SUDDEN DEATH OF DR. SUTHERLAND

The Doctor Had Been in the Best of Health During a Trip to Montreal and Chicago—Found Dead in His Bed in Montreal.

SUMMERSIDE, Oct. 6.—A telegram was received in Summerside yesterday evening announcing the sudden death of Dr. John Sutherland in Montreal. The doctor accompanied by Mrs. Sutherland and Miss Montgomery left Bedouque about three weeks ago on a visit to Montreal. After the visit the ladies returned home and the doctor went on to Chicago intending to return at once. He had returned to Montreal and had registered at St. James Hotel on Friday night and was in the best of health up to the time he retired Sunday

night and was found dead in his bed next morning. Mrs. Sutherland was in Summerside Monday night expecting him home when she received the telegram containing the sudden news. It is supposed heart failure was the result. Dr. Sutherland was about 65 years of age and has been practicing medicine since 1873, the past 25 or 30 years of which he has been located in Bedouque. A sorrowing widow, formerly Miss McFarlane, daughter of the late Malcolm McFarlane of Bedouque is left to mourn.

BOLD BURGLARY AT NEW MILLS

CAMPBELLTON, Oct. 5.—Burglars broke into the store of Ben Winsor at New Mills Saturday morning and secured a hundred and twenty-seven dollars. The safe was blown to pieces. The break is supposed to have been the work of expert cracksmen, as nothing which could lead to identification was taken, although there were several negotiable cheques for large amounts in the drawer with the money.

25 MOOSE HEADS FROM BATHURST

BATHURST, Oct. 5.—That the Nepisiguit River cannot be beaten as a land of large game is shown from the number of sportsmen who have visited this district this season. Lovers of good sport have visited here from all over the neighboring republic from Maine to Florida and all have gone away satisfied that a better country for moose hunting has not yet been found.

Over twenty-five moose heads have been taken from Bathurst this season, one of which had a spread of sixty-four inches. The average spread of the season is about fifty-three inches.

FOR YUKON'S GOOD.

OTTAWA, Oct. 5.—Commencing November first there will be a tax of fifty cents per gallon on all porter, beer or lager beer imported into the Yukon from any foreign country. The government has passed the enactment in compliance with a resolution passed in July by the commissioner in council of the Yukon territory, expressing the opinion that it would be a wise and just policy to impose a fee of fifty cents per gallon on all porter, beer and ales which may, in the future, be imported into the territory, but that such tax should apply only to foreign products, and not to Canadian or British products. The order in council, as published in the Canada Gazette, enacts as follows: "That the ordinance of the 22nd of June, 1904, respecting the importation into the Yukon territory of malt and spirituous or intoxicating liquors or other intoxicants and traffic therein, shall be and the same is hereby amended by providing that on and after the 1st day of November, 1908, a tax of fifty cents per gallon be imposed into the Yukon territory from any foreign country."

Condensed ads too late for classification will be found on page three.

NEW WONDERLAND'S FINE PROGRAM

71 is Evening. Comedy Abounding, and Fun Supreme. New Illustrated Song.

A Pleasant Day at the Theatre — is one of the new pictures on this evening. It tells of a nice little girl who has to be rescued by a gentleman when a lady sits before him at the theatre wearing a large hat, and will not remove it. But when the tables are turned on the fair sex, when men similarly decorated persist in keeping on an enormous head gear, brings the situation down to a fine point—and there is any amount of fun in watching the development of the plot.

Half Saturday Off—is another Comedy, dealing with the pleasurable anticipations of a half holiday, to be shared between loving husband and wife. But when forgotten articles are obtained and the hubby returns to the picnic resort, drenched with an unexpected ducky, given involuntarily while getting water for the tea, he receives some pretty rough treatment from his loving spouse's hands. Just come and follow the story at New Wonderland this evening. Miss Dall Zell will sing "Dear Old Comrades" an exquisite bit of melody, and a charming song. The Medterrean Fleet will be shown for the last time, and everyone should see this magnificent picture, it is simply grand. Come tonight.

