Dead Ashes Cost Money to Heat.

Most hot water heaters have a center draft only - also most center draft hot water heaters have a wall of dead ashes next to the water jacket, because through combustion with center draft only is not possible - coal burns principally in the center.

The ashes must be heated before the water can be heated. Ashes are hard to heat - they are expensive to heat, they absorb the heat which should go into your coils.

The "Bison" hot water heater has side drafts, draws the heat and fire to the sides, up the sides, - against the water jacket. It heats the water quickly, economically.

MRS. MARY McDONALD residing at Summerside is perhaps the oldest native born Islander living in this province. Several years ago Mrs. McDonald became blind, and during that time has been confined to bed. Mrs. McDonald was born at Seven Mile Bay P. E. I. in 1833 and is therefore going on to 103 years of age. The writer has seen this person recently, and would be interested to know, if there were any other Islander living to day.

A splendid game of base ball was played Thursday evening last between the Malpeque and Darnley teams on the Darnley base ball grounds in the presence of about three hundred spectators. The teams were made up as follows:

- Malpeque: Christopher Evans, Percy Montgomery, John Heckbert, Lee Montgomery, Dan Bearsto, Robert Crafer, Benj. Mountain, Edgar Keir, Wm. Ramsay. Darnley: Geo. Hickey, Wm. Thompson, 1st B. J. J. Burns, 2nd B. Leslie Champton, 3rd B. C. E. McNutt, R. F. Robert Morrison, L. F. Geo. Champton, S. F. Jas. Champton, S. S. Chas. Hynes.

HIS FIRST VISIT. - There was a pleasant social at the home of W. A. Campbell, 38 Eude street, Tuesday evening, when a number of friends gathered to say parting greetings to Ewen Campbell, the father of the first named, who returned yesterday to his home at Alberton, Prince Edward Island. This was the first visit of the senior Mr. Campbell to the land of "Uncle Sam," and he was decidedly impressed. There was nothing in the line of the pleasant outings in the vicinity of "Shoe City" that he did not take part in and the beaches and places of historical interest in the vicinity of Lynn were all thoroughly enjoyed. The trip, as he expressed it, on leaving, was a thoroughly enjoyable one in every particular. - Lynn Mass Evening Item [Mr. Campbell referred to above is a resident of Alberton.]

TERRIBLE BACK PAINS

They fairly agonize your life. Something powerful and penetrating is needed. Doctors know of nothing so swift to relieve as Nerviline, a strong, penetrating liniment made to cure just such pains as yours. Nerviline is very concentrated, about four times more powerful than ordinary liniments. In the worst cases Polson's Nerviline is extraordinarily good. All muscular pain flies before it. Nearly fifty years in use - a good recommendation, surely.

A. A. Lefurgy, M. P., returned last evening from Ottawa.

The sch. Louis is discharging a cargo of coal for the railway.

There were 50 going and 140 coming by the Northumberland yesterday.

A tramp wise or otherwise has been seen during the past few days loitering in the neighborhood of the east end bathing houses to the annoyance of the ladies and children who frequent that popular resort.

Yesterday afternoon three gentlemen happened to be on the ground when his trampship was taking his observation. They proceeded to interview him whereupon he immediately took to his heels. He took temporary refuge making his way as rapidly as possible to the lower stores of Robinson's mills, but the sleuths were upon him. One of the trio drove him up the steps where he was warmly received by the other two. He appeared very much agitated and extremely anxious to shake hands. His interviewers refused to extend the right hand of fellowship and proceeded with the interview whereupon they made the dampening discovery that he was deaf and dumb, together with the fact that he manifested great anxiety to proceed on his way closing the interview. The police were at once notified but up to a late hour last night he was not discovered. Judging by the temper of the two aforesaid his trampship, if he is sufficiently intelligent to read this warning will be acting in his own best interest if he places as much space as possible between himself and the east end bathing houses.
