Mr. Cromwell's address was his third in Toronto in two weeks. When he spoke to the Canadian Club here two weeks ago his statement that a victory for the Allies in the war was necessary to the welfare of the United States drew an admission from State Secretary Cordell Hull.

Tonight he criticized those who would "destroy human dignity, through the enforcement of unquestioning obedience." He spoke on the subject "Education for Democracy."

"It is the existence of such problems which supply enemies of freedom with never-ending humor about poor, doddering democracy, with one foot in the grave and the other standing on its money bags," he said.

"I cannot deny that a jobless man may feel unable to afford the luxury of leisure to contemplate his freedom—we cannot deny that a hungry stomach craves food more than art or literature."

Education for Democracy
"What I am trying to say is that in a world where propaganda is the self-interest of a senseless usurper much of the place of education, we cannot afford to take the idea of democracy for granted. I am trying to point out that education for democracy is, perhaps, as important to us as any utilitarian or cultural course which our schools now offer."

One may ask why we need education for democracy when we actually live and breathe under such a social system. The answer is that in the battle of ideas, now being fought out in every part of the world, democracy and camouflage have been developed to us as great as in war. To be sure, words and slogans instead of guns are used. But what do we see?

"We see those who would divert the very human freedom, diverting their fears and suspicions with words of false security. We see those who would destroy human dignity through the enforcement of unquestioning obedience—hold the mirror of superiority before the eyes of their people in order to lead them towards the abyss of aggression and conquest."

An educated and alert electorate, Mr. Cromwell said, is "the prime necessity and very foundation of our democratic institutions."

The minister pointed to the similarities between primary, secondary and university education in Canada and the United States. He expressed a belief that "systems of education and systems of government which develop side by side must profoundly react and profoundly modify each other." He recalled attending schools in Cobourg and Gravelton, Ont., for "a few short months only" as a boy.

"We must shape our political ideals and procedures to the end that the problems which tyranny falsely boast can be solved only by the sword, shall be solved by free men under free institutions," he declared.

Red Cross Seek Canadians In Royal Air Force

TORONTO, April 1—(CP)—The Canadian Red Cross Society announced today that a nationwide appeal is being launched for names and addresses of Canadians in the Royal Air Force. Such information would enable the Society to care for Canadians who are wounded or taken prisoners of war and also would enable the Red Cross to keep relatives informed of their condition and whereabouts.

Dr. Fred W. Routley of Toronto, National Commissioner, said that on his recent trip to England and France he discovered approximately 1,500 Canadians had joined the Royal Air Force in the past few months.

"At that time there was a great rush on the part of the young men of Britain to join the air force," Dr. Routley said. "Some of these were afraid they wouldn't get in if they specified they were Canadians, so they gave English addresses."

"We have a list of some names and addresses from people who were aware of the services we have established overseas to care for Canadian prisoners of war. There are hundreds more to get."

She is alleged to have struck one with an axe and to have attempted to hang the other with a rope.

Mrs. Lesko, said to have failed in an attempt to hang herself as well, was taken to Walkers County Jail at Kitchener. There, an Attorney, W. P. Clements, announced she would be examined mentally to determine whether a charge would be laid.

According to Galt police, Mrs. Lesko attacked 15-year-old Mary, with an axe, striking her a glancing blow on the head. She then snatched up seven-year-old Annie, taking her to the third floor and placing a rope around her neck.

The girls were rescued sufficiently from the blow to stagger outside where her father was working. He returned to the house to find the younger girl and Mrs. Lesko hanging from ropes, side by side in the attic.

He cut them both down and while he was carrying Annie downstairs Mrs. Lesko ran from the house. She was overtaken by her husband, Mrs. Lesko had been ill and depressed for a year.

Search of the house revealed a bloodstained axe, hidden among bed clothes.
