr. Brown was the son of the late William Brown and Henrietta McArthur and was the last surviving member of a large family. His first wife, who predeceased him twenty-five years, was Veronica McDonald, daughter of the late Cielly McIntyre. His second wife was Theresa McDougall who bore him four children. He was the father of four children of his first marriage. The children are: Bernetta, who arrived home from Cleveland, O., two weeks before his death, Annie and Harold on the home-stead and Kathleen, teacher, Mt. Pleasant.

To the bereaved we extend our sincere sympathy.—N.

THE MARKETS

(Canadian Press.)

OTTAWA, Ont., May 21.—Situation of the egg market is very firm and unchanged. One Eastern exporter cabled an offer of extras to Emglund for fall shipment at 40 f.o.b. without response.

Dezeng Diagnostic Professional Unit

COMFORT FOR THE PATIENT EFFICIENCY FOR THE OPTOMETRIST

The Wellworth Unit presents a complete selection of instruments that enables the optometrist to cover completely the patient leaving the chair with each individual instrument. An important requisite of a refracting outfit is absolute comfort for the patient.

This has been accomplished in the Wellworth Unit with its adjustable seat, head rest and chin rest. The chair can be reclined or lowered and adjusted to the perfect comfort of the patient. A comfortable padding can be more quickly and easily examined.

Accuracy and efficiency for the optometrist is accomplished by the Dezeng diagnostic instruments. Minute precision which are in instant reach and spring into the patient's line of vision.

This Unit is used in all examinations by
