THE death of Mrs. Hammond Johnston was heard with profound regret throughout our city. Mrs. Johnston was a lady of rare culture, deep spirituality and a friend of unswerving loyalty. She is gone but the memory of a sainted life will ever remain as a perpetual inspiration to those that are left. Mrs. Johnston was a daughter of the late Thomas Dawson and widow of the late Dr. Hammond Johnston at one time the most prominent physician in this city. There now survive her, one son, Dr. Henry D. FOUR of the Island league hockey games of the present season two in the senior and two in the intermediate series, have been played and of the four games, protests have been made in two and are to come before the Committee of the League for adjudication. This indiscriminate protesting of games if it is to continue will put a serious damper on ice sport in this province. When the public go to see a game decided they desire to have their expectations satisfied and not be kept in doubt for days perhaps weeks till a third club gives a decision; for in a league of three clubs the question really resolves into this. If an official who has staked a bet on the result of a game acts, and knowingly annuls a game he is deserving of the severest censure. This is the point on which the Crystal-Pioneers have entered a protest in the last senior game in Summerside. In Charlottetown the Victorias have protested because they claim that one of their opponents' players belonged to their own club. Such a protest is trivial in the extreme. It is hoped that the different clubs of the league will in the future abide by the result of the game as it contested on the ice and not seek to obtain an advantage on technicalities which really are of no consequence to the general public.
