SPECTACULAR GOLD STRIKE IN ONTARIO

Red Lake, on an Island Four Miles From the Howey Gold Mine, the Scene of the Discovery—Indications of Valuable Strike.

STOUX LOOKOUT, Ont., Aug. 13.—Discovery of a rich vein of gold is reported here. The strike was made at Red Lake on an island four miles from the Howey Gold Mine.

News of the discovery, which has been rumored here for several days, was confirmed by J. A. Munroe, who made the find himself and who flew out from Red Lake by aeroplane yesterday. Engineers who have examined the find declare it to be one of the richest uncovered in this province. Although its extent has not yet been discovered, progress to date gives indications of a valuable strike.

One wall of the vein has been uncovered for a distance of 750 feet, and six pits have been sunk, varying from six feet to five feet in depth. Visible gold exists in each pit. Precautions to protect the strike have already been taken.

The town of Stoux Lookout and the whole of Lake district has been electrified by the strike and prospectors are heading a rush to the surrounding district to stake available land.

The End Of Solloway-Mills Prosecution

(Canadian Press)
VANCOUVER, B. C., Aug. 13.—Fines were written to prosecution of Isaac W. C. Solloway and Harvey M. Mills under the Securities Frauds Act of British Columbia, when five charges of conspiracy to defraud were withdrawn in police court here today. Following a plea by their firm, Solloway, Mills and Co., Ltd., to a bucketing charge on July 7, in county court before Judge J. D. Ellis, who imposed a \$100,000 fine, today's development did not cause surprise.

F. D. Pratt, representing Hon. R. H. Pooley, Provincial Attorney-General applied for permission today to drop the prosecution under the five charges, which have been pending against the two stock brokers since last December. The application was granted without comment by Magistrate T. O. Shaw.

SERUM FROM HORSES USED

Infantile Paralysis Patients Being Treated With New Serum.

(Canadian Press)
NEW YORK, N. Y., Aug. 13.—Ten to twelve infantile paralysis patients daily are being treated with a new serum from horses, Dr. William H. Parks, laboratory chief of the New York Department of Health, said today. The horse serum, according to Dr. Parks, is six times stronger in treatment of the disease than serum from human beings was convalescent from infantile paralysis. While not suitable for intraspinal use, it can be administered intramuscularly and intravenously, he said. A study of results at the end of the year will show physicians whether it gives better results than human serum, Dr. Parks explained.

BARNUM'S GIFTS PRAISED

BRIDGEPORT, Conn., Aug. 13.—Phineas T. Barnum's activities as a philanthropist and municipal booster were not as well known as his reputation for showmanship, according to the Rev. Charles Kramer. The clergyman devoted a sermon to praise of Barnum's gifts of parks to Bridgeport and his efforts to bring industries here. He left the Rev. Kramer's church \$15,000 when he died.

Fear Trouble In Ireland

(Special to The Guardian)
BELFAST, Northern Ireland, Aug. 13.—Nothing has so agitated the Northern counties of Ireland as yesterday's events at Coochill, Irish Free State, where Orangemen were prevented from holding a meeting. Members of the Irish republican army blocked the visitors out of the town and were held in check only by the vigilance of Free State Guards. Roads and railroads were barricaded and torn up over a considerable area. The fear is widely expressed that reprisals will take place Saturday, day of "Our Lady," when the Ancient Order of Hibernians hold their annual demonstrations. The County Cavan brigade headquarters of the Republican Army has issued a proclamation describing the Orangemen as "Imperialist agents of Great Britain whose purpose it is to perpetuate a sectarian division among the mass of common people in this area." There is no religious conflict here and the Republicans claim for freedom of religious belief exercise. There is a conflict between the Irish Republic and British Imperialism and Imperialist displays will not be tolerated.

RADIO PLAYED WEDDING MARCH

MEMPHIS, Aug. 13.—When a local radio station announced they would have a program of wedding music, two couples announced they were married and their radios would furnish the music. The couples were married in different parts of the city.

MAHATMA WILL NOT BE PRESENT

"Round Table" Conference Must Proceed Notwithstanding.