THE MECHANICS STILL IN DOUBT

They do Not Know Whether the Strike is Settled or Not. Eastern Men Get Left.

MONTREAL, Que., Oct. 6.—(Special)—C. P. R. mechanics in this city are still in a state of uncertainty regarding the settlement of the strike. Some of the strikers are returning to work and there is a feeling that the eastern men are getting short end of deal as compared with the western men, whom they went on strike to assist.

GIRL GETS MONEY ON A CONDITION

School Teacher Will Receive Income From \$20,000 on One Condition.

GREENWICH, Conn., Oct. 5.—Providing she does not marry, Miss Eugenia Warren, a teacher in the Cob Cob Public School, will receive the income of \$20,000 through the will of Juliette W. Murray, of New York, who died in Greenwich on September 12, at the age of seventy years, leaving an estate valued at a quarter of a million dollars, most of which is in personal property.

BISHOP OF HARTFORD PASSED AWAY

HARTFORD, Conn., October 5.—The long and busy life of Right Rev. M. Tierney, bishop of Hartford, ended this afternoon, when he succumbed to the stroke of apoplexy, which bore him down in the fullness of years. In the sickroom at the time were gathered many of the priests of the diocese in addition to the clergymen of the household and of St. Joseph's Cathedral, members re religious orders and the immediate relatives of the prelate. The end had been expected since last night, yet only an hour before death came, the physicians had marvelled at the vitality of the patient and even thought he might live several hours.

LINER DIDN'T HEED DISTRESS SIGNALS

HALIFAX, N. S., Oct. 5.—The schooner Sceptre arrived back disabled at Lunenburg recently after being out nineteen days for Ponce, Porto Rico, she was totally dismantled on Sept. 17, when 400 miles off Lunenburg. The Sceptre ran into a hurricane on the 18th and the next day when the storm was at the worst she hove down by the great force of the wind on her beam ends. Everything was swept from deck. The water supply was lost and the provisions damaged by the cabins being flooded. Captain Burke saved his ship by cutting his foremast away, which went by the deck carrying everything before it, including the main topmast. The hull was seriously battered and the vessel began to leak. After the gale abated somewhat, seas, mountain high, threatened the ship with destruction. Capt. Burke, with great difficulty rigged up his mainmast with two small sails and started for home. He was without water on Tuesday. While slowly making the homeward trip, the schooner was passed by the White Star liner Cedric, bound for New York. Capt. Burke says this steamer passed within 100 feet of the injured vessel much to the disappointment of the famishing men on the schooner. She did not notice the signals of distress.

INDIAN FLOOD VICTIMS NOW NUMBER 50,000

ALLAHABAD, British India, Oct. 5.—The latest reports from Hyderabad, estimate the flood casualties at 50,000. Order is being gradually restored and the bodies buried.

Minard's Liniment Cures Dandruff. FINE AND NO CHANGE

TORONTO, Oct. 7.—(Special)—Light to moderate winds, fine, not much change in temperature.

CONCILIATION BOARD HAS MET

They Ask the Government to Give an Increase Without an Increase in Cost.

OTTAWA, Ont., Oct. 6.—(Special)—The report of the conciliation board appointed under Lemieux for an act to investigate the relations between the I. C. R. and the freight clerks, recommends the re-organization of the service, which it declares to be over manned some places, and government give an increase of 10 to 15 percent without an increase of cost to government. It also recommends that in future there be no patronage or political pull in connection with appointments to places or to promotions on the clerical staff of road and thus avoid over-manning.

