Captured

"I'm after you," said a policeman to the burglar, "and I will capture you too," and the daring cop did capture him.
There are several people in this city who have never been captured. Are you not one of those individuals who are after that have never bought a dollar's worth of goods from us? If so you have missed it. We presume you are in the habit of buying from a high priced house you are acquainted with. Are you not aware that one purchase here will cure you of that habit. You may find it hard to break away from old lines; if so, you will appreciate our bargains all the more when we once get you.
We want to capture you so that you can capture some of the good bargains we have captured for you.
