

I'm so Nervous I Could Scream

Every woman burdened with household cares feels like that now and then—and more often as time goes on.

It is because of nerve strain which makes the nerve tissues lose phosphates.

To get your nerves back to normal healthy strength the phosphates must be replaced. This is the value of Penslar Dynamic Tonic—it is rich in the vital phosphates for which the weakened nerves are begging.

This is not mere theory or guesswork—it is a well known scientific fact. There is no other remedy which is doing so much today to build up strong, vigorous, resilient nerves. You should find out what it will do for you.

THE CARFERRY.—The car ferry left Cape Town yesterday at 9.40 a. m., docked at Borden at 11.00 a. m., and returned to Tormentine at 5.30 p. m. On her second trip she left Tormentine at 7.10 and docked at Borden at 8.25, making two round trips, carrying passengers, mails and a very heavy freight on each trip.

MR. J. H. SAUNDERS Mgr. Farmer's Clothing Co., has been watered upon to nominate for Councillor for Ward 4 in which he is doing business, but as a number of other candidates are in the field he has declined but will represent Mr. Henry Smith the day of the Election for the Mayoralty of the City in that Ward. 2538pd.

S. D. C. VICTORIOUS.—In one of the cleanest and fastest games played this season the St. Dunstan's team beat the Bankers septette last night in the Arena rink by a score of 5-1. The game was exceptionally fast throughout, the Bankers having a decidedly fast forward line, though the defense was weakened appreciably by the absence of the regular goal-keeper. The return match should prove a rare treat for hockey fans.

MORE HOGS FOR P. E. I.—A carload of young sows arrived in the city last night from Ontario. These animals were purchased by Mr. W. J. Reid for the Department of Agriculture and will be sold to farmers at cost after being bred at the Government Farm, Falconwood. The Department has already disposed of all the breeding sows at the farm together with quite a number of others bought from farmers. The present consignment will be similarly disposed of as applied for. There are applications in for a goodly number of these but there are still some not disposed of. This is a splendid move on the part of the department of agriculture and will do much to increase the bacon production of the province.

MRS. MOTT DEAD.—A telegram was received by Mrs. A. C. White, Vernon Bridge, conveying the sad news of the death of her daughter, Mrs. Earl C. Mott, New York City, which occurred on Feb. 5th, following an operation for appendicitis. Mrs. Mott is the eldest daughter of the late Edwin White, of the Customs Department here and her death will be deeply mourned by a wide circle of friends.

WARD THREE.—Mr. Robert Ratray who has represented Ward Three during the past four years is again a candidate. Councillor Ratray has made an excellent record for himself while at the City Council and especially in the assistance he has in many ways given the Fire Department with which he has long been associated. His card which appears elsewhere in this issue speaks for itself and explains the policy he will advocate if elected.

SMALLPOX AT TIGNISH.—Dr. McMillan, Provincial Health Officer, returned yesterday from Tignish, where he was looking into the small-pox situation that recently developed there. It is assumed that the disease was brought from the lumber camps in Northern New Brunswick, where it has recently been quite prevalent and in some cases virulent, a number of deaths having taken place. The cases at Tignish are not serious but some fifteen families are involved. The strictest quarantine has been ordered and every precaution taken to prevent the spread of the disease.

THE TRAINS.—The Borden train left the City at 6.50 yesterday morning, arrived at Emerald at 2.05—almost schedule time—and reached Borden at 4.20. The train stalled at Borden yesterday and the previous night left at 8 a. m. and reached the City at 7 p. m. To turn the trick of clearing the road it was necessary to use three engines, a plough and a flanger—and eleven hours of steady work. The second train, with mail and passengers left Borden at 9.50 last night, after the second arrival of the Car ferry and arrived here at midnight. A train left Summerside for the City at 6.40 a. m., with two engines, plough and flanger and succumbed to the terrors of McEwen's cutting. She got through it finally but is stalled just a short distance east of the cutting and will probably clear this morning. The Southern train left at 7.25 a. m., arrived in the City at 2.00 p. m. and left on return at 4.25 p. m. The Murray Harbour train, which left on Tuesday and got stalled at Murray River, left Murray River at 7.00 a. m., and at ten o'clock last night was stalled at Ugar. The track is very bad on the southern line, with heavy cuttings, far worse than the Southern line. The Georgetown train left yesterday morning at 6.45, with plough and flanger, passed Cardigan at 6.00 p. m. and at midnight was fighting a heavy track between Cardigan and Mount Stewart. The express and freight trains that got through to Souris on Saturday were the last trains to reach that town. None left this week but a clearing train with two engines, plough and flanger leaves this morning at five o'clock to clear the road to Tignish.

WAKING UP WELL One of the best signs of good nerves and clear well nourished blood, is to wake up in the morning at the right time, without a thought of tiredness or a disinclination to rise.