AWFUL TRAGEDY DOWN SOUTH

TUCTION, Ariz., October 5.—A terrible tragedy was enacted at Elysian Grove, a pleasure park, where an immense black bear escaped from a cage yesterday and charged a throng of visitors. The animal, which had been raised in captivity from a cub, had been in the habit of drinking soda slop at the bar, and when he escaped he went there. He was driven away by the attendants, who attempted to force it into its cage. The bear became enraged and charged the crowd. The wife of a Southern Pacific employee, Bess Laird, ran with a go-cart containing an infant. The bear pursued and snatched the infant and crushed it to death before its mother's eyes. It was attacking the woman when a shot from a policeman's revolver stopped it. The bystanders opened a fusillade and killed the bear with a score of bullets. The beast had been closely confined since a week ago, when it attacked a small boy.

RICHEST ORE FOUND IN CROWN RESERVE

COBALT, Ont., October 5.—Manager Cohen, of the Crown Reserve, tells that the drift west from the New shaft has today developed the most phenomenal deposit of ore yet found on this remarkable property. The showing in the open cut is magnificent, while the display of ore in one house, a great portion of which is of different characters to the ore in the open cut and comes from the newer workings in a revelation.

TRAIN LOAD OF POTATOES WRECKED

HARTLAND, N. B., Oct. 5.—This morning a double-header train load of potatoes, in charge of Conductor Craig, was derailed four miles south of here, where the new track diversion takes place. Four car loads of potatoes went over the dump and are a hopeless loss. The cars, too, are in bad shape. The cause of the derailment was simple. In order to make the joining of the old and new roads the bank had been excavated very close to the old road, and yesterday's rain softened the earth with the result that the heavy cars caused a cave-in, and were spilled onto the new roadbed. No one was injured, but traffic is completely tied up. Passengers are being transferred. There are now five or six freight trains stalled north of the wreck.

LOCOMOTIVE LET LOOSE; BREAKERS' CLOSE CALL

VANCOUVER, B. C., Oct. 5.—With throttle wide open and steam full on, engine 914 was sent plunging along open line in the yards here and landed on its nose in the pit of the turntable. Had the table been set for the engine it would have crashed into two or three cars of strike breakers located immediately on the other side. It required the efforts of a big gang of men and three large mogul engines twenty-five hours to extract the big locomotive. The damage aggregated thousands of dollars, the machine being broken and dismantled. The yard was filled with dead engines unable to reach the shops owing to the blocking of the line, and traffic was disorganized all day, last Monday. The identity of the persons who started the engine is a mystery. It had been left standing on the track awaiting the arrival of an eastbound train, and while temporarily deserted some one entered and started it, then making a successful escape.

AN ACCIDENTAL SHOOTING AGAIN

Father Was Showing the Gun to a Friend When Little Son Was Shot.

FREDERICTON, N. B., Oct. 6.—Mentys Lyons, the 5 year son of Arch (Special)—At the hospital here, Clew, Lyons, Dodsdown, is lying at the point of death as the result of a bullet received from his father's gun, while the latter was showing a friend the weapon, not knowing it was loaded. A critical operation has been performed by the doctors in an effort to remove the bullet.

BRITISH CATTLE PRICES HIGHER

John Rogers & Co., of Liverpool, called to-day: "States steers, 11 1/2 to 13 1/2; Canadian, 11 to 12; ranchers, 10 to 11; cows and heifers, 9 1/2 to 11; bulls, 8 1/2 to 9 1/2. Trade slow and firm. Edward Watson and Ritchie, of Glasgow, reported to-day: "One hundred and thirty-seven cattle offered, trade firm for prime sorts. Top quality, 13 to 13 1/2; secondary, 12 to 13 1/2; bulls, 10 to 10 1/2 per lb."

MINISTER WAS 118 YEARS OLD

LONDON, Ont., Oct. 5.—One of the oldest residents of Canada died at the Aged People's Home in Rev. Alexander Mans, who has just attained the 118th year of his age, and who was for many years minister of Horton Street Colored Baptist Church. He had resided in London for sixty years. For the past four years he had been an inmate of the Aged People's Home, but was strong and active. He was born of slave parents and grew up in slavery, but when a man of about fifty he escaped and came to Canada.

