

AutoStrop RAZOR

On Land or Sea

The AutoStrop answers the call efficiently—it is the only razor in the world that automatically sharpens its own blades, therefore, it is the only razor that is always ready for service.

The AutoStrop will give your soldier or sailor the same clean, comfortable shave he enjoyed at home, no matter where he is or under what condition he uses it.

Give him an AutoStrop—it's the gift he needs.

AutoStrop Safety Razor Co.

IT PAYS to buy in this Province.

HARD COAL.—A Pickard & Co. received a car of hard coal today. 4100.

GRAPE FRUIT.—A shipment of Grape Fruit just received at Beer and Goff's. 4101.

MARIE CIRCUIT.—The Rev. B. E. Carrow will preach in the Methodist Church at Marie, 11 a.m., Mt. Stewart 3 Dunstaffnage 7 p. m., on March 24th.

NORTH RUSTICO, ETC.—There will be service next Sunday in the Presbyterian Church in North Rustico at 11 a.m., in Stanley Bridge at 3 p. m., in New Glasgow at 7 p. m.

PRODUCE MOVING.—Yesterday John McQuillan & Co. shipped 65 and cars of potatoes to the Mainland. There are over 80 cars of freight in the yards ready to go to Borden.

WEDDING BELLS.—James Duncan White and Miss Anna Dorenda Farquharson, of this city, were united in marriage on Monday evening, March 18th at the home of Mrs. W. F. Carter, Queen St. Rev. J. Durand MacKenzie performed the ceremony in the presence of a few immediate relatives.

AWAITING BURIAL.—The death occurred on March 18th at Kilmuir of Mrs. William McKinnon after a short illness. Her remains will be buried in Valleyfield Cemetery on the arrival of her sister, Miss McDonald who is on her way from Boston. The sympathy of the neighborhood where she was held in high esteem goes out to her bereaved husband and two small children, who are left to mourn a loving wife and mother.

ANNUAL MEETING.—The annual meeting of the Rogers Hardware Company, Limited, took place in their offices, Queen Street, Wednesday evening last. The financial statement and other reports, which were submitted to the shareholders, indicate that the affairs of the company are in a highly satisfactory condition. The year just ended being the most successful in its history. Since the reorganization of the firm in 1911, the volume of trade has increased annually under the new management, the present volume being double that of 1911. During the year a number of improvements were added to the already up-to-date equipment of the business and at present it enjoys the enviable reputation of being one of the most up-to-date and best kept hardware establishments in Canada. The following officers were re-elected for the ensuing year: President, George J. Rogers; Vice-President, Judge Aen Gas; A. McDonald; Secy-Treas. J. M. Gillis.

ISLANDERS MEET.—Dr. J. S. Clark of Brandon and formerly of Bay View, P. E. I., who is now in Belgoona, has decided that the world is a better place than he thought it was. A number of New Zealanders who had been wounded were brought to treatment to the hospital in which Dr. Clark is practicing. Incidentally in treating the wounds of one soldier the doctor learned the patient's name was Bagnall. The name Bagnall was to the doctor like a breath of fresh air. After a few inquiries on the part of the doctor, imagine the New Zealanders' surprise when he learned that the Canadian doctor who was treating him in a Belgian hospital was a cousin of his own, whom he had never seen. Eric Bagnall, had improved sufficiently to be sent back to his home hospital. Eric's brother, Alex, is also in the trenches and when he comes to see the wounded man he too received a genuine surprise in meeting Dr. Clark. Dr. J. S. Clark is a brother of Mr. J. A. Clark of the Charlottetown Experimental station. Dr. Clark in writing to his brother, Mr. J. A. mentions that he saw Dr. Gordon Alley shortly before leaving England.

LAD TO REST.—The funeral of the late Mr. Arthur Croskill was held Wednesday afternoon from his mother's residence on West Street. The attendance was large testifying to the esteem in which deceased was held by his fellow citizens. The floral offerings were very beautiful. The pallbearers were Messrs. James McMillan, Gordon Hughes, Reginald Aitken, Lloyd Wellner, Ivan Reddin and Dr. Reid. The service in St. Paul's church was conducted by Rev. T. W. Murphy, after which the body was laid to rest in the People's Cemetery.

