COMMONS TOLD STRAIT OF CANSO TO BE BRIDGED

Federal Expenditure Up 27 Million For Next Year

Opposition Leader In Searching Review Of Budget Proposals

Dr. W. J. P. MacMillan in the afternoon session told the Legislature that the guarantee of financial assistance to the small Provinces, made at the time of confederation and provided for in the British North America Act, had been "invaded, violated and taken away by agreements."

Dr. MacMillan said P. E. I. suffered the "greatest financial injustice perpetrated on the small Provinces." Tardiness of two Federal Governments from 1926 to 1934 to implement reports of the Duncan and White Commissions had cost P.E.I. about \$3,000,000 in grants the Province "badly needed."

He said he did not wish to assume the role of a prophet like Premier J. Walter Jones, but he would say the present Provincial Government would not be in power in 1951. His party then would have the Rowell-Sirois Commission report carried out with respect to financial assistance to small Provinces.

Under this report the Federal Government would assume all provincial debts. The Provinces would need no further subsidies and would not have to provide sinking funds.

At times there were sharp exchanges across the floor of the House. Premier Jones, Public Works Minister George H. Barbour and H. H. Cox, minister without portfolio went to interrupt the Opposition leader and reply to charges made against them and their departments.

Bills Approved

During a business session of less than two hours the House gave final approval without division to three bills. They provided amendments to the Public Health Act, the P. E. I. Corporation Income Tax Act and the Corporation Income Tax Collection Agreement Act.

The House gave approval in principle to the Pharmacy Act with amendments. As discussion continued in committee of the whole there were strong objections from three Liberal members to certain sections of the private measure, promoted by Health Minister Alex Matheson.

Kenneth Clark (L-3rd-King's), William Huchler (L-5th-King's) and George Saville (L-5th-King's) said farmers would be hindered in their work if they could not buy certain commonly used drugs from country stores.

Mr. Matheson said they were "misinterpreting" the act, which was being passed at the request of the Provincial Pharmaceutical Association. It would provide protection for the public by requiring licensing of pharmaceutical chemists and making educational standards conform with those accepted elsewhere.

Dr. MacMillan reviewed the history of the act.

Coming Events

- "Mail your Films to Garnham Photo Studio, Charlottetown.
- "Film showing Mount Mellick school Tuesday, March 15 at eight o'clock.
- "National Film Board Show in Hazelbrook School, March 17th at 8 o'clock.
- "Unloading Tuesday and Wednesday, car coal, Colville Station. George Kitson.
- "Glenaladale school concert in Tracadie Hall Thursday, March 17. Curtain rises at 8 P.M.
- "Crockinole Party and Share the Wealth, Cherry Valley Hall, Tuesday, 15th. Sale of candy.
- "See "The Bells of Shannon" at St. Peter's Bay, March 17th. Legion Hall, 8:30 P. M.
- "Dance, Bonshaw Hall, Wednesday, 16th Sale of luncheon. Sponsored by Womens Institute. MacNeill's Orchestra.
- "Now booking clover seed. Farmers, our prices will save you money. Rush your orders. MacGuigan & Boyle.
- "Hampton Hall, Friday, March 18th. Irish Concert. Sale of Boxes. Auspices W. I.
- "Jimmy Power's Variety Concert at Vernon River Hall, March 16th, at 8:30. Under the auspices of the C. W. L.
- "See George Raft and Sylvia Sydney in "Mr. Ace" plus "Superman" at MacDonald Bros. Theatre.

**Rejoicing Over Bridge
News In Cape Breton**

By DON MacKENZIE
CANADIAN PRESS CORRESPONDENT
SYDNEY, N. S., March 14—(CP)—There was jubilation—it almost approached dancing in the streets to the shriek of pipes—in Cape Breton tonight over today's announcement that Canso Strait would be bridged.

"We won!" shouted M. R. Chappell, president of the Canso Crossing Association.

Then he added in a more moderate voice: "The Canso Crossing Association rejoices to think that its efforts played a small part in the achievement of this goal."

The bridge will link Cape Breton Island and the Nova Scotia mainland. Construction will be completed in about three years. The announcement—an historic one for Cape Breton—was made simultaneously in Ottawa and Halifax by Transport Minister Chevrier and Premier Macdonald of Nova Scotia.

