80 LOST ON SCHOONERS THIS YEAR

At Least 64 of Drowned Were From Nova Scotia — Compensation Exceeds Last Season's Total.

HALIFAX, N. S., Sept. 23.—The Workmen's Compensation Board announced today that it would be called upon to set aside a quarter of a million dollars in order to care for the widows and other dependents of Nova Scotia fishermen who have lost their lives at sea this year. Four schooners bearing approximately 80 men were lost in the storm of Aug. 24, and of these crews at least 64 were Nova Scotians who would come under the Workmen's Compensation Board provisions.

Last year the amount necessary for this purpose was $160,000 when 44 Nova Scotia fishrmen were lost.

English Still Compulsory

(Special to the Guardian)

TORONTO, Ont., Sept. 23. —Regardless of the proposed abolition of regulation 17, there is still a law on the statute book making English a compulsory language, a Queen's Park official told the Star today. Section 15 of the statute prevents such language schools from ignoring English altogether. "Cccording to the laws of the province, all other nationalities have the same freedom as do the French."

"It is quite impossible for any school, French or otherwise, to ignore English," the official stated. "If the committee's suggestions are adopted regulation 17 will be done away with but it will still be necessary to have English taught in the schools. If any school does not do this, then they are breaking the laws of the country.

The only way this could be changed would be to have legislation passed in the House and this is not likely."

ON MAIDEN VOYAGE

QUEBEC, Sept. 23. — A 100-foot schooner, destined for service along the Labrador coast, has arrived on its first voyage to Quebec.

Launched on July 23 at the Shelburne shipyards in Nova Scotia, the schooner, whose name is Labrador Trader, is of 200 tons and has a speed of 12 to 15 miles per hour with favorable winds.

She leaves for Halifax next week, where she will lay up for the winter before engaging in her coastal activities between Quebec and Labrador.

Legionnaries Left Behind Half A Billion Francs

(Special to the Guardian)

PARIS, Sept. 23. —The first shipload of returning legionaires was scheduled to said today for New York. The state of their pocketbooks after a week in Montmartre necessitated the earliest possible return to their jobs. The Paris merchants and hotel keepers unanimously called the convention an unqualified success. It was estimated that the second A. E. F. invasion of France had left behind half a billion francs, or $15,000.000.

Compston Wins Golf Championship

(Canadian Press)

WALTON HEATH, Eng., Sept. 23. —A. Richie Compston ,veteran British golfer, today defeated Jim Braid in the final of the £1,000 tournament which is regarded as the professional golf championship of Great Britain. Compston won 8 and 7.

United Church Of Canada Exhibition

A remarkable exhibit is at present being shown in Heartz Memorial Hall, illustrating the programme of Christian service of the United Church of Canada at home and abroad. The walls of the Hall and two adjoining class rooms are covered with panels showing nearly a thousand enlarged photographs, numerous maps, and much explanatory reading matter setting forth the facts of the vast missionary and social service enterprises of the Church. It is in effect a trip across Canada and around the world by means of illustrated charts designed to help people realize the immensity and variety of the Churche's work. The charts were prepared by the co-operation of many missionaries and other workers. The exhibit has been shown in various centres of the Dominion, and is now in the Maritime Provnces on a four weeks itinerary. A duplicate exhibit is at present going through Western Canada in charge of one of the missionaries of the church.

Rev. D.G. Ridout, assistant secretary of the maintenance and extension fund of the United Church of Canada, is in charge here with whom are associated Rev. A.P. Quentin, for thirty years a missionary in West China, and Rev. C. A. Bridgeman who has served for seventeen years in the same field. During the afternoon and evening of each day, addresses are given illustrated by lantern slides, on the missionary efforts of the church. Last night an audience which filled the Hall listened to thrilling and inspiring addresses by Rev. A. P. Quenten and Rev. Principal Clarence McKinnon of Pine Hill Theological College. Wm. Quentin spoke of the military situation in China, where there are about a million men in the contending armies, three hundred thousand more as militia employed in guarding property, and about 200,000 bandits, all living off the country. He gave a graphic account of the ten day seige of the city in which his mission is situated, and of the part he himself played in the negotiations which led to the raising of the siege and the saving of the city. Rev. Dr. McKinnon gave the story of the life of Dr. Geddie who went from Prince Edward Island to the New Hebrides, the first Protestant missionary sent by any British colony to a heathen land; and of how George Nicol Gordon and his wife and brother James Gordon, from near Alberton, Prince Edward Island, suffered martyrdom in the same cause in the same land. There is a very interesting display of native weapons, utensils and other articles from the New Hebrides. A large number of new books relating to the missionary and other activities of the church are also shown.

