He claimed that Sir Wilfrid's health is as good that he will be able to speak all over the country.

An encounter that might have assumed more serious proportions took place on Grafton Street west Saturday night. The principals were two residents of different sections of the city, a man and a woman. The former came into the house where the latter was visiting. Some words ensued and soon a lamp chimney smashed against the face of the intruder. The female then left the house and as she was going out her departure was hastened by an agile foot. Soon she returned and began pounding on the door with a stick. The door was opened and a blow on the head of the besieged followed. The battle waxed more acute and but for the timely appearance of an outsider who captured an axe which was being brandished freely bloodshed might have been the result. A short time later one of the principals was captured and taken to the Police Station.

THE EVIDENCE YOU VALUE.
By word of mouth from friend to friend Dr. Chase's Ointment has received more unsolicited recommendation than probably any medicine you can mention. The fact that it is an absolute cure for piles has put it in a class all by itself as a preparation of inestimable value and people recommend knowing that it is a certain cure.
