

7,600 Shares Yet to Sell

Only Eight Days Left

The shrewd investors have placed their money where they know returns are sure. Many of my friends will be unable to secure this stock at 25c, but the opportunity will be theirs to get a block after the 15th at 35 cents per share, as my second block of 25,000 shares will remain at that price until December 15th next, after which they advance to 50c per share. I leave here Monday, November 18th, and expect to be on the Oil Fields by January 1st, 1902, to look after our interests as well as dispose of your stock should you wish to sell.

REPAIRS TO PIER

At Cape Tormentine Near Completion

THE WORK INSPECTED

By Mr. A. Lord of the Marine Department Described to The Guardian.

The steamer Brant was in Summerside yesterday having on board Mr. A. Lord Charlottetown, agent of the Marine and Fisheries Department. The Brant has just returned from Cape Tormentine where Mr. Lord had gone to investigate repairs to the pier now under construction.

Mr. Lord yesterday to enquire as to the nature and extent of the repairs in which the general public are at present much interested, this being an important feature in connection with the trial about to be made this winter of the Summer side Tormentine route.

Mr. Lord informs THE GUARDIAN that a landing 175 feet in length is being built about 170 feet of which is now completed on the south side of the outer end of the pier. This is being done by driving piles perpendicular just outside the bottom work of the breakwater and which will add about 10 feet to the width of the deck of the pier. The piles are supported by timbers bolted to the original breakwater.

The new work will contain a slip at the extreme end for the landing of carloads. Here there is about 15 to 17 feet of water at dead low tide. The Stanley draws about 15 feet when light and when in fighting trim from 20 to 21 feet. Before approaching the pier on the way over it will be necessary when the Steamer is fitted for heavy work to pump the water out of her tanks in order to make a mooring. The work of doing this will occupy only about 25 minutes and will be practically speaking no obstacle in testing the practicability of the route.

Mr. Lord mentioned that it is quite necessary to have a warehouse built on the Cape Tormentine pier for freight. This will need to be built near the terminus of the railway at the second wing of the pier and to run along in the direction of the new piece of work. Freight will then be housed at one end of the building about 25 feet from the slip and conveyed through the building to the railway. There has as yet been no order to have such building constructed.

Mr. McGlassing superintendent of the repairs on the Pier, expects to have the work done by the end of the present month. The Stanley at present under going repairs at Charlottetown, will be ready for sea about the 15th inst. Her first work will be to take up the buoys at West Point, Fryn Shoals, Indian Lock and at Cape Tormentine, after which she will be loaded with coal at Picton and otherwise made ready for the winter service.

On being asked where the Stanley would get her supply of coal during the winter Mr. Lord said that she would take on about 250 tons at Picton to start with and if the steamer continues on the route coal would be ordered from Springhill, by rail to Cape Tormentine, as required. As to when the Stanley would be placed on the route Mr. Lord was not in a position to state, no orders having as yet been issued.

Messrs. Miller Bros. of Charlottetown want a reliable man to represent them in Summerside and Prince Co.—431

The tug Alpha, Capt. John Inness, from the English Bay, P. Q., took from here, Monday night 100 bus. potatoes.

A PART of the Northumberland cargo yesterday consisted of 2 cars oats, 2 cars potatoes, 400 barrels oysters and 400 cases eggs.

THREE convictions for drunkenness were obtained before the Stipendiary at the police court. One was fined \$4 and costs and two were fined \$2 and costs each.

BECAUSE of smallpox in Picton it does not follow that communication between this province and the mainland must be cut off altogether this winter. There is yet no sign of the disease at Cape Tormentine.

There were five horses among the shipments by the Northumberland yesterday. One of them was a handsome black driver shipped by Mr. W. S. McKie to St. John, four belonged to Mr. Mitten for New-Brunswick and one was shipped by Mr. B. Boswell to Amherst.

Washing Tells. The difference between Stanfield's perfect fitting Unshrinkable Underwear and other makes of underwear "so called unshrinkable," guaranteed, etc., which either do shrink or contain cotton or other foreign matter that is not only injurious to the skin but after a few washings becomes hard and uncomfortable, and practically shapeless. Stanfield's is no experiment—it is made of the best long-fibred Nova Scotia wool, every fibre is tested and must be of great strength and elasticity, otherwise it is combed out by a patented process and rejected. The guarantee of Stanfield's is the strongest possible—Money back if it shrinks in the wash. This is the only guarantee worth your consideration, and is made by the sole makers, Stanfield's, 5 d & w. JAS. PATON & CO.

CITY AND COUNTRY

Guardian Correspondents Everywhere.

JOHN T. Poole and family Cardigan, have the sympathy of the entire community in the loss of his youngest son by death. Tommy was a bright interesting boy who after a few week's sickness has been called away by the Father in Heaven.—Com.

MR. A. EDWARD HOGAN, son of Mr. M. P. Hogan of this city, having completed his course of legal study in the law office of Mr. W. S. Stewart K.C. has passed a most creditable examination and was yesterday admitted as an attorney. Mr. Hogan's many friends will look forward to a bright future for him in his chosen profession, which his fine talents and industry will no doubt enable him to realize.

