THE MATTER OF REPRESENTATION

It will evidently not be all plain sailing for the Maritime Provinces to get a restoration of their original representation in the House of Commons, however justly they may be entitled to it. There are loud protests in the west and there is danger that when the assembled wise men meet at Ottawa the voices of the western Israelites may be louder than the voices of the men of Judah down by the sea. Here, for instance is the Winnipeg Free Press protesting that the terms of the British North America Act in regard to representation are altogether in favor of the Provinces whose population is increasing slowly and altogether against the Provinces, such as Manitoba whose population grows rapidly. The argument runs in this wise:

The census is taken once in ten years. After the census, a year or so, a Redistribution Act is passed, but does not take effect until the end of the Parliament then existing. The census shows that Manitoba, the Territories and British Columbia are now entitled to more members than they have, and also shows that Nova Scotia, New Brunswick, P. E. Island and Ontario are not entitled to so many as they now have. Yet it will probably be as far in the future as 1905 before a general election and so before Manitoba and the west will get the full quota to which they became entitled in 1901. And during these years the four Provinces which ought to have their representation reduced will still enjoy the full number of members which they have now and have had for years past.

And by the time Manitoba gains the additional representation according to her population as shown by the last census half another decade will have gone and her population may be double what it was shown to be by the census. So according to the argument of the Free Press the Provinces whose population grows but slowly will always be over-represented while the rapid'y increasing population of the west will always be be justly entitled to a large representation than it can get. The argument is an ingenious one, and we repeat it here in outline so that our Island statesmen may be prepared to meet it when they go west to make their battle.

The Guardian hears of one or two cases in which tourists and even resident citizens desiring to make a trip to the seaside resorts were seriously overcharged for the service. This is something we do not remember hearing of in former years. Our many respectable livery stables have been hitherto mainly modest in their charges and have given good value for the money received. Any departure from this rule we are satisfied has been exceptional and also unwise. We wish to encourage tourists to visit us and they will do so just so long as they can get good value for their money. Any attempt to imitate here the colossal charges of Niagara hackmen must prove in the end very like killing the goose that laid golden eggs.

To cureheadache in ten minutes use Kumfort Headache Powders.

NOTES OF WARNING.

Henry Clews for weeks past has sounded notes of warning to the business and financial world. A few weeks ago he gave out that the period of inflation in stocks was reaching dangerous limits, prices were exceedingly high and many stocks were selling far beyond what current dividends would justify. He went on to show how stocks are concentrated in the hands of a few big men whose purpose is to create a "bull" market. Money has been borrowed largely in Europe; banks had been unable to build up their reserves as usual, new needed to move the crops to the seaboard, and for the enlarged demands of trade.

A later circular repeats the cautionary warning. Abundant crops tend to support the high prices of stocks but money is not available sufficient for all the demands of trade, transportation and speculation. Under these conditions Clews advises selling rather than buying of stocks until the monetary outlook is more alluring. As there is some speculation in stocks even in Prince Edward Island, although very small compared with what goes on in the big cities and financial centres of America, the notes of warning outlined above may be of value to some few of our readers.

There is nothing new under the sun. Here are the people of the convent schools in France defending themselves against President Combe's decree by placing beehives on their barricades. And away back in the days of the Jewish Exodus it was written: "I will send hornets before thee and they shall drive out the Hivite, the Canaanite and the Hittite before thee."

Of the periodic pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from disease. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, *free*. All correspondence strictly private and sacredly confidential. Write without fear and without fee to Dr. R. V. Pierce, Buffalo, N. Y.

Mrs. T. Dolan, of Madrid, Perkins Co., Nebr., writes: "I was cured of painful periods by the use of Dr. Pierce's Favorite Prescription, and his Compound Extract of Smart-Weed. I think Dr. Pierce's medicines the best in the world."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

The sluggish liver made active by the use of Dr. Pierce's Pleasant Pellets.
