NOTRE DAME ACADEMY

The following pupils secured an average of 75% for the month of May:—
Grade X—1. Stella Sprowell; 2. Betty Doyle; 3. Helen Curran; 4. Blanche Brazil; 5. Mary Doucet; 6. Miriam Biffin.
Grade IX—1. Cecelia Shelton; 2. Enid Cantwell.
Grade VIII—1. Winifred Moran; 2. Marie Arsenault; 3. Mary Mahar; 4. Gertrude McCarron; 5. Florence Howatt; 6. Mary Martin; 7. Rita Martin; 8. Isabelle Corbett; 9. Stella McCabe, equal.
Grade VII—1. Muriel MacDonald; 2. Cavell Dicks; 3. Alma Sheehan; 4. Marion Mahar; 5. Thelma Pepin, equal.
Grade VI (a)—1. Eileen Mullin.
Grade VI—1. Elwin Ayers; 2. Mary Steele.
Grade V—1. Genevieve Monaghan; 2. Beryl Dorsey; 3. Margaret Shelton.
Grade IV—1. Constance Leightizer; 2. Mary Hogan; 3. Cecelia Lannan; 4. Mary Mooney; 5. Marion Power; 6. Patricia Arsenault.
Grade III—1. Isabel Goodwin; 2. Jean Prunty; 3. Burnadette Trainor; 4. Dorothy Peters; 5. Norma Pepin; 6. Rita Prunty; 7. Genevieve Larter.
Grade II—1. Kathleen O'Brien; 2. Mary Devine; 3. Betty Leightizer; 4. Winifred Doyle.
The following pupils of Progressive Series secured 90% for May:—
1. Agnes Pigott; 2. Mary McCarron; 3. Muriel MacDonald; 4. Eileen Mullin; 5. Florence Howatt; 6. Marion Mahar.
1. Genevieve Monaghan; 2. Ruth Trainor.
1. Irene Peters; 2. Mary Paquette; 3. Betty Mitchell.
The following young ladies of the Commercial Department have just received their certificates from The Gregg Publishing Company, New York, for Membership in the Order of Gregg Artists and Senior Order of Artistic Typewriting.
O. G. A.—Jessie Waller, Catherine McCloskey, Bernice McCabe, Mary Leightizer, Margaret Stewart, Florence McAulay, Ethel McDonald, Irene Cameron, Mary Carver, Eileen Hynes, Florence Gardner, Florence Harper, Mary Arbing, Susie Gill.
O. A. T.—Irene Cameron, Ethel Martin, Catherine McCloskey, Margaret Stewart, Marcella Roy, Mary Leightizer, Vanuelli Fafard, Eileen Brown, Florence Gaby, Susie Gill.

Ethel McDonald, Florence MacAulay, Irene Le Mieux, Mary Arbing, Florence Gardner, Mary Carver.
Miss Jessie Waller received Special Honorable Mention and was winner of the Gold O. G. A. Club Pin.
Ethel Martin and Irene Cameron received Special Honorable Mention and were winners of the Gold O. A. T. Club Pins.
As a testimonial of their success in this recent Annual International Contest, the Class was awarded a Certificate of Honorable Mention for meritorious work.
Results of May tests in Commercial Department:—1. Catherine McCloskey, 95.7; 2. Jessie Waller, 95.4; 3. Ethel Martin, 94.1; 4. Florence Harper, 92; Eileen Hynes, 92; 5. Margaret Stewart, 91.1; 6. Bernice McCabe, 88.2; 7. Florence McAulay, 86; 8. Irene Cameron, 87.5; 9. Mary Leightizer, 86.7; 10. Ethel McDonald, 85.4; 11. Florence Gardner, 86; 12. Marion Gleeson, 84.5; 13. Elizabeth Gaudet, 82.1.

Although the present investigations indicate that Lake Erie is capable of supporting a much larger fish fauna than now exists, what in its present depleted condition it is capable of producing greatly reduced parent fish stock is apparently the only serious limiting factor at this time, and every effort should be made to protect the fish during the spawning season.

CONVENTION OF TECHNICAL MEN

WOLFVILLE, N. S., June 7.—Extensive arrangements are being made by the Governments of Nova Scotia, Prince Edward Island, and New Brunswick and provincial members of the society, for the reception and entertainment of the two hundred delegates, representing the Canadian Society of Technical Advisors who will hold their annual convention at Acadia University, Wolfville, June 23 to June 26.
The C. S. T. A. is a national organization of over 1,500 members, embracing practically every technical advisor in Canada. Included in its membership are a number of college presidents and other leading men in the civil, agriculture and industrial life of the Dominion. The President is J. P. Sackville, President of the University of Saskatchewan.
The C. S. T. A. Convention will follow that of the Canadian Seed Growers' Association at Acadia University June 19 to June 21.
The Technical Advisors will make a complete tour of the Maritimes previous to and following their convention.
The business program will open with a meeting the morning of June 24. Several lectures will follow and at 4:30 the delegates will be taken on a drive to Grand Pre Park and through the Gasperau Valley. At 6:30 o'clock a joint Maritime banquet will be given the delegates at Acadia University dining hall by the Departments of Agriculture of the three Maritime Provinces. Addresses of welcome will be made by Hon. O. P. Goucher, Minister of Agriculture for Nova Scotia; Hon. Walter Lea, Premier and Minister of Agriculture for P. E. I.; Hon. Lewis Smith Minister of Agriculture for New Brunswick and Dr. A. B. Balmou, Mayor of Wolfville. This banquet will be followed by the president's address of J. P. Sackville.