If you wake up feeling tired, head-achy, and with a desire to stay in bed a while longer, depend upon it your nerves are out of order and your blood is probably thin and poor. An anaemic person is never good for much until after breakfast, but the first waking hours are the brightest of those whose blood is in good condition. For better nerves, a hearty appetite, good digestion and confident spirits, the new rich blood which Dr. Williams' Pink Pills make is the best thing in the world. Take a dose after each meal for a while and see what a difference it will make. Notice how vigorous you will become; how hungry you are at your meals; how steady your nerves will have grown and how confident you feel to take on the day's work. This is all the effect of Dr. Williams' Pink Pills, the greatest nerve tonic ever discovered—the only nerve tonic that makes blood which the body must have to keep you well. You have only to try them and you will be convinced.

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

One of the commonest complaints of infants is worms, and the most effective application for them is "Mother Graves' Worm-Expeller."

CATARRH LEADS TO CONSUMPTION

Catarrh is as much a blood disease as scurvy or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It causes headaches and dizziness, impairs the taste, smell and hearing, affects the voice, deranges and digestion, and breaks down the general health. It weakens the delicate lung tissues and leads to consumption. Hood's Sarsaparilla goes to the seat of the trouble, purifies the blood, and is so successful that it is known as the best remedy for catarrh. Hood's Sarsaparilla strengthens and tones the whole system. It builds up. Ask your druggist for Hood's and insist on having it. There is no real substitute.

WEDDING BELLS.—The residence of Mr. and Mrs. Chas. A. Large, City, was the scene of a very pretty wedding yesterday afternoon, Feb. 6th when their eldest daughter, Edith Marion was united in marriage to Private William Livingstone, son of Mr. Jas. Livingstone of Murray River, P. E. I. The ceremony was performed by the Rev. Dr. Fullerton in the presence of the immediate relatives.

The bride who was unattended looking charming in blue brocade with suit and white satin hat and a set of pearls, wore a gift of her parents. The bride was the recipient of many beautiful presents including a beautiful silver cassarole from the groom's soldier friends. Their many friends wish them a happy and prosperous journey through life.

WEDDING BELLS.—Announcement have been received of the marriage in Epsom, Surrey, England, of Miss Lillian A. Salmons of Epsom to Corporal Walter A. MacLean, son of Mr. James MacLean of Gawayton. The wedding was performed on Jan. 5th, in St. Martin's Church, and was a quiet affair owing to recent bereavement in the groom's family. The happy young couple were the recipients of many handsome gifts, and start out in life with the very best wishes of a wide circle of friends. Corporal MacLean went overseas early in the war and is now permanently stationed in England. Before enlistment in the army he had completed his course as a machinist and left college in Winnipeg to join the colors.

DR. ROSS'S CANDIDATURE.—Another candidate in the person of Dr. Alexander Ross, has been nominally stated for Ward Four, making five aspirants for two seats. In his card which is published in this issue, Dr. Ross says he has consented at the eleventh hour, in response to the pressure of a number of citizens, to allow his name to go forward, and promises to exercise a wartime economy in the administration of the City's affairs. Dr. Ross is well and popularly known in the City, and has the satisfaction and distinction of having "done his bit" overseas, having responded to the call for surgeons and served twelve months at the front. His public spirit having been thus manifested, leaves no doubt that he would, if elected, give his best services to the interests of his ward and the City generally.

POSSIBLY SMALLPOX.—Some alarm was occasioned yesterday by a "Smallpox" placard on the home of Fire Chief Ranahan, 259 Queen Street. On enquiry the Guardian was informed by the Health Officer, Dr. McMillan, that the placard was merely a visit to Chief Ranahan. He found Mr. Ranahan slightly indisposed but with a variable condition and some other symptoms that suggested smallpox. The case was sufficiently suspicious to make precautionary measures advisable and he accordingly had the patient isolated and the house quarantined. Mr. Ranahan is only slightly indisposed and is suffering little if any inconvenience. There had been, so far as Mr. Ranahan knows, no possibility of his coming in contact with the disease, as he had neither been away from home nor had visitors whom he could suspect of carrying the disease. The fact that there is smallpox in the province, in the vicinity of Tignish, the Health Officer considers sufficient warrant to take every possible precaution where there is a suspicion of the disease. Mr. Ranahan's little son had recently been sick with what at the time was diagnosed as chicken-pox and it is quite probable that the father's present illness is of the same variety, whatever it may have been. None of the others in the family have been affected.

PERSONALS Miss Adele MacDonald who has been on a pleasant visit to friends in Milton, the guest of Miss Annie Cole, left yesterday for her home in Johnston's River.

Many friends of Miss Della Clark will be glad to learn that she has returned to Morell after spending a few weeks with her parents at Emerald. She also spent a few days at Charlottetown the guest of Miss Sadie Mills, 171 Kent St., and her sister Miss Pearl Clark who is taking a course at the Union Commercial College.

IN MEMORIAM

HAZEL ELIZABETH CHAPPELLE

On Jan. 26th the angle of death visited the home of Mr. and Mrs. Robert Chappelle, of Marshfield, and removed from their tender love and care their beloved only child, Hazel Elizabeth, aged 13 months. The service at the house and grave was conducted by the Rev. Mr. Fulton, of Charlottetown, who in consoling helpful words pointed through the gloom of sorrow to the clear pure light which shines on yonder shore, where all tears are wiped away, and partings are unknown. After the funeral service a large number of relations and friends joined in the procession to the Marshfield cemetery, where all that was mortal of a particularly lovable child was laid to rest. To the sorrowing parents the Guardian extends sincere sympathy.