NO DUPLICATES WILL BE ISSUED

OTTAWA, Oct. 5.—Military orders just issued contain an announcement as to the mode of procedure for South African veterans entitled to the land grants who have lost their discharge certificates. It is announced that duplicate certificates cannot be issued. Applicants for the land grant under the terms of the volunteer bounty act of 1908, who have lost their discharge certificates should forward a certificate of service from their commanding officer or from two members of the corps in which they served, accompanied by an identification certificate from a justice of the Peace, clergyman or other respectable person living in the neighborhood of where they reside.

P. W. A. FIGHT IN THE COURTS

HALIFAX, N. S., Oct. 5.—The fight between factions in the Provincial Workmen's Association has now got into the courts. The men seeking to affiliate with the United Mine Workers of America, have applied to the supreme court for an injunction to restrain the P. W. A. officers from acting and also restraining them from dealing in any way with the funds of the association. The injunction was granted by Judge Graham. The grand council, at its recent meeting, decided to cut off lodges from membership that should agitate for affiliation with any other order thus depriving them of any share in the funds in the hands of the grand officers. This is the first step in what will probably be a long legal battle, one object of which is a division of the grand council funds.

JEWISH NEW YEAR IS BEING OBSERVED

NEW YORK, Oct. 5.—Yom Kibhur began at sunset last evening and will last for twenty four hours, during which time the Orthodox Jews will abstain from eating. It is the best sacred day in the Jewish Calendar and will be strictly observed on the East side almost every place of business being closed. It is estimated that over five thousand Jews in Greater New York will observe the day.

TURKEY LOOKS TO POWERS' DEFENCE

Council of Ministers Met and Decided That it Was Impossible to Accept the Independence of Bulgaria and Looks to Powers For Defence.

CONSTANTINOPLE, Oct. 6.—(Special)—A council of ministers who held a long session today to consider the action of Bulgaria in declaring her independence from Turkey, decided that it was impossible to accept any proceedings, that they violated existing treaties, and that Turkey should address a circular note to the powers, pointing out the necessity of taking measures to enforce a respect for the treaty. Replying to telegrams sent to

the Turkish government by Prince Ferdinand, in which he declared the independence of Bulgaria, he said he had been compelled to respect the voice of the nation and expressed the hope that the friendly relations between the two countries would continue. Turkey says she has invited the powers to confer on the situation and as her rights are guaranteed by the powers, she will look to them for their defence.

QUEST OF SECRET OF LONGER LIFE

PARIS, Oct. 5.—Dr. Doyen, the famous scientist, delivered himself of the remarkable phrase, "Preservation of life through several centuries depends solely on man" at the tenth congress of medicine just ended at Geneva. Interviewed by the Mariva Dr. Doyen supplemented and extended this dictum, affirming, as the Mariva put it, that the prolongation of a man's life until he reaches the age attributed to Methusalem is not definitely beyond the bounds of possibility. "My experiments," he said, "are merely the corollary of the discoveries of Dr. Metchnikoff, the eminent bacteriologist of the Pasteur Institute. He discovered 'phagocytes,' on which my own studies have been based. It is to him we owe the knowledge of the inner mechanism of life. Hitherto there had been only laboratory experiments. I believe I have arrived at the stage of practical application coming to the front. "In multiplying the white corpuscles in the blood (the phagocytes) we increase the co-efficient of vital resistance, and can estimate its value. It is a new departure in therapeutics which is apparently coming to the front. "If we succeed in suppressing colds, chest diseases and bronchitis (and in this matter I have attained absolute success)—and these complaints are often primal cause of rheumatism—we arrive, logically, at the suppression of latent causes of disease.