(Canadian Press)
LONDON, Aug. 13.—Deep regret coupled with determination that the Indian Round Table Conference must proceed according to plan is the general feeling in authoritative circles in London following the decision of Mahatma Gandhi at Bombay today, not to participate in the second Round Table Conference. Although there was only one Nationalist Congress delegate invited to the second conference—"Mohandas Karamchand Gandhi" as the official list has it—the decision of the leader of the Nationalists influenced two other delegates. These were the famous Poetess, Mrs. Sardini Naidu and Pandit Malaviya, who have been identified with the Congress movement and who cancelled their steamship passages. The Round Table Conference will go on with the representatives of the Indian native states, the Moslems and the many other sects of the Indian Empire. The meeting of the federal structures committee will take place not later than September 5. The utmost sadness at Gandhi's decision was expressed tonight by Rt. Hon. Srinavasa Sastri, one of India's great statesmen, a former member of the Viceroy's Legislative Council, a man who has done great work for Indians domiciled in the Dominions, including Canada, and the man who is acknowledged leader of the bulk of Indian moderates.

- PRIEST WHO FLEW OVER CRATER TELLS TERRIFYING EXPERIENCES
SEWARD, Alaska, Aug. 13.—Father Bernard R. Hubbard, the "glacier priest," who described for the United Press tonight the horrors of Aniakchak, world's largest active crater which almost killed him several times while he was exploring it. Father Hubbard, internationally known geologist from Santa Clara, Calif., had just returned with his party from a three months' exploration of the inferno of the Alaskan Peninsula. He flew across the smoking abyss with Pilot Harry Blunt. Their dash through the sulphurous air currents nearly cost them their lives when the gases threatened to suck their plane into the pit. Father Hubbard later made a hazardous journey with three student geologists to the crater's rim where they discovered that black gas had obliterated all plant life in the great moon-shaped crater. "We were forced to travel 50 miles over a soft, shifting mass of ashes that continually irritated our eyes, throats and ears," continued Father Hubbard. "We frequently encountered noxious clouds of various carbon gasses. "The ground was so hot that we burned up several pairs of shoes. "To test the ground before stepping on it, we would spit. If it sizzled, we stepped somewhere else. "We pushed the highest recording thermometers into the ground, but in each instance they cracked. "We found three new lakes in the immense crater. In another section we found a built-up crater pit three miles in circumference, from the sides of which lava oozed down. We scooped up numerous mineral specimens which we have sealed for testing."

Three Killed In Garage Explosion

(Canadian Press)
BATTLE CREEK, Mich., Aug. 13.—Three men were killed and five others were burned, one of them so severely he was expected to die, in an explosion and fire in a garage on the outskirts of this city today. Two of the dead were identified as Floyd Carlyle and Robert Fenton, employees of the garage. The third victim was tentatively identified as Clare Higgins of Nashville, Mich. Alberta Latta another employee of the garage was reported near death in a hospital. Jack Glenius, the proprietor of the garage, who was reported missing after the explosion, later was located unhurt.

THE DOMINION RIFLE ASSN. OTTAWA SHOOT

(By Jack Hambleton, Canadian Press Staff Writer)
CONNAUGHT RANGES, Ont., Aug. 13.—Lieut. R. A. Sweet, Hamilton, Ont., has been the most consistent shot in four days of shooting at the Dominion Rifle Association meeting, which opened here on Monday and which concludes Saturday. Results of the grand aggregate issued tonight, show Lieut. Sweet leading all comers with a total of 532 points, one higher than the score of Q. M. S. G. R. King, a member of the English team visiting Canada. The "grand egg," one of the most eagerly sought honors of the entire meet, is compiled from highest aggregate scores in the "MacDougall," "Walker," "Bankers," "MacDonald Brier," "Governor General's" first stage and "City of Ottawa" matches. Sweet, a young marksman who recently graduated from the Hamilton Central College Institute rifle team, champions of Canada, broke all records for recent years in compiling his great total. His scores were as follows:—