Gordon Elman, president of the Sydney Board of Trade, said: "I regard this as one of the greatest things that ever happened. It will be a great boon to the economic

**Take Steps To Introduce
Parking Meters In City;
Approve Skim Milk Sale**

Charlottetown City Council took further steps toward the introduction of parking meters and skim milk in the City, at the regular monthly meeting last evening. Mayor Earle Macdonald presiding.

Councillor M. A. Farmer stated that the Police Committee had approved "in principle" the installation of parking meters in the City. Information was being sought from the City of Saint John, N.B., which is using two of the most popular types of meters, as to the one most suitable for Charlottetown.

On a question from the Mayor as to the citizen reaction to parking meters, Councillor Farmer stated that he had heard comments pro and con. "It has been

Butter Prices Decline 2 Cents Here Today

With an additional two-cent drop again today, Prince Edward Island butter has joined the general downward price-trend across Canada.

In some places reductions, as much as ten cents, have been reported, with prices continuing downward.

Some island opinion believes that this trend which has dropped the price of Island butter four cents within a week, may continue until the retail price falls to 68 cents per pound for first-grade butter, which is the level at which the Government price support program comes into effect.

Other opinion in Charlottetown expressed the hope that a few cents drop will satisfy the uncertainty.

Some of the reasons given for the price of Island butter remaining firmer than elsewhere, includes the argument that although production increased 34% last month over February, 1948, the current supply is not sufficient for the Island's domestic needs.

Consequently, butter in storage which is less than last year, is augmenting the domestic supply. If a surplus of Island butter had to be exported, the price would fall faster and to lower levels.

It is expected, however, that when more butter is offered, Island prices will drop accordingly.

Retail price of first grade butter in Toronto was 63 and 64 cents per lb. in Montreal, with a drop of 5 1/2 cents in the past week, at 63 cents wholesale; retail in Ottawa from 64 to 67 cents.

One reason for the continuing downward price trend was the fact that the situation is so uncertain. Dealers don't know what the price will be more than a day ahead. Thus they are buying only enough to get through each business day.

Firms with butter in storage, on the other hand, are unloading it because of falling prices. The chief effect of this is to keep the prices going down.

\$5,750,000 P.E.I. Share Of Federal Estimates

Treasure Hunt Ends In Tragedy

HAMILTON, Ont., March 14—(CP)—A "treasure hunt" in a home-made raft on Hamilton Bay brought death to two boys early today and police held out little hope for the safety of their two companions.

The bodies of two of the boys were pulled from the icy water late today and crews of life-guarders and police still were dragging tonight for the other two bodies.

They recovered the bodies of Murray Smith, 11, and Harry Pesonick, 14. Bernard Lezon and John Barclay, both 14, are still missing.

With a tattered felt pennant on their makeshift raft, a supply of doughnuts and a wooden sword, the boys went off in the raft last night. They had spent Sunday afternoon making it from abandoned aircraft gasoline tanks and a few pieces of plank.

The wreckage of the raft was found along the beach early today.

Clothes Rationing Ends In Britain

LONDON, March 14—(CP)—Clothes rationing in Britain ends tomorrow as abruptly as it was imposed June 1, 1941.

Harold Wilson, president of the Board of Trade, rose today in the House of Commons and made this announcement: "I have today signed an order ending completely the clothes rationing system."

BIGGEST OIL REFINERY

The world's largest oil refinery is at Abadan, Iran.

Chinese Premier

OTTAWA, Mar. 14—(Special)—Prime Minister Abbott today tabled in the Commons the 1949-50 estimates providing for expenditures of \$2,217,678,181, an increase of \$277,114,699 over estimates for the 1948-49 fiscal year ending March 31.

The increase was attributed to higher expenditures on national defence. They will amount to an estimated \$375,000,000 in 1949-50 compared with \$251,000,000 in the current fiscal year which ends March 31.

"This increase reflects the increased cost of the expanded defence program made necessary by the same dangers which have led up to the proposed North Atlantic pact," said Mr. Abbott in a statement issued after he had tabled the estimates in the Commons without comment.

"Apart from this increase for national defence, the total expenditure provided for in the new estimates is lower than that covered in estimates for the current year by \$86,477,000, increases for some departments being more than offset by reductions in others," said Mr. Abbott.

"The principal reason for increases in individual votes in the estimates is to be found in the higher level of prices, construction costs, wages and salaries prevailing at this time as compared with a year ago.

"The effects of this higher price and cost level are to be found distributed in most departments and votes, as well as in the general vote providing for increases in wages and salaries, on which many have taken place since the individual votes were prepared."