LONGBOAT IS NOT GOING TO TURN "PRO"

TORONTO, Oct. 5.—In the light of the recent announcement that Tom Longboat must give up distance running on account of an affected heart, the following Boston despatch is humorous: "Tom Longboat, the Canadian Indian, and Alfred Shrubbs, the English champion long distance runner, have been matched for a ten mile race to be run at Madison Square Garden, New York, on October 27th, for the championship of the world. The announcement of the race was made tonight by Arthur Duffy, the sprinter, who is managing Shrubbs. He just returned from Canada, where he fixed things with Longboat. He says Longboat is eager to turn professional. The race will be for a \$1,500 stake and for a percentage of the gate receipts. Shrubbs now holds the record for ten miles, and so far as is known, Longboat has never run a match race at this distance. His distance is supposed to be about 25 miles. Both will start in training at once. Longboat is getting ready in Canada. He will finish up in New York. Shrubbs will do his work around Boston. "All of the Indian's friends and advisers declare there is no truth whatever in the despatch, and that Longboat has never even considered a match with Shrubbs. "In the first place nobody would put up \$1,500 to back Longboat against Shrubbs in any sort of a match," said a friend of the Indian this morning. "Shrubbs could beat him handily at ten miles at that." Tom Flanagan denies the report that Longboat is to turn professional. The Indian will be running in a road race at Montreal about the time of the date of the proposed Shrubbs battle.

RUTH DILLON DEFEATED

COLUMBUS, Ohio, Oct. 5.—Grand Circuit racing for the year wound up upon the Columbus track this afternoon when Milton S. Jr., driven by Walter Cox, won the 2 1/2 mile straight heats from Governor Searles. Ruth Dillon last week winner of the Hoster-Columbus \$10,000 stake made a start in the 2:16 class trot today but was never in evidence. She was the favorite with the Lady Jones' the winner a good second choice. Allan Wilson won the 2:05 pace.

WILL BE MARRIED IN THE LION'S DEN

ST. JOHN, October 5.—Adgie and her three lions have been performing at the Happy Hall Hour moving picture theatre and the theatre management offered a present of a bedroom suite to any couple who would get married in the cage in company with the lions. A daring young man and woman accepted the offer this morning and the wedding will take place tomorrow if the authorities will permit it.

CHEEP POSTAL BRINGS FLOOD OF LETTERS

NEW YORK, October 5.—The first big evidence that the New York Post Office had of the operation of the new two-cent rate to Great Britain and Ireland came this morning shortly after midnight, when two batches of 30,000 and 20,000 letters respectively were mailed by two parties. The letters were mailed by two large business houses. They were the type of mail known as "high-class" circulars. Each batch represented an accumulation that would ordinarily have been mailed some time ago. The letters had been held up to benefit by the reduction of 3 cents per letter. Three cents on 30,000 letters is \$900, a saving worth waiting for on the part of almost any firm in a day's mail. "Up to 7 o'clock this morning, during the first five hours of the operation of the 2-cent rate, 10,000 other letters were mailed to Great Britain and Ireland, outside of the two big consignments. This was not a remarkable mail, as the British mails go. Postmaster Morgan said this morning that the general influence of the new rate would not be felt in its full force for perhaps several days.

Minard's Liniment Cures Burns etc

Minard's Liniment for sale everywhere.

A REPORT OF THE FRUIT CROP

Weather conditions have been fairly favorable for plums, peaches, and grapes, but not for pears and winter apples. Apples—Early and fall fruit nearly all harvested. Winter fruit ripening prematurely and dropping, reducing the crop already below medium. Pears—Are ripening rapidly and are of good quality. Exports to Great Britain larger than usual. Peaches—All harvested but a few late varieties. Prices have been low the average. Plums—Nearly all harvested except in Northern districts. Grapes—A full crop of excellent quality. Prices lower than for

several years. Tomatoes—Have ripened too rapidly for the canning factories, but are of excellent quality. Cranberries—A good crop. There is a demand for the Canadian berries in the United States. Insects and fungus disease—Have developed slightly this month. Pink Rot has developed to a serious extent. Winter Apples in the United States have depreciated in quantity and quality. Prices for Canadian pears and apples in Great Britain have been good and shipments larger than usual. J. A. Fuddick, Dairy & Cold Storage Commissioner. A. McNeill, Chief, Fruit Division.
