Whisky To Be More Plentiful In The U.S.

(By Jack R. Ryan)

NEW YORK, June 26—(AP)—The liquor industry in the United States is preparing for the biggest "coming-out party" since the end of the war.

Starting next month, millions of gallons of whisky will "come of age"—four years old. It's the beverage distillers tucked in storage in 1945 after more than 2 1-2 years of producing war alcohol.

An estimated 17,000,000 gallons of this aged whisky will become available during next month alone. About 35,000,000 more by the end of the year.

That means straight and bottled-in-bond whisky—scarce since early in the war—will be cheaper and increasingly plentiful.

The competition between the straights and bonds on one hand and blended whiskies on the other is expected to be terrific.

Industry forecasters say the market gains made by the straights and bonds are likely to be at the expense of the lesser-known blends. Then any blends that appear to be losing the sales race will be reduced pricewise in search of customers.

Medium and low-priced blended whiskies which have been unavailable since the war will re-enter the contest to stand beside revived straight and bond brands on the store counters.

DIES AT 133?

JACKSONVILLE, Fla., June 28 (AP)—Maj. James Edward Monroe, who claimed to be 133 years old and the son of President James Monroe, died today.

HAVE YOU $10 in U.S. FUNDS?

If you have more than $10 in U.S. cash you should turn it in to your bank, in exchange for Canadian dollars, without delay. Existing regulations make it illegal for any Canadian resident to retain in his possession more than $10 in United States cash.

HERE'S THE REASON

Canada must have the U.S. dollars spent here by tourists in order to make them available for the payment of imported goods and services needed to keep production and employment at a high level.