The exhibition will remain on display here today and tomorrow. This afternoon from 2 to 5 there will be a special programme, for boys and girls with lantern slides of the scenes in Africa, Japan, India and China. From 8 to 10 this evening the exhibition will again be open, and illustrated pictures will be given.

Tomorrow, Sunday, Rev. C.A. Bridgman will preach in Trinity United Church in the afternoon, Rev. A. P. Quentin will give an address at the Sunday School rally in Heartz Memorial Hall, and at the evening service in Trinity, Rev. D.G. Ridout will deliver an illustrated address on Western Canada showing about a hundred views.

TO CHANGE RITUAL

HOT SPRINGS, Ark., Sept. 23.—The Sovereign Grand Lodge of Oddfellows in annual session today voted 162 to 46 to change the ritual of the Order as recommended by a committee of which Joseph Powley, of Toronto, Ont., is chairman.

The changes are said to make for simplification.

The 1928 convention will be held in Montreal.

AMBASSADOR KILLED IN PLANE CRASH

German Ambassador to the United States Described as One of the Most Brilliant Members of the Diplomatic Corps.

(Special to the Guardian)

NEW YORK, N. Y., Sept. 23. — The German Ambassador to the United States, with four others was killed today when a German passenger airplane crashed near Schleiz, Thurnia. The Ambassador, described in Washington as one of the most brilliant members of the diplomatic corps there, was on his way to meet his wife and child previous to returning to the United States.

The cause of the crash is regarded as a mystery. Malicious interference is the theory advanced in the absence of any other plausible reason for the disaster. A statement by an eye witness that one of the wings crumpled is dismissed as inconceivable by Lufthansa experts, who declare the plane was thoroughly examined before departure.

Special Com. To Study Alcoholism

(Canadian Press)

GENEVA, Sept. 23.—A resolution introduced by Finland, Poland and Sweden that the problem of alcoholism be seriously studied by a special committee to be appointed by the council, was adopted unanimously today by the assembly of the League of Nations. The question of the appointment of a committee is to be taken up by the 1928 assembly. The proposal was backed by the Belgian, Danish and Czecho-Slovakian delegations.

PIROUETTED 38 TIMES

LONDON, Sept. 23. —Nemchinova, Russian ballet star, whirled thirty-eight times on her $150,000 toes without stoping last night, and it is claimed thereby set up a new world's record. It is said that there are only four ballerinas in the world who can do thirty-two pirouettes on one toe. In last night's first performance in the country of "The Swan Lake," Nemchinova, it is stated, pirouetted four bars too soon, and made the best of a bad job by continuing until she had broken the record.

PLEADS FOR BRUTAL SON

NEW YORK, Sept. 23. — Mrs. Mary Spaulding's old eyes looked straight through her spectacles at the court.

"He is my son. I love him, and I don't want him prosecuted," she said.

The court said there must be something wrong with the mind of a 32-year-old man who beats his mother into unconsciousness.

As William Duffy was led away to be sent to a psychiatric ward for observation, his mother handed him a package. "Here are some clothes I washed for you, Willie," she said. "I thought you might need them."

Duffy broke into loud sobs.

(Canadian Press)

OTTAWA, Sept. 23—Monday, November 7, will be observed as Armistice Day and Thanksgiving Day throughout Canada. A proclamation to this effect appeared in the current issue of the Canada Gazette.

ASSOCIATED BOARDS OF TRADE CONFER WITH LOCAL GOVT.

Resolutions Embraci ng Important Questions Sumbitted.

At 2.30 yesterday afternoon the Associated Boards of Trade met in Conference with the Government. The meeting opened with a few words of welcome from the Premier, in which he expressed his pleasure at having the opportunity of meeting the Associated Boards and hearing their resolutions. Mr. S. A. MacDonald then rose on behalf of the organization and announced that a number of resolutions had been drawn up at the last annual meeting of the P. E. I. Associated Boards of Trade held on the 25th of August, 1927 and that these, without further preliminary remarks, would be submitted for the consideration of the Government. Mr. McDonald then called upon Mr. W. M. Poole of Montague to advance the resolution regarding the permanent appointment of a traffic expert to represent our provincial freight rate interests. Mr. Poole read the resolution and then a letter from Mr. Turnbolt, President of the Halifax Board of Trade to Mr. W. L. Higgins in which the former urged that the Associated Boards in retaining the traffic expert who has been and is, at the present time, doing such splendid work in the cause of Maritime freight reduction, namely Mr. F. C. Cornell.

