## Driving Park

(Continued from Page 1)

to point out that the fox judging room has been the subject of much favorable comment not only in Canada but also in the United States. Repairs were made to all buildings, bleachers and fences and everything put in perfect order for the season's activities.

Old Home Week was held from August 14th to August 18th, the extra day being made necessary because of postponement from Wednesday afternoon due to a very heavy rain storm. As usual our attendance was large, in fact Thursday, August 16th, set up a new record when exactly 10,000 persons paid admission. Visitors from the Maritimes and other parts of Canada and the United States were present in large numbers.

We wish to acknowledge the assistance given us by the Prince Edward Island Travel Bureau and our City Clerk's Department in finding accommodation for great numbers of these guests. We also acknowledge with grateful thanks the efforts of our hotels, restaurants and the very splendid co-operation of our citizens and householders as far away as Summerside in providing accommodation. Through their splendid efforts most of our visitors were well looked after.

### Provincial Live Stock Exhibition and Poultry Show

This was one of the most outstanding ever held in the Province and the number of entries showing was limited only by the accommodation available. Every stall in every building was crowded and it was a sight worth seeing to view the handlers preparing animals for the show ring. Here the spectators had ample evidence of the work and training necessary for successful show competition.

Interest in the judging was not confined to exhibitors but spread to the spectators who crowded the various show rings and watched with intelligence the placings in the different sections and classes. Not only was the seating capacity taxed to the utmost but at the hundreds of men, women and children crowded the fences to view the animals and judging. This keen interest shown by the public and the management of the Provincial Department of Agriculture of the value of these fairs.

Mr. Donald Black, M.P. of Aubrey P. Q., who judged the horses, declared that the heavy horse breed classes were among the finest he had ever been privileged to judge. The conformation and fidelity to type was distinct and the classes were uniform throughout. He was much impressed also with the lighter classes. Among the Clydesdales the championship went to Alexander McLumpha of Bay Fortune, with Peter Martin of Hunter River second.

### Diary Cattle

The number of entries of dairy cattle combined with the outstanding quality of many animals of the various breeds was commented on by farmers and stock raisers from all over the Province as well as those from New Brunswick and Nova Scotia. The Holsteins were honored by the presence of Abegweit Milady, the world's record cow, which won the grand championship. The owner of this cow, Premier J. Walter Jones, also had the grand championship bull, Abegweit Captain. The Judge, Mr. Clarence Goddard of Val-de-Rue, Quebec remarked that many of the female exhibits would do credit to any ring in America.

Mr. G. Robinson of Harvey Station, N.B. judged the Jerseys. He said the exhibit of this breed was the best he had ever witnessed and that the Island exhibitors should be congratulated on the quality of their Jersey cattle as it would be hard to find a better one to show for any Fair in Canada to show a better or more uniform quality. Harold Stead of Sherwood and Roland Easter of North Wiltshire were the outstanding exhibitors but there were many others whose names were prominent in the prize list.

The Guernsey exhibits brought more breeders of this class into the ring than usual. The Judge, Smith H. S., exhibited the champion, Hilton, Experimental Farm, Napton, N.S., which drew complimentary expressions from time to time praise of the quality of the animals. The most outstanding exhibits were those of Guy Rodd and Allison Bryenton of Brackley.

The Ayrshires always make a wonderful showing at our Provincial Exhibition and 1945 was no exception. Watching their sons' heads being judged were such pioneer breeders as Andrew McRae, Sherwood, and Albert Inga, Mount Herbert, who followed the judging of Fred and Major McRae's and Earl Inga's cattle with the keenest interest.

terest. The Judge, Donald Cummings of Lancaster, Ontario said he was delighted to have the opportunity of placing the winners in the various sections and that they would make keen competition if shown at the Royal Winter Fair.

The Beef breeds were judged by Mr. Robert Black of Moffat, Ontario, who said he was well satisfied with the exhibitors because they were true to type and formed the basis for a wonderful development in beef cattle here. In the Short-horn classes the outstanding winners were A.H. Boswell and Son, Marshfield, Athol Roberts, Winslow, P.J. Martin and Sons, Hunter River; Lorne Coles, Milton, and R. Bell, M.L.A., Charlottetown. In other beef breeds the Sandersons of North River were the largest winners.

The swine entries were judged by J.W. Graham of the Dominion Live Stock Department, Moncton. They were the usual typical good Yorkshire hogs which have made this Province famous for its percentage of select and high quality bacon hogs. Almon Boswell captured the grand championship in both young and aged classes. Another strong exhibitor was S.C. Stewart & Son, Dunstaffnage.

In order to make it easier for exhibitors our Association improved the judging ring and pens and made other facilities available for the comfort of our hog raisers.

The Poultry exhibit was very large and would have been larger if exhibitors had been acquainted with the excellent facilities provided in the new poultry house. It had been doubtful whether the building and pens would be in readiness but through good work on the part of co-operators, the Steel & Wire Company, this was made possible. The Judges were F. G. Ward, head of the poultry division for the Province, and Frederick Driscoll of the Experimental Farm. They pronounced the whole exhibit an evidence of the progress made by the poultry breeders. The New Hampshire breed was an especially good exhibit. The outstanding bird was a Barred Rock Cock, owned by Heber McPhail, New Haven. The poultry industry has been a great source of revenue to our Island and the Exhibition management and the exhibitors have endeavored to provide such comfortable quarters for those engaged in it and thereby encourage them in their very laudable work.