Larger Projects

Among larger projects listed by the Government for Prince Edward Island in the 1949-50 estimates are: Charlottetown wharf reconstruction, \$350,000 of which \$238,000 is a re-estimate; construction of a railway wharf at Souris, an entirely new project, \$220,000; construction of a railway wharf at Summerside, \$113,000 of which \$84,000 is a re-estimate; Little Sands wharf construction, \$90,000 of which \$70,000 is a re-estimate; wharf and breakwater at Fishing Cove, \$65,000; breakwater, repairs at Souris, \$58,000; Launching Pond-Bow Harbor, re-estimate of \$37,000; breakwater at Tracadie harbor, \$50,000.

Substantial additional public works are expected for, and will be requested by all four Prince Edward Island members in the supplementary estimates to be brought down in the Commons later this session.

Provinces To Get More Money Under Tax Agreement

OTTAWA, March 14—(CP)—The seven Provinces which have taxation agreements with the Federal Government will receive in 1949-50 an estimated \$10,475,000 more than they did during the current fiscal year.

The main 1949-50 estimates, tabled today in the Commons, show that the Provinces—all except Ontario and Quebec—will receive about \$91,500,000 compared with \$81,025,000.

The break-down by Maritime Provinces, with the 1948-49 payment in brackets, follows:

Prince Edward Island, \$1,000,000 (\$1,675,000); Nova Scotia, \$11,400,000 (\$10,175,000); New Brunswick, \$9,200,000 (\$8,050,000).

The payments are made to the Provinces which agreed to give the Federal Government exclusive use of the personal income, corporation and inheritance tax fields.

Woman 105 And Still Going Strong

BROWN HILL, Ont., March 14—(CP)—Mrs. Elizabeth Alexander, celebrating her 105th birthday today, admits she's "full of aches and pains," but "if the right man came along" she wouldn't reject a proposal.

The white-haired woman sews and reads her Bible daily without benefit of glasses. She trots up and down stairs and gives her daughter-in-law a hand with the dishes.

Estimates For 1949-50 Tabled In House of Commons

(By The Canadian Press)

OTTAWA, March 14—Finance Minister Abbott today tabled in the Commons the 1949-50 estimates providing for expenditures of \$2,217,678,181, an increase of \$277,114,699 over estimates for the 1948-49 fiscal year ending March 31.

The increase was attributed to higher expenditures on national defence. They will amount to an estimated \$375,000,000 in 1949-50 compared with \$251,000,000 in the current fiscal year which ends March 31.

"This increase reflects the increased cost of the expanded defence program made necessary by the same dangers which have led up to the proposed North Atlantic pact," said Mr. Abbott in a statement issued after he had tabled the estimates in the Commons without comment.

"Apart from this increase for national defence, the total expenditure provided for in the new estimates is lower than that covered in estimates for the current year by \$86,477,000, increases for some departments being more than offset by reductions in others," said Mr. Abbott.

"The effects of this higher price and cost level are to be found distributed in most departments and votes, as well as in the general vote providing for increases in wages and salaries, on which many have taken place since the individual votes were prepared."

Major Increases

The departments showing the major increases in expenditure, other than Defence, are National Health and Welfare, Mines and Resources, the Post Office, Transport, Public Works, National Revenue, the Research Council, and the Unemployment Insurance Commission.

The Health Department expenditures were up \$19,402,227 from \$76,946,984 to \$96,349,211.

CUTLERY ADDITION

Eating with forks was not known in England until the reign of James I.

S' side Town Council Strongly Opposed To School Act Amendment

A motion was unanimously passed at the regular meeting of the Summerside Town Council last night expressing strong opposition to an amendment to the School Act now receiving consideration by the Provincial Legislature.

Mayor J. F. Arnett presided at the meeting, which was attended by all the members of the Council.

The matter was brought up by Councillor Henry Wedge who said that he had learned that an amendment to the School Act is to be passed that would affect incorporated towns. The amendment would permit persons living outside the town limits who send their children to school in town

to deduct from the school fee any tax that they might pay to the town. The school fee in Summerside for non-resident children is \$30. The matter is an important one to the town and tax payers, he said particularly at a time when the town is trying to raise more taxes from its citizens.

Councillor Wedge said that when he came in to the Council the town spent \$12,000 annually on the school and the amount is now \$30,000. He said that he had talked to a number of people living on the outskirts of town and they thought they were lucky to be able to send their children to such a

Drew Strongly Critical Of Gov't Control Policies

By GEORGE KITCHEN
OTTAWA, March 14—(CP)—George Drew, Progressive Conservative leader, criticized the Government's control policies in the Commons today and said it had no right to ask in 1949 for continuation of emergency powers stemming from a war that ended in 1945.

