Phoe and grandson, Douglas of Toronto, last week. Mr. McPhee was one of Tryon's brilliant young men.

Mr. Hector McKay, well known resident of Tryon for many years, left last week for Charlottetown, where he is undergoing treatment in the hospital there.

Our general merchant, Mr. Ernest Howatt, has a new clerk in his employ, Miss Aletha Mabey of Tryon. Miss Mabey will certainly do her part well.

The little son of Mr. and Mrs. Fenton Howatt, was badly kicked the first of last week. It seems he went out into the field, where some horses were pasturing, and one of them chased and kicked him loosening several of his teeth and doing other injury. We heartily hope he may have no more accidents of that sort. Doctor E. A. Bell of Cape Traverse is in attendance.

Friday's rain proved very disastrous to Mr. Thomas Bell of North Tryon. He went to carry a tub outdoors to catch some rain water and he stumbled and fell breaking his leg a short distance above the

ankle. This same leg was stricken with paralysis last year and was still stiff. Mr. Bell's many friends hope to see him about again in the course of a few days.

Mr. Brenton Wood of Victoria, held his sale on Thursday, August 19th. A large number of people attended and prices ran quite high. The people there are very sorry to see him move away, even though it is a short distance.

The host of friends of Mrs. James Morrison of North Tryon were very shocked to hear on Saturday morning that during the previous night she had taken a serious paralytic stroke. In the morning the doctor from Cape Traverse was called. Her condition is not much improved as yet.

Captain Johnson Lord of the schooner "Karama" arrived in Victoria on Saturday from Charlottetown with material for erecting the new Bank at Victoria.

An expert angler from Summerside, caught twenty-five large trout in Tryon River on Friday night. The outsiders seem to have more

luck than the residents in this line of sport.

The potato crop in this district looks fine. Most fields intended for seed have passed the first two tests. There is not much indication of blight as yet.

One of the youthful residents of Tryon, Mr. Ralph Lyman, is taking a correspondence course in electricity from Cook and Sons of Chicago. In his first exams he made a very high percentage and we hope to see him continue this good work for all time to come.

Miss Florence Mabey of Tryon is spending a few days with her grandmother in Wallace, Nova Scotia.

Next Sunday, Rev. J. B. Daggett of the Baptist Church in Tryon will preach his farewell sermon. Mr. Daggett's congregation are sincerely sorry that he is going to leave them, but they know that what is their loss is some one else's gain. Their good wishes will follow him wherever he may go, and hope he may be as successful in his new field as he has been here. D.

**Notes by the Way**  
(Continued from Page 4)

not small. How few of the harvest excursions who have gone and returned richer than if they had stayed at home! Often they have come back poorer than they went. Some have failed to earn enough to pay their return passage. Many of them who failed to return drifted through the ever open gates into the United States and were lost to Canada forever.

There is one feature of these harvest excursions that is reprehensible and should be forbidden by law. It has been suffered for many years and has been a standing grievance of the Maritimes. It has gone on for years under different governments and has been a standing practice of both the Canadian National and Canadian Pacific Railway systems. We refer to the low price ticket westward and the much higher cost of the ticket to return. This is a direct incentive to go and not return. It is wrong in principle, unjust and unfair to the East.

This is one of the wrongs which should have been stressed in making up our case before the Maritime Rights Commission, which has already nearly finished its work of investigation. It may not yet be too late to call attention to it. Where labor is specially needed it is no doubt desirable that the want should be made known by advertisement. Within limits this is good for both the employers and for those seeking employment. But at best this long continued series of harvest excursions has been sad, unsettling to the Maritimes and the unequal rate of fare westward and eastward has been most unjust and injurious.

The Maritime Commission has been prompt and energetic in its work. The evidence taken has been very satisfactory and justifies the expectation of a favorable report and should it so turn out we may safely trust the present Government to apply such remedies as will give the Maritimes hereafter a better chance to live and prosper than they have hitherto had. Premier Melghen has been outspoken in our behalf during the election campaign wherever he has gone and his colleagues in the Cabinet are sympathetic and desirous to give fair play to every province.

But what hope is there for us if the King Government should be restored? King and Dunning have given abundant evidence of their hostility. The Commission was appointed only for the purpose of shelving a troublesome question and delaying a settlement. Whatever the Commission's report may be there would be no hope of relief from an unfriendly Government. What prospect would there be of getting better transportation service between this Province and the Mainland with Mr. Dunning back again as Minister of Railways? His sneer about "free rides on the Intercolonial" affords a sufficient answer to the question.

**NYAL CREOPHOS**

This valuable remedy possesses unusual value in run down conditions showing a loss of flesh and a tendency toward weak lungs. Creophas is a most valuable antiseptic and in this combination will be found most effective in chronic bronchitis, lingering deep-set, stubborn coughs and asthmatic conditions. Nyal Creophas also fortifies the system enabling weak constitutions to successfully combat the inroads of disease germs. Gives appetite, increases flesh and improves the general condition.  
Price \$1.00 a bottle.
