GROWING POWER OF THE WEST, years ago—the Maritime Provinces... The Ottawa correspondent of the Toronto Globe states that after the next census, which will be taken two years hence in 1911 the growing power of the west will come to be fully realized.

And with this must come a readjustment of the representation by Provinces in the Cabinet. "It will not be a matter of surprise," he says, "if the next time Sir Wilfrid Laurier appeals to the people, there will be in the Cabinet representatives from each of the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia."

Could anything be more reprehensible than the trade in brandy chocolates? These goods are sold chiefly to young persons and children. Dosed with a teaspoonful of brandy in each they have been made a satanic device for cultivating the appetite for intoxicants in a manner that parents and guardians did not suspect. But when a schoolboy in Montreal became drunk on these chocolates and was arrested the public took alarm. If existing laws do not furnish the means of adequate punishment for those engaged in the brandy-chocolate trade, Parliament should lose no time in amending the criminal law in that regard.

IN THE CATHEDRAL.

The city's tempting voice sounds far outside These sacred walls; a breath of tender prayer Lingers upon the incense-laden air. Here hopes have dawned and bitter tears have dried; Despairing sinners have knelt and sighed, And sued their God for mercy; hearts laid bare By sorrow keen have found a shelter rare In these grey walls, where peace and love abide, And as I kneel the moonlit night doth steal Softly around the cross-tipped altar's height, To crown the Christ's head with her gleams of light, And flash upon my sin-stained soul The touch of God's pure finger in the night, And lips give vent to joys that thoughts conceal. —William J. Fischer.

Established 1879 Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria. Cresolene is a boon to Asthmatics. Does not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach? It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children. These of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat. Sold by druggists. Send postal for booklet.