PROBING HABITS OF EDIBLE FISH

PORTLAND, Me., June 7.—The New England region and ultimately the nation as a whole will reap the benefit of an extensive survey by the Buffalo Museum of Natural Science, the U. S. Bureau of Fisheries, and the Canadian Government of fish, fishfood, water pollution and currents.
Two surveys have been in progress lately, the Gulf of Maine and Lake Erie. The purposes of the surveys have been quite similar, namely accurate information about fish habits, food conditions, and knowledge relating to the increased production of food fish.
Dr. Charles J. Fish, director of the Buffalo Museum of Science, has been in active charge of the Maine survey. In the studies made by Dr. Fish and his contemporaries and in the data gathered it is expected that there will be found a scientific basis for judging the proposed power project and its effect on the sardine fishery.
Oceanographic studies in the margin zone of the Gulf of Maine carried on by Dr. H. B. Bigelow, of the Harvard Museum of Comparative Zoology have a particular significance as this region is known as the depository for all the food material river drainage. It thus contains the richest animal life and is of the greatest importance in commercial fishery.
The Province of Ontario, the states of New York, Pennsylvania and Ohio are cooperating with the Buffalo Museum and the United States Bureau of Fisheries in the Lake Erie survey.
Four cruises were made last year for the purpose of determining means of improving feeding and hatching conditions. Lieut. Charles K. Green of the United States Bureau of Fisheries in charge of the hydrographic investigations, said that from his observations "food was more abundant in the western end of the Lake although quite productive on the southern shore of the eastern end. It seems very plentiful in the Buffalo area; however food fluctuates with the season both as to quantity and to quality. There is no great pollution factor nor water movements or currents of great velocity to be destructive to fish or fish foods."
"As the result of the studies it is hoped," said Lieut. Green, "that there may be more uniform laws affecting the type, size and kind of nets used in the regulations of the open season. The size of mesh in the net is an important factor. The gill net with proper mesh seems suitable; it has been successfully used in fishing industries in different parts of the country."
The Buffalo Museum states that "considering the general results of these surveys, it can be safely stated that Lake Erie is capable of supporting a large fauna of open fishes. There are no dangerous silt deposits affecting the spawning beds the open lake water is not polluted and there is food in abundance. The depletion appears to have resulted from overfishing and unwise fishing and as such the remedy must lie in the hands of those legislative bodies having jurisdiction over the lakes. By protecting the number of hatcheries, by reducing the number of undersized fish destroyed in the nets and, if necessary, by limiting the catch, there is hope for improvement."

LADIES BOOST COTTON GOODS

LONDON, June 7.—(By The Canadian Press)—The women members of the House of Commons carried out with enthusiasm the suggestion made by Mr. Lloyd George that they should wear cotton frocks during Lancashire Cotton Week. Manchester Chamber of Commerce sent telegrams to all the women M. P.'s suggesting the Conservative ex-Minister, at once rang up her dress maker, and the dress, one of pale-blue-and-white cotton voile, was ready for her to wear on the Front Opposition Bench next day.
The telegram reached Miss Megan Lloyd George too late for her to appear in the House in the cotton frock she had ordered, but she wore it later. Miss Rathbone and Miss Ellen Wilkinson have also declared their intention to have cotton dresses made. Miss Susan Lawrence, the Parliamentary Secretary to the Ministry of Health, had a light cotton frock, but she concealed it under a big overcoat. Dr. Marion Phillips had on a black cotton dress of her own design.
Mrs. Clynes, wife of the Home Secretary once a mill girl herself in response to a wire sent out shopping for cotton frocks for herself and younger relations. Miss Margaret Bondfield, Minister of Labor, while in Newcastle bought a dress length of cotton at 47c a yard.

Western Guardian

—SPECIAL VALUES in men's fine shirts, 69c up at Sincairs. 4263-6-7-21.
—BUY FROST TIGHTLOCK Heavy Gauge Farm Fencing at Brace's. 4261-6-7-2.

HOLMAN'S OFFICE

Store and Warehouses will be closed on Wednesday afternoons starting June 11th and continuing until September 17th inclusive, with the exception of Wednesday, July 2nd following Dominion Day. 4219-6-6-9-11-31.