The next resolution, read by Mr. J. O. Hyndman, strongly recommended a grant from the Government to assist in covering the cost of maintaining the organization in the manifold service which it unquestionably renders to the province. Mr. Hyndman stated that the day is fast approaching when the policies of politics must give way to those which make for the Industrial and agricultural welfare of the country.

Next, Mr. G. Elliot Full rose and read a resolution recommending that our main trunk roads receive a good coat of gravel in order that traffic should be opened up earlier in the spring and continue later into the fall thus lowering the cost of transportation and giving the province a road which, once complete should be fairly permanent and need not be a continual expense on account of adverse weather conditions together with heavy traffic.

Mr. C. E. MacKenzie of Milton next rose and read a resolution advocating the establishing of a chair in Prince of Wales College, associated with the Dominion Experimental Farm, for the teaching of Agriculture.

Mr. McKenzie stated there was no very good reason why our agricultural students should have to leave the Island in search of such instruction. Splendid work, he said, has been done by school fairs throughout the province in this line of work.

A resolution for the establishing of a Health Department was next read by Dr. Jenkins. We have no regular health department in our province and we are the only one which has not. The Doctor referred to the need of a hospital for tubercular patients. Since the tearing down of the Dalton Sanatorium a rather limited accommodatiton has been supplied on the Falconwood premises, but this, he said, is altogether inadequate. The resolution suggested the use for this purpose of part of the old Government House.

The next resolution, concerning our fisheries, was presented by Mr. W. F. Tidmarsh. It dealt with the vast potential value of this industry and recommended that the industry be more fully organized and protected by the Government. The suggestion was also made that the oyster fishery be freed from its present dual jurisdiction and be placed under the exclusive control of one Government preferably the Federal.

Mr. R. E. Much next read a resolution advocating the establishing of a Bureau of Statistics for the purpose of ascertaining all the facts regarding our products and also our imports. Mr. Mutch stated that a complete survey of our possibilities is necessary in order that we may be able to compete intelligently in the struggle for industrial and particularly Agricultural supremacy.

At the conclusion of this the last resolution Mr. S. A. MacDonald rose and thanked the Premier and the Government for their kind attention. In reply Mr. Saunders rose and stated that while the resolutions were all of a splendid character he did not see where the money to finance the various projects would come from, as the province has no very large source of revenue other than direct taxation of the people.

Other facts regarding the resolutions were brought up and discussed by several members of the Associated Boards of Trade and the Government.

When matters had been fully discussed Mr. Saunders rose and assured the President and members of the Associated Boards of Trade that the seven resolutions submitted would receive the immediate and careful consideration of the Government and that decisions would be reached in the very near future.

ANGLICANS DISCUSS POLICY FOR BRITISH-FOREIGN IMMIGRATION

Social Service Council Tells General Synod That while Government has done Much to Promote British Migration To Canada there should be Quota Policy for Foreigners.

KINGSTON, Ont., Sept. 20. —Dealing with the situation in Canada with regard to immigration the Council for Social Service of the Church of England ni Canada, reporting to the General Synod here today re-asserted the position taken by the Executive Council of the General Synod in Winnipeg last year when the following resolution was passed for presentation to the Dominion Government:—"That the Executive Council of the General Synod of the Church of England in Canada would urge upon your Government the great importance of settling the land with people from the Mother Country and would urge a close co-operation between your Government and the British Government to secure that end and trusts that this question of immigration will have a very prominent place at the forthcoming Imperial Conference.

Subsequently, together with other organizations the Council presented the case to Hon. Robert Forke, Minister of Immigration and other members of the Government.

The report said: "The Minister discussed with the delegates many immigration matters and it is felt that this early interview with the new Minister of Immigration will be helpful in encouraging the development of British Migration to Canada. Mr. Forke has spent the summer in Great Britain discussing the whole subject with the Overseas Settlement Board and Canada House, and watching for himself the work of the Department's representatives overseas.

"The Dominion Government has, during the past three years, done much to promote British migration to Canada, not only by the development of the Family Settlement Scheme, but by the adoption of exceedingly low preferential rates for approved British migrants coming to work on farms, or to enter domestic service."