ROTARY CLUB.—Rotarian C. J. Gallagher delivered an interesting address on "The History of the Moving Picture" to the members of the Rotary Club at their luncheon yesterday at which Rotarian J. R. Burney, president, Rotarian A. A. Ponorey reported on the arrangements made for the annual International Convention at Kansas City, and Rotarian H. M. VanBuskirk made an appeal to the individual members to get behind the local branch of the Navy League of which Rotarian J. O. Lyndman is Secretary. Rotarian J. A. Clark intimated that there was to be no exhibition this year, and the Floral Association had resolved to have no flower show. But a proposal was on foot to hold a flower and vegetable exhibition in Charlottetown at which the various school gardens in the country would be represented, and he asked the members to co-operate with the Floral Association in making the exhibition a success. Rotarian J. E. McLarty asked the support of the Club in the "Soldiers of the Soil" movement; and the Boys' Committee was authorized to lead with the matter.

1,000,000 LBS OF OLEO MARGARINE A MONTH FOR CANADA.

OTTAWA, March 17.—The Food Board has been successful in securing the consent of the United States Food Administration to allow the export to Canada of 1,000,000 pounds of oleo-margarine per month.

Mrs. J. D. McIntyre, city, leaves his morning for Ottawa.

Miss Josie Power, city, left yesterday on a visit to Montreal.

Mr. J. G. Morgan, Ottawa, is among his visitors in the city.

Mr. Charles Mallet, Kingston, leaves his morning for Rosetown, Saskatchewan, where he will locate.

Miss Pricella Buote is spending her vacation of two weeks at her home in Rustico.

Hon. A.E. Arsenault, Premier of the Province, left yesterday for Summerside, where he will spend the week end.

Mrs. H. L. Bowness, who has been visiting Col. and Mrs. D. Stewart has returned to her home in Kensington.

Mrs. Fred McWilliams of Fords Mills, Buctouche, N. B., is visiting in the city the guest of Prof. and Mrs. Vinnicombe.

Dr. J. A. Nicholson, Registrar of McGill University, Montreal, is on a visit to his home in Eldon. Dr. Nicholson's mother died recently at the residence of her daughter-in-law, Mrs. J. C. Irving.

Miss Grace Cavanagh has returned to her home in Earncliffe from a most enjoyable visit with friends in Belfast, where she was the guest of that most estimable lady, Mrs. Annie MacAulay, Phinette.—Q.

Mr. Peter Curley, Miminighash was in Summerside Tuesday, returning from a business trip through Northern New Brunswick, the return trip to Summerside occupying ten days.—H.

Saving Money by Spending.

"SAVING" money by continuing to use an inferior machine is like "saving" at the spigot and wasting at the bung." For instance, if your machine skims down to .1 per cent. for every thousand pounds of milk skimmed, compare that result with the splendid, proven record of the Renfrew. You find by having the

Renfrew

that you will save about 1/2 pound of butter-fat per week for every cow. The Renfrew skims down to .91 per cent. That loss of 1/2 pound means money! With eight cows, and butter-fat at say 30 cents per pound, you would be losing every year (40 weeks) milking the tidy sum of \$45.

This sum saved is accepted by us as a first payment on a Renfrew. The saving soon pays for the machine—and then the \$18 per year for eight cows becomes extra profit.

Will it not pay you to discard the old machine for the Renfrew? It gets all but the last three ounces of butter-fat in a whole ton of milk skimmed. If you could reckon the losses the old machine made the last few years, wouldn't it decide you right away to get the close-skimming Renfrew?

Our illustrated booklet gives interesting proofs of the Renfrew's close skimming, including tests by Government Dairy Schools. It also explains the Renfrew's self-cleaning system, the interchangeable capacity feature, easy-to-clean advantages, etc. Send for booklet to-day.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. The salt will neutralize the acids in the urine so it no longer is a source of irritation to the bladder, and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent, light-water drink, which quickly relieves bladder trouble.