PERSONALS

—Mrs. (Dr.) John McNeill and Mrs. Isabella Glidden were visitors to Charlottetown on Thursday.
—Mr. and Mrs. James McWilliam of O'Leary were visitors to Summerside on Wednesday.—S.
—Mr. William Workman and Mr. David Stewart of West Point were visitors to Summerside this week.—S.
—Miss Anna Dalton of Halifax, spent a pleasant visit with her brother, Mr. J. E. Dalton, of Summerside this week.
—Rev. J. J. McDonald, of St. Paul's Church, Summerside, left this week for Montreal.
—Miss Bertha Riley of Summerside left on Thursday for a month's trip to Boston, Mass., visiting relatives and friends.—S.
—Rev. and Mrs. W. H. Harding and their daughter, Miss Hattie, left for their summer cottage at Hebron Lot 8 on Thursday. Chief of Police Kane has taken their home in Summerside for the summer.—S.
—Rev. J. P. C. Fraser of Summerside is on the mainland attending a conference of ministers of the United Church.—S.
—Many friends in Summerside and other parts of the Province will regret to hear of the very serious illness of Mr. George B. McNutt. His daughter Mrs. Farnish of Calgary, has arrived home to be with her parents during her father's illness.—S.

HOLMAN'S OFFICE

Store and Warehouses will start the Wednesday half holidays on June 11th and will continue until September 17th inclusive with the exception of July 2nd following Dominion Day when the Store will remain open for that afternoon. 4219-6-6-9-11-31.

More than 200,000 seals were caught by Newfoundlanders this year

Mary Agnes Hamilton, Labor M. P. for Blackburn, appeared recently in cotton voile. She is generally the best dressed woman member. Miss Hamilton had written scholarly books on Greek history and ancient Rome, biographies of Ramsay MacDonald and Margaret Bondfield several novels, including her latest "Special Providence" a tale of 1917. She is the elder daughter of the late Professor Adamson, of Glasgow University, was educated at Glasgow High School and Newham College, Cambridge. She had been on the staff of the "Economist" and the "Review of Reviews."

Argentina imported 2,000 American automobiles in a recent month

FAVORS WOMEN'S FRANCHISE

CAPE TOWN, S. Africa, June 7.—(By The Canadian Press)—Verbatim reports of the debate on the Woman's Suffrage Bill are to hand and show some highly interesting reactions of those in authority discussing the Bill "let us make a grand gesture," said General Smuts. Let this Bill go from this House as a gift to the women of South Africa, a tardy acknowledgment of the debt the nation owes them. Let us put it through with such a majority that it will be accepted by the women as recognition of their worth.
Mr. Grobler, Minister of Lands, said that General Smuts had, not always been in favor of women's franchise. "Years ago, when I sat behind the right Honorable member," said Mr. Grobler, "the subject came up and I asked him about it. He said then that he was against it, and if the women asked him why, he had an excellent reason—his wife was against it." (Laughter) an honorable member: "Time and women will convert anyone."

PRASE GIVEN CITY BY NOTED VISITOR

TORONTO, June 7.—Washington is the only other city on this continent he has visited that begins to compare with Toronto, in the opinion of Sir Matthew Montgomery, former lord provost of Glasgow, who is staying at the Royal York during a visit to this city.
Sir Matthew states conditions in this city are more like those of the old country. He takes great pride in Glasgow. From 1923 to 1926 he held the position of lord provost there, and is the head of the largest cork manufacturing plant in the world.
The cleanliness and apparent prosperity, fine streets, buildings, hotels, factories and homes with the lack of slum districts, strikes this distinguished visitor as being truly remarkable.
Sir Matthew would not discuss municipal questions, but remarked

THE SALARIES OF CITY COUNCILS IN SCOTLAND WOULD BE INCREASED WITH THE GROWING VOLUME OF THEIR WORK.

LONDON, June 7.—A dream of establishing an Arctic air route from Great Britain to Canada will lead an expedition of British scientists to the desolate ice cap of Greenland this summer. Making the journey in Sir Ernest Shackleton's historic ship Quest, a group of surveyors, airmen and meteorologists will sail on July 3rd, for the Faroe Islands, Iceland and Greenland, where they will stay an entire year exploring a route to the North American Continent. The Canadian Government has shown great interest in the proposal, and will soon undertake a survey of the Canadian end of the proposed route from Winnipeg up through Hudson Bay and Baffinland.

BRITAIN TO EXPLORE GREENLAND WASTES

LOGAN, W. Va., June 7.—Five hours after he was believed dead, Edgar Cornells, 23 of Liberty, Ind., was resuscitated in a morgue here Saturday as undertakers prepared to embalm his body. He was taken to a hospital where his condition was reported good.

REGAINS LIFE IN MORGUE WHILE BEING EMBALMED

The expedition, which is being sent under the auspices of the Royal Geographic Society, will be equipped for a thorough meteorological and geographical survey of the frozen centre of Greenland. Aeroplanes, motor boats and dog teams for scouting trips will all be at the disposal of the expedition on the shores of Iceland and Greenland, and on the vast ice cap of the interior.

RADIO TO NIGHT

Hon. R. B. BENNETT

Leader Liberal-Conservative Party

will speak at Ampitheatre Rink, Winnipeg, on Monday, June 9th, and be broadcast over coast-to-coast network

INCLUDING:

CFBO, Saint John, CHNS, Halifax, CFNB, Fredericton, and CJCB, Sydney, at 10.30 p. m. Atlantic Standard Time (11.30 Daylight Saving.)