Under the heading of "The Problem of Foreign Immigration," the Social Service Council proceeded as follows:—

"In spite of everything that has been and is being done, and the increase secured in British migration, the immigration from other countries than Great Britain still greatly exceeds that of the British born, and that in spite of the fact that the assisted passage rates are not available for them.

British immigration should surely at least be in the ratio of two to one of immigration from Continental Europe. It would seem, therefore, that not only must the most heroic measures be adopted by the Government and by all interested in immigration, but that it is advisable that the General Synod should seriously consider the advisability of memoralizing the Government to adopt a quota policy limiting the continental immigrants of each year to not more than 50 per cent. of the British immigrants of the preceding 12 months.

30 CASUALTIES IN HANKOW DISORDERS

Independent Govt. Established and Rioting Ensues — Situation South of the Yangtse is Causing Apprehension.

(Special to the Guardian)

PEKIN, Sept. 24.— Serious disorders have occurred at Hankow, involving thirty casualties and possibly requiring increased naval forces, owing to the rioting caused by General Tang Shenipi's forces which lately have established an independent government there.

One hundred Chinese soldiers boarded a Japanese steamship at Hankow demanding passage to Changsha. Being overpowered and disarmed by the Japanese bluejackets, they stormed the Japanese concession, where the Japanese used machine guns. Three Chinese and one Japanese are dead. The barriers were removed only two days ago, when the Japanese withdrew their landing force and the cilivians returned. The concession again was put in a state of defense, also the French concession, which are the only two remaining in the foreign quarter.

Further rioting, with many casualities also occurred in the Hankow native city, where troops attempted forcibly to disperse labor agitators. Foreign telegraphs report that the situation is growing worse, with central bank notes depreciated to 20 cents on the dollar, yet forced on the people, as the silver embargo is maintained. The authorities at Canton have notified the foreign consuls that they will collect a tonnage tax on all foreign shipping. The consuls are protesting, meantime, collecting themselves, as they have done in Shanghai until the tax is withdrawn.

The best information, which states that all regions south of the Yangtse are steadily deteriorating into a state of non-government, is causing apprehension for the outcome when the cold weather arrives.

As a result of the Shanghai situation, Rear-Admiral Clarence Williams, will return Monday. Brig. General Smedley Butler, Marine Commander has left the Rockefeller Hospital, where he has been confined for some time.

$200,000,000 Project

(Canadian Press)

MONTREAL, Sept. 23.—Initial steps have been taken it was officially announced, by a group of local interests connected with financial houses in New York to enter into a $200,000,000 project with the city, Province, Federal government and railway companies to abolish level crossings in Montreal, construct a Grand Central terminal station and construct underground tram facilities. The first intimation of the project was given out today by City Hall officials.

WINTER'S "SPUDS" TO BE IMPORTED

DIGBY, Sept. 23. —A number of local householders are sending to Berwick, Prince Edward Island and Hartland, New Brunswick, for their winter's supply of "spuds". Circulars from a Berwick buyer have been received by a number of householders, the circular quotes potatoes at $1.80 per 90 pound bag.

Potatoes in Digby are now selling at $2.00 per bushel, and several growers say the price will be much higher before the winter is over.

Cardinal Out Over Vatican Policy

ROME, Sept. 20. —The policy of the Vatican with regard to certain French affairs, particularly the act of Pope Pius in placing L'Action Francaise, the French Royalist newspaper on the index expurgatorius, to be shunned by all faithful, was reported to be the actual cause of the resignation of Cardinal Billot, a native of France.

Official announcement was made Saturday that the venerable Cardinal Billot had requested the Pontiff to be permitted to resign his cardinalate because of old age and to prepare himself for death, and that the Holy Father had accepted reluctantly.

There was discernable in certain quarters within the Vatican precincts a difference of opinion as to the advisability of the drastic measures adopted against the newspaper. This division of opinion was not confined to French Cardinals only, for it became known that certain other members of the sacred college have expressed like disagreement.

Endorsement Of Smith's Candidacy Recommended

(Canadian Press)

OGDEN, Utah, Sept. 22.—Endorsement of the presidential candidacy of Governor Alfred E. Smith of New York, was recommended in committee on order of business presented at the conference of Democrats from Western States here today.