PERSONALS

Mr. Andrea MacDougall, Cardigan, as a recent visitor to the city.

Mr. D. F. Keyes, Baltic, was in the city yesterday.

Mr. Russel Cox, Morell, was in town yesterday on a business trip.

Rev. Father Duffy, Morell, was in the city yesterday.

Mr. Augustine Broother's, Montague, as a visitor to the city yesterday.

Mr. John Pierce, city, is on a business trip to Summerside.

Mr. James Ferguson, of Souris is in the city.

Mr. E. H. Beer, city, left Wednesday on a business trip to Souris.

Mr. Fraser T. Morrow, city, left yesterday on a business trip to Truro.

Mr. W. A. Heustis, city, has returned from a business trip to St. John.

Mr. W. J. Brown, city, left yesterday on a business trip to Montague.

His many friends will be pleased to learn that Mr. Gordon Dawson, Cape Traverse is recovering rapidly from a serious attack of pneumonia.

WANTED A REMEDY

Sir—Your editorial of the 5th inst., under the above heading, is a valuable contribution to the question of the movement from the farm to city and town. The problem is a serious one, and requiring the assistance of all who can supply even one live thought to its solution.

The first enquiry to be considered is: why do we leave the country in the first instance and seek a place in the town or city? Having lived in country, village and city, I think the two main causes are social and economic. We are social beings and the period for starting out to do for ourselves, being also the time we most enjoy social life, it is but natural we look for environments that, in this regard, best appeal to us; and these are found in the village, town or city. Again, as you so truly say, the inequality of reward for labor between that afforded in callings of the farm and that afforded by the farm is so manifest people will seek the situations where they can earn most even if they cannot really save as much. They want to earn more money, anyway, then allowing these to be the main causes what can be done about it? The social conditions of the coun-

Food conservation, and food production are being proclaimed from many sources in the U. S. as well as in Canada. In view of the agitation for greater production, how can we account for the shortage that is to be? Will the decrease continue? The writer spent four weeks in Boston this winter, and after seeing and hearing what was going on over the line, I can only conclude that on P. E. Island we have not yet realized many of the privations endured in other places. But, let us start a campaign for an increase of acreage of P. E. Island.

I am Sir etc.
READER.

DECREASED ACREAGE

Sir—Under the above heading, THE BOSTON HERALD and JOURNAL of March 6th contains a very significant editorial. I quote one paragraph from it as follows:—"Just now when the food administration and such organizations as the Federation for Rural Progress, which met in Boston last week, are properly putting emphasis on the need of 1918 crops that shall exceed those of last year; it is not a reassuring thing to hear from those who are in the best position to know, that the crop area in the great agricultural state of Maine promises to be fully 50,000 acres less than in 1917. That is not mere guess work on the part of an individual pessimist, but is the result of a confidential investigation through official channels." While there has always been an economic relation between the Maine potato fields and the production of P. E. Island, the important question now, in view of the above statement, is, what about our acreage? I can only speak for this end of the Island, and after talking with some of our best producers, I am inclined to think that the acreage for grain and potatoes will be less than that of last year. Three reasons are given:

- 1st. Scarcity of seed.
- 2nd. Scarcity of labor.
- 3rd. Scarcity of fertilizer.

Tenders will be received until April 18th for the purchase of a farm in Albert Co., N. B., 205 acres of upland 100 acres best English marsh. Splendid soil, buildings and implements complete. For inspection April 3rd and 4th particulars Apply R-335 St. George Street, Moncton, N. B. 4992-3-22M31.

Lens Grinding

Do You Know?

That we operate the only Lens Grinding Plant on P. E. Island?

That we employ a skilled Surface Grinder, and are daily grinding from the rough glass—the most complicated kinds of lenses?

These are facts, which mean a good deal to the Glass wearing public, doing away with the annoying delays caused by sending away for special lenses.

Send your glasses in by mail, you'll get them back promptly and in perfect condition.

Call in and look over our plant.