He swung into an attack on legislation preliminary to retention of controls on rentals, food prices, timber and steel and suggested the Dominion was following the wrong procedure.

He conceded that there was "no question" about the fact the Federal Government must deal with the rental situation and deal with it "in a more efficient way" than it had in the past. But it could not justify this on the theory of continued emergency.

He suggested the Government bring down legislation written in "clear and unmistakable terms" which would bring to an end the "confusion" now existing between landlords and tenants.

Specifically, Mr. Drew spoke on a resolution preliminary to bills to give life for another year to the wartime restrictions on timber, steel, rentals and the prices of such foods as bread, butter, sugar and certain canned fruits and fruit juices.

A series of news-worthy Government announcements in the opening stages and a division on the question of what he termed the chamber should adopt delayed consideration of the control legislation and Victor Quelch (SC—Acadia) was the only other member to take the floor in the afternoon sitting.

He said the Social Credit group was not satisfied with the type of control the Government was seeking to continue and urged the introduction of legislation to increase the purchasing power of the people and forestall a depression.

University Naval Training Division Established Here

A University Naval Training Division for prospective naval officers is to be opened in Prince of Wales College and St. Dunstan's University, officials at H. M. C. S. Queen Charlotte were informed yesterday by Naval Service Headquarters. The Division will be similar to the C.O.T.C. for prospective army officers.

A board is now being held at H. M. C. S. Queen Charlotte for officer candidates.

Following is the text of the signal received at H. M. C. S. Queen Charlotte from Naval Service Headquarters:

"The Minister of National Defence has given approval to commission a U.N.T.D. in Prince of Wales and St. Dunstan's Colleges as a tender to H. M. C. S. Queen Charlotte to date 10 March 1949. A/Lt. Cdr. W. N. Inman, R.C.N. (R.) in command."

The proposal is for a clearance of 14 feet above water at high tide and a vertical lift span close to the Cape Breton shore to provide clearance of 156 feet for the passage of ships.

Mr. Chevrier said the government will implement the board's

(Continued on Page 11 Col. 3)

Chevrier Says Cost Estimated At \$13,500,000

Project expected to require three years; preliminary work to begin shortly.

OTTAWA, March 14—(CP)—A bridge will be built across the Strait of Canso between Cape Breton Island and the mainland of Nova Scotia, Transport Minister Chevrier announced in the Commons today.

Mr. Chevrier said the bridge, a low-level structure to be constructed at an estimated cost of \$13,500,000, would be paid for jointly by the Dominion and Nova Scotia Governments though details of the financing have not been worked out.

His announcement said the government was implementing the report of a joint Dominion-Nova Scotia board of engineers, which has been surveying the bridging project for more than a year.

The bridge is to be completed in about three years. Mr. Chevrier declared in a statement timed with a similar announcement by Premier Macdonald of Nova Scotia at Halifax.

It will replace a car-ferry service now operating across the narrow stretch of water. For many years Nova Scotians have been agitating for construction of either the bridge or a causeway across the Strait.

Mr. Chevrier said the engineers recommended the bridge be located between Cape Porcupine on the mainland and Balacho Point on Cape Breton Island, where the strait is narrowest. The width at this point is slightly more than 3,000 feet.

The proposal is for a clearance of 14 feet above water at high tide and a vertical lift span close to the Cape Breton shore to provide clearance of 156 feet for the passage of ships.

Mr. Chevrier said the government will implement the board's

High tide today at 11:25 A. M. and 11:34 P. M.

Sun rises this morning at 6:14 and sets at 6:05.

By Monday evening skies were clear over the Maritimes. There had been some clouds during the day and there were a few snowflakes in Eastern Nova Scotia, but these ended by sunset. Skies will be clear during the night and temperatures will fall to the same levels as they did last night.

Colder air, advancing eastward from Ontario, is expected to reach the district on Tuesday, causing scattered snowflurries. Temperatures will also be slightly lower on Tuesday.

Regional forecasts:

Prince Edward Island: Clear becoming cloudy Tuesday morning followed by snowflurries in the afternoon and evening. Little change in temperature. Light winds becoming northwest in Tuesday evening. Low early Tuesday morning and high in the afternoon at Charlottetown 18 and 30.
