

Plain Fact

If conditions do not seem to warrant the large expenditure of time and money to qualify the boy or girl for a strictly professional career, the Business College, with its advantages, should be considered.

Modern Business School

It is worthy of careful consideration is best shown by its success in preparing young men and women, boys and girls, for good situations in business, and in a comparatively short period, and in thus laying a proper, practical foundation for commercial prosperity.

Given a bright boy or girl with a good public school education, the reliable business school can convert such a pupil into an immediate earning power to the extent of \$5.00 or \$6.00 a week, as a stenographer or office assistant, in a period of six or eight months.

The time is short, the cost is no great outlay, is very soon made up by the student on leaving college. We have had scores of boys and girls earn more than the whole sum paid for their special training with us in less than six months from the day of graduation.

Even if a situation should not be desired at once, no better training can be given to any boy or girl than the direct, plain, practical, definite courses of the

CANADIAN WOMEN FIND RELIEF

The Case of Ellen Walby is One of Thousands of Cases Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that it is not the pain of menstruation, but the suffering which it causes, that should be relieved?

Ellen Walby

Thousands of Canadian Women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs these periods of their terrors.

Ellen Walby, of Wellington Hotel, Ottawa, Ont. writes: "Your Vegetable Compound was recommended to me to take for the intense suffering which I endured every month and which had been a sufferer for many years. It was prescribed, until, finally becoming discouraged with doctors and their medicines, I determined to try Lydia E. Pinkham's Vegetable Compound, and I am glad that I did, for within a short time I began to mend and in an incredible short time the flow was regular, natural and without pain. This seems too good to be true and I am indeed a grateful and happy woman."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, that "bearing down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues should take immediate action to ward off serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising women free of charge. Thousands have been cured by so doing.

ADVERTISING IS BROAD.

Advertising in itself means publicity, and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadest declaration, and the broader the scope of the announcement, the better the advertising. No occupation that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged excessive. —American Medical Journal
