**This Melotte** is a Real Money-Maker for me

The Melotte Cream Separator has a world-wide reputation for close-skimming. It is easy to run, easy to clean and requires little or no upkeep.

The low receiving tank does away with high, heavy lifting—a boon to the housewife. The white porcelain-lined bowl chamber and receiving tank are easy to wash. Aluminum has replaced tinware in the spouts, funnels and milk regulator; automatic lubrication reduces friction... prolongs its life... keeps down repairs.

Ask your nearest Lister dealer to demonstrate the Low Model Melotte. It will save you money and make you money.

—LOBSTER CATCHES GOOD—The fishing on the north shore is reported as being good for this time of year, the lobsters for canning, however, are small. Experienced packers say that it would help the industry a good deal if the small lobsters were thrown back into the water and only the medium and large lobsters were retained for canning and shipping away. The market for live lobster off the Island is not very good just now. S.

the Halifax College, of Miss Violet Richardson the Conservatory Hall was filled to capacity and the audience was most enthusiastic in its appreciation of a really fine program. Miss Richardson disclosed a degree of dramatic vigor and versatility which surprised even those most familiar with the ability which as a pupil of Mrs. T. F. Francis she has shown. Miss Richardson has the telling asset of a very charming stage presence. She has also a mobile face and a pleasing adaptable voice, and, withal, obviously "temperament" and in her widely differing selections acquitted herself with genuine distinction, making a special appeal in the number, "Lesson with a Fan". Miss Richardson was admirable throughout, the three character sketches especially showing her versatility. Assisting Miss Richardson, were Miss Eileen Wood, soprano; Miss Mildred Hart, contralto, and Miss Gwendolyn Duchemia as pianist. S.