Mr. Alexander McDonald of Mount Hope was unfortunate enough to have his barn and out buildings burned on Friday 1st of Nov. about 4 o'clock in the afternoon together with the largest portion of the year's crop. All the fodder except one barrack of hay was burned. The carriages and farm implements except a new mower and seeder were saved with difficulty. Loss estimated at \$800 and no insurance. A small boy playing with matches started the fire in the barrack of straw close to the back of the barn. The flames quickly leaped to another barrack filled with sheaf oats and in a short time the barn, horse stable and workshop, all close together were a mass of flames. Needless to say Mr. McDonald has the sympathy of the entire community in his sudden and unexpected loss. On Saturday evening a meeting was called at the schoolhouse to make arrangements to assist Mr. McDonald. Enough men with axes and teams volunteered to put a barn frame on the spot in one day 40x25 feet. Richard Cahill generously giving all the timber required. Collectors were also appointed to solicit outside aid and we take this opportunity of asking any of Mr. McDonald's friends from a distance whom the collectors are unable to call upon to mail their contributions to Miss E. A. Matheson, Sec. and Treas., Mount Hope which will be thankfully received and duly acknowledged by her.

By order of Committee. ALLAN ROBERTSON.

CORN OF 20 CENTURIES AGO.

Corn grown from seed over two thousand years old is attracting considerable attention on the farm of Samuel Wilson, of Sandwich West, Ontario. Mr. Wilson received a small quantity of corn seed from a friend who was in Egypt last year, and who secured it from the covering of a mummy thought to have been interred twenty centuries ago. The corn is bright red in color, and bears no similarity to the native Canadian cereal.

A FAMOUS PEERESS DEAD.

The death is announced in London of the peeress for whose sake Edmund Yates, of the London World, suffered a year's imprisonment, chivalrously refusing to reveal her name, although he had not seen before it appeared in print the malignant and slanderous paragraph concerning Lord Lonsdale which she sent for publication in his newspaper. The late Queen knew of her identity and barred her from court.

OF PERSONAL INTEREST

Rev. E. Slackford, Royalty Junction was in the city yesterday.

Mr. W. A. Brennan, Summerside, is among the guests at the Davies.

Rev. J. W. Godfrey, Rector of Souris and Georgetown, was in town yesterday.

Mr. A. G. Campbell of O'Leary, was in the city yesterday attending the meeting of Presbytery.

His many friends will regret to learn that Mr. Isaac Lane is confined to his home through illness.

Yesterday Mrs. J. A. McDonald and Miss McDonald, Glenaladale, were registered at the Queen.

Mr. J. M. Clark who came to the City on Monday evening, returned to Summerside yesterday morning.

Mr. A. J. Heath, District Passenger Agent, C. P. R. came to the city by the express last night and is registered at the Davies.

Mr. and Mrs. W. N. Shaw and child, left yesterday afternoon by the Yarmouth to take up permanent residence in Boston.

Chas. F. Park, travelling Sec. of the Y. M. C. A. will arrive by the western train this evening in the interest of the P. W. C. Y. M. C. A.

Among the passengers by the Princess last night were Rev. A. McLean Sinclair, F. J. and Mrs. Nash, Mr. Mitchell of the firm of G. P. Mitchell and Co, Halifax and Miss May Alward, of Southport returning from Newfoundland.

PHILADELPHIA AS A CITY

Josiah Flynt has now taken the census of the Under World in Philadelphia, and he finds fifty so-called respectable gambling houses, 1,000 policy shops, 700 disorderly houses, 5,000 gambling slot machines and 1,000 speak-easies—all under the protection of the blackmailing police.

THE CONSUMPTION OF LIQUORS.

The British Board of Trade has lately published a memorandum showing the per capita consumption of wine, malt, liquor and spirits in four of the principal countries of the world, based on the averages for ten years. Here are the figures: United Kingdom.....33.21 gals. France.....33.80 gals. Germany.....30.39 gals. United States.....14.60 gals.

DEPRESSED AND DISCOURAGED.

It is remarkable how thoroughly the whole system is thrown out of order when the nerves become weak and exhausted. All energy and ambition seems to disappear, the mind wanders, memory fails and despondency reigns supreme. Dr. Chase's Nerve Food puts new vim and energy into the brain, nerves and body, builds up the system and prevents paralysis, prostration and insanity.

KISSING IS DANGEROUS.

Health Officer Clark W. Davis, of Cincinnati, Tuesday said he indorsed the order in Milwaukee stopping kissing, but he confessed he did not have the nerve to issue any such order in Cincinnati. "Persons will kiss," he declared, "and I would be the last to stop them. But promiscuous kissing is a dangerous thing. Persons with any sort of throat trouble should not indulge in kissing."

Baddock, June 11, 1897.

BIG GOLD VALUES

Last season I advertised a list of stocks for sale giving the Old Gold and Primrose shares a first place. Now we have the OLD GOLD actually shipping from a 5 ft. vein of ore, the stuff are running \$125.00 to the ton.

The Primrose has just struck a beautiful vein of ore running \$180.00 in gold to the ton besides silver and lead.

The railway is finished to within 4 miles of the lake and freight is actually being accepted for the Lardeau over our line.

Full copies of the Reports will be gladly sent to anyone interested and applying for same.

This is one of the best chances I know of just now for good investment.

A. E. WELCH, London Canada.

Solid Gold Ladies' Ring \$1

EVERY RING STAMPED SOLID GOLD.

The greatest bargain ever offered in this country. Send in One Dollar and we will send you a beautiful Solid Gold Ladies' Ring, set in a single, two or three stone settings. Mention your favorite stones and whether you want one, two or three stone ring. Remember if any of these beautiful—this shows our confidence in these goods. Every ring is packed in a fine pouch and we pay delivery charges. Do not forget to mention the size you want, and so that it will fit you over the knuckles. Then measure the size of your finger along the ring measure, placing one end at the little toe and the other end reaches the base of the ring finger and we can fit you with a ring that will fit you perfectly. To ascertain the number of your finger, we will return money back to you. Do not forget to mention the size you want, and so that it will fit you over the knuckles. Then measure the size of your finger along the ring measure, placing one end at the little toe and the other end reaches the base of the ring finger and we can fit you with a ring that will fit you perfectly.