MRS. DONALD MARTIN.

The death took place at Iris on Sunday, January 27th, of Katie A. beloved wife of Donald Martin, aged 33 years. Mrs. Martin had been ailing for the last few years. In her long affliction she was cheerful and happy. She possessed an amiable disposition and was admired and loved by all who made acquaintance with her. She was fully reconciled to her God, though cut off in the prime of life. She will be missed in the community, for she possessed a character that makes for the betterment of the world. Besides a sorrowing husband and a young son, she leaves to mourn one sister, Mrs. McLaughlin of Iris, who tenderly cared for her in the last stages of her illness—also three brothers, Neil and Alec, of Vancouver, and Duncan of Iris. The services at the house and grave were conducted by the Rev. M. D. MacLeod, Coletonia.

ONTARIO LEGISLATURE OPENED.

(Special to the Guardian) TORONTO, Feb. 6.—The Ontario Legislature opened yesterday and in a speech from the throne the need was urged for strictest economy in food stuffs. In view of the coal difficulty, consideration was taken of the best possible use of the province and experiments and investigation are to be made immediately.

This Will Interest Stomach Sufferers

Says indigestion comes from an excess of hydrochloric acid.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases, which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash, or nausea.

He tells us to lay aside all digestive acids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoon in a glass of water before breakfast while it is effervescing, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

ARMY AND NAVY VETERANS' SMOKER:

A large Smoker for Returned Soldiers with members and friends of the Boys will be held by the Army and Navy Veterans' Association in their Club Rooms in the Market Hall, on Monday night February 11th, starting at 8.00 p. m.

A musical programme by some of the Island's best talent will be rendered through the evening. A good variety of "Smokes" will be furnished and The Ladies Auxiliary of the Club are providing refreshments in plenty.

The Club has now two large comfortable rooms, well heated and lighted and well supplied with easy chairs and tables, and open at all times to Returned Soldiers, whether members or not. This is free to all C.E.F. men who with their friends are cordially invited to come and have a good time, and meet their chums. 254211.

Not More Than Twenty Doing Egg Hoarding

OTTAWA, Feb. 6.—The denials of certain dealers in Toronto, Ottawa, Montreal and elsewhere that they have any accumulation of eggs such as is referred to by Cost of Living Commissioner O'Connor brought forth from that official today a reiteration of his charge. "I do not refer to dealers who have not got eggs, or only a few," he said today. "The very great majority are in that class. Probably there are not more than twenty dealers in all Canada contributing to the abnormal and excessive accumulation referred to in my report, but there is absolutely no question as to the accuracy of my figures. I am not going to bother with circumstances of people who say they have no eggs on hand and who say they have difficulty in getting them. What I am waiting for is denials from the others—the men whom I know have the stock and from whose books my figures have been taken."

Mr. O'Connor declined to make public the names and stocks at this stage, but intimated that it might be done later.

TREATMENT OF INSANE SOLDIERS IS SETTLED

Provincial institutions will be entrusted with the care of the members of the C. E. F. returned to Canada suffering from insanity but the Dominion Government will pay for their maintenance. This decision was reached in the conference of the Military Hospitals Commission, the Board of Pension Commissioners and the representatives of the provincial governments held in the M. H. C.A. headquarters Tuesday.

Heretofore the Military Hospitals Commission and the Board of Pension Commissioners have paid a flat rate in hospitals for the insane for the 350 men suffering in varying degrees from mental ailments. By the new arrangement they will pay provincial institutions for their maintenance and in addition Sir James Lougheed on behalf of the government agreed to pay an extra allowance per capita, which sum will be directed to the equipment and maintenance of the buildings.

Over 50 per cent of those now receiving treatment in institutions had been suffering from mental disease before they enlisted and eventually would have become public charges in the ordinary course of events.

Those present were: The Honourable Sir James Lougheed, President of the Military Hospitals Commission, Mr. S. A. Armstrong, Director, Mr. E. H. Scammell, Secretary, and Senator J. A. McLenahan, Mr. Robert Gill, Commissioners, Colonel Labatt and Mr. E. Archibald represented the Board of Pension Commissioners, and the different provinces were represented as follows:—The Hon. W. D. MacPherson, Ontario; The Hon. J. L. DeCarie and C. J. Simard, Quebec; The Hon. T. H. Johnson, Manitoba; The Hon. Geo. Bell, Saskatchewan; The Hon. A. J. McLean, Alberta; The Hon. D. J. D. MacLean, British Columbia; The Hon. W. E. Foster and Dr. J. V. Anglin, New Brunswick; The Hon. E. H. Armstrong, Nova Scotia; and The Hon. A. E. Aulneau, Prince Edward Island.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR DOUBLE ITS BEAUTY

Try this! Hair gets thick, glossy, wavy and beautiful at once.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents.

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Holloway's Corn Cure is available.