Match	Score	Possible
MacDougall	69	70
Bankers	98	100
Walker	68	70
MacDonald	95	100
Gov. General's	103	105
City of Ottawa	99	100

The first 20 in the grand aggregate were:—Lieut. Sweet, Hamilton, 532; A. O. M. S. G. R. King, England, 531; Lieut. J. N. Dow, St. John, N. B., 529; Capt. J. T. Steele, Guelph, Ont., 528; C. S. M. G. M. Ensiele, Toronto, Ont., 528; Lieut. D. Burke, Ottawa, Ont., 528; Corporal G. E. Matchett, Hamilton, Ont., 527; Sgt. T. A. Jensen, Calgary, 526; Cpl. H. F. Parker, Moncton, 526; Lt. A. S. Anderson, England, 526; Lt. J. T. Downly, Saint John, 525; Capt. R. Kerr, Toronto, Ont., 525.

Steel Mills Are Visited By Bank And Rail Leaders

Rumors Current In Cape Breton As Beatty, Gordon And Holt See Industrial Centre.

SYDNEY, Aug. 13.—Possibilities of the furthering of the present C. P. R. interests in the province of Nova Scotia, placing of additional C. P. R. rail orders at the local steel mills, and greater co-operation in the future between the C. P. R. and Dosco which controls the basic industries of this province, coal and steel are mooted here tonight in official Company circles as a result of a visit of E. W. Beatty, K.C., Chairman and President of the Canadian Pacific Railway.

Five Million Public Bldg. For Ottawa

(Special to The Guardian)
OTTAWA, Aug. 13.—A \$5,000,000 public building in Ottawa is said to be among the possibilities when the Prime Minister begins to cash his blank cheque for relief works.

In Toronto, Montreal and Vancouver there is projected construction of three armories which will cost about \$200,000 each. The armories will be built from money voted in the supplementary estimates this year, but the other buildings will come from the new account given to the Minister of Finance by Parliament.

The general public works estimates for buildings were reduced this year in the Government's economy program, but the real expenditure in this direction will be far in excess of the estimates. This, it is understood, is in accordance with the Prime Minister's advocacy of a building program for future needs to relieve present unemployment.

OTTAWA, Ont., Aug. 13.—"There is no specific undertaking of the kind under consideration at the present time," said Hon. H. A. Stewart, Minister of Public Works, today commenting on reports that a \$5,000,000 structure was to be started in the city this year.

1,800 Will Be Given Work

(Special to The Guardian)
CALGARY, Aug. 13.—Eighteen hundred railwaymen throughout the Dominion will be given work as a result of negotiations between Canada railways systems and the brotherhood of railway trainmen. It is learned here, a shortened week for yard employees and less mileage for the running trades is proposed.

In Alberta 200 more employees on both the Canadian Pacific and the Canadian National railways will be employed under the system.

Another Budget In Six Months

(By George Hambleton, Canadian Press Staff Correspondent)
LONDON, Aug. 13.—Another budget within six months hangs over the heads of the British taxpayer. Leaders of the three main parliamentary parties conferred at historic No. 10 Downing Street today following the deliberations of the special sub-committee of the Labor Cabinet. As the meetings adjourned tonight a second finance bill lay in the background.

In the British Parliament the finance bill gives legislative effect to the taxation proposals in the budget, and under the suggested new finance bill, any additional taxation necessary to make the budget balance would be imposed. Where legislation was necessary to give effect to agreed-upon economies, the legislation would be embodied in the finance bill. To ensure the bill's speedy passage into law, Parliament will probably be summoned at a date earlier than contemplated when it adjourned Oct. 20. There would be no necessity to call a new session, for technically Parliament is still in session. When it rose at the end of July, Parliament was not prorogued. It was merely adjourned. The adjournment motion provided, that this House at its rising this day to adjourn until Thursday, Oct. 20, provided always that if it appears to be to the satisfaction of Mr. Speaker after consultation with His Majesty's Government, that the public interest requires the House should meet at an earlier time during the adjournment, Mr. Speaker may give notice that he is so satisfied and thereupon the House shall meet at the time stated in such motions.