Has Called First Forestry Conference

(Special to the Guardian)

WASHINGTON, D. C., Sept. 23.—Lewis E. Pierson, president of the United States Chamber of Commerce, has called a commercial forestry conference, the first of its kind, representing all types of wood using industries and forest owners in all parts of the country, to meet at Chicago, Nov. 16th and 17th, to consider the first steps to be taken by forest owners toward solution of their problems on an equitable basis. Representatives of lumbering activities, paper and pulp interests and various industries dependent upon wood as a raw material, foresters and forest land owners, fire insurance companies and government officials will be present.

Gross Receipts Of Big Fight

(Special to the Guardian)

CHICAGO, Sept. 23. — Gross receipts of the Dempsey-Tunney fight last night were announced today by Tex Rickard, promoter at $2,658,660. The attendance was not announced but the figure indicated that a total of about 140,000 persons saw the fight.

1st Game World's Series October 5th

(Canadian Press)

CHICAGO, Sept. 23.—The first game of the World's Series will be played on October fifth, in the city whose club wins the National Baseball league pennant, it was decided here today at a conference at which representatives of the leading clubs of the National and American Leagues and baseball commissioner K. M. Landis.

ACCUSED COUPLE ARE IDENTIFIED

DENVER, Col., Sept. 20.—H. J. Carter and his wife, alias George McDonald and Doris Vance were ordered held for extradition to Canada, by United States Commissioner Robert E. Foot, after a short hearing, today.

W. C. Roble, Immigration Inspector of Malone, N. Y., was the only witness called. He positively identified Carter as a man who tried to cross the line into this country, on July 17, under the name of Adelard Bouchard. The name of the man Carter is alleged to have killed. He also identified the woman as Carter's companion.

The Commissioner's ruling is subject to review by the Secretary of State, and the couple must remain in jail, here, pending that action. The couple were arrested in Butte, Montana, a month ago, and brought here to face charges of passing worthless checks.

Summerside tide eighteen minutes later than Charlottetown.

DEMOCRATIC THEORY FLAYED BY DEAN INGE

Lincoln's Famous Dictum on Popular Government Dubbed 'Claptrap."

LONDON, Sept. 23.—Hardly any one now believes that democracy is the final phase of governmental progress ,the Very Rev. Dean Inge, of St. Paul's, declared in an article entitled "The Failure of Democracy," appearing in the Evening Standard." Britain's "Jeremiah," in assailing the theory of democracy, prophesied that the nation would probably continue to try it "till the end of the century," but that it would "be in the condition of an animal less and less able to maintain itself in a state of health and vigor."

Dean Inge asserted that democracy rested on the superstition: "Vox populi, vox dei," and labelled Abraham Lincoln's "Government of the people, by the people and for the people" the "claptrap usually uttered by those who want to live on the people, by the people and for themselves." He recalled that "the voice of the people on one notable occasion cried to 'Crucify Him,' and its verdicts are not often more intelligent than this." He minimized American admiration for democratic theory, saying: "The Americans, who are the only real conservatives left, would bring out their Victorian shibboleths to tell that the irresistible march of democracy must continue till our effete survivals are abolished. But on the other side of the Atlantic the word democracy is charged with emotional value which have little to do with the real meaning of the word, and the experience of it as a government. In fact democracy in America mean anything or nothing at all, whicl makes it an excellent slogan."

The clergyman publicist declares that democratic institutions in Great Britain work only because the powers of legislators are limited. They are no longer allowed to vote as they please, but are subject to an undemocratic Cabinet, he says, and even a Labor Government would find its power curbed by the permanent civil service. Only mitigations of this kind, ccording to the Dean, make democracy possible.

"Good government," he says, "should be organic, representing the entire nation and not merely the populace, which is only the nation's most numerous class. The future is for organized, skilled direction, and this is difficult to obtain under democracy."

The Dean suggests that another war might bring to Britain bureaucratic state socialism resting on military force. He says that all new radical movements are openly antidemocratic.

OLD CHIEFTAIN'S SON TO ATTEND

OTTAWA, Sept. 23. — A son of Canada's first Prime Minister and old Conservative chieftain Sir John A. MacDonald, will attend the Conservative convention in Winnipeg next month.

Notification received from Winnipeg yesterday by General A. D. McRae, chairman of the National Commitee organizing for the meeting states definitely that Sir Hugh John McDonald will be present at the rally.

Sir Hugh John will occupy a seat on the platform, and as a delegate at large from the province of Manitoba will mark his ballot in the selection of a leader to guide the party which his father led for nearly thirty years.