The financing of the Live Stock and Poultry shows is done by the Provincial Government, who provided the sum of \$5,000.00, the breed associations \$208.00. The sum of \$3,398.62 was paid out to exhibitors for judges' expenses, in addition to the sums paid out by the breed associations. Our Association paid the cost of the prize ribbons, printing, a considerable part of the clerical work, postage and other incidental expenses in connection with this show. We also assumed the expense of maintaining our plant, putting it in shape for the fair, supplying water, caretaker and fourteen employees to act as fire wardens, guards, etc.

### High Class Entertainment

Our Vaudeville was among the best we have ever shown, with a variety of acts including the Arloff Trio, Kirke's Animal Circus, White Bros., Don Barardo and Marion, the Skating Earle's, the Quirk's Bicyclists, the Dippy Diers, the Two Mirths and the Victory Revue. Some of these acts came great distances to perform here. Five previously from a tour of South American cities. In addition were other attractions that gave a program of entertainment difficult to surpass.

The Vaudeville programs rendered at our Evening Show where all the acts could be displayed with attractive scenery and the large attendances we ever had at our Evening Shows. Unfortunately, the weather was unfavorable on Wednesday evening and no show was held, otherwise it would have been a record-breaker. Our policy of bringing here the best Vaudeville procurable has certainly been appreciated by our people as shown by the attendances.

### Harness Racing Events

With increased purses and the good will of Maritime horsemen we brought together the largest number of entries for an Exhibition meeting in our history. The 225 class had to be split into four divisions and a total of 15 classes were raced. The racing program was among the best ever offered by a Canadian track and was witnessed by exceptionally large crowds and the races were quite a much enjoyed. The racing program was a record-breaker—there being a total of 10,000 paid admissions. This of course included the season tickets.

The track trotting record of 2:07 3/4 held by Watchin, Lee Brewer and Alloway was lowered to 2:07 1/2 by Watchin 2:06 3/4, owned by Alderman Frank Adams of Halifax and driven by William Hood. The British Consols Trophy, presented by The Macdonald Tobacco Company of Montreal, for the leading driver, was won by Joe O'Brien formerly of this Province, but now residing in New Glasgow, N.S.

The W.P. Lynch Variety Shows and Midway drew large concourses of people, among them many thousands of children who thoroughly enjoyed the rides and mechanical devices.

### Goodwill Races

Our Association has always endeavored to maintain the happiest relations with our horsemen and we were very pleased to meet their request to hold a two afternoons meeting in September. The events took place on the 20th and 21st, between fifty and sixty horses competing. The racing was exceptionally good and the meeting thoroughly enjoyed by horsemen and spectators.

### Provincial Live Fox Show

As the fox industry is of tremendous importance to this Province where it had its birth place, it was only fitting that the new building should be the best that money could build. A particularly gratifying feature of it is the judging room which has been so widely and favorably commented upon by experts from other provinces of Canada and the United States. The fox show of 1945 was one of the largest in many years and the exhibition management and those who attended. The upwards of 500 foxes included silvers in various colorings, white faces, platinum, and some other breeds, all in competition with the whole world have gone to the top.

## EXPORT

CANADA'S FINEST CIGARETTE

Our Plant an Expensive One to Keep Up

The Secretary's report will give you an account of our receipts and disbursements but we would like to stress the fact that the Exhibition plant which covers an area of about 38 acres and has many buildings and fences of wood, requires considerable money to keep in repair and in good appearance. It has been our endeavor through the years to rebuild where it is deteriorating and to increase accommodation for spectators and do everything possible to have a plant that our people will take pride in.

Table with 2 columns: Item and Amount. Includes Advertising (\$2,243.04), Vaudeville and other amusements (7,679.03), Hay and straw (1,164.73), Insurance (1,593.54), Printing & Stationery (785.17), Race Prizes (13,359.96), Watchmen, labor, etc. (8,117.08), Income tax and nearly 4 hundred smaller items (2,839.76). Total amount paid out to the governments for pair-mutual and amusement taxes was \$19,384.57.

### Our Thanks for Support

Our Association is grateful to the Provincial Government headed by Premier J. Walter Jones, M.A., B.S.A., for the continued support of Old Home Week and the Provincial Exhibition, and to Hon. Dr. W.J.P. MacMillan, O.B.E., and to the members of the Legislature without whose support and encouragement we could not function. It is also a great pleasure to have the Breed Associations, our Dominion and Provincial live stock officials and ourselves working in harmony with the exhibitors.

We wish to thank our City Council for extending help to us by their

## Throat Distress May Mean DANGER

When the chest is sore and your cough hangs on, you naturally become worried. One sufferer who was troubled over her condition, wrote: "My back ached, I coughed a lot, I was worried and wondered what was wrong with me. One of my friends advised me to use Nerviline. I am on my second bottle, and so is my mother. Nerviline is doing mother as much good as it is doing me. I have recommended Nerviline to five friends; they are receiving entire satisfaction, also."

Nerviline possesses real penetrating power and is a powerful liniment—its analgesic powers are very great. Rub it over your chest and throat; its effect is soothing, warming, prompt, efficient. It helps to draw out congestion very quickly. Sold in 35c bottles by all dealers.

## NERVILINE A FAST RELIEF

grant and in other ways the Charlottetown Guardian and Charlottetown Patriot for generous press publicity, the Summerside Journal and Agriculturist, the Pioneer and Island Farmer for their press support, C.P.O.V. and C.H.G.S. for their aid on the air, the Prince Edward Island Travel Bureau officials for their helpful efforts, and the Canadian Bank of Commerce who have assisted us in many ways, and finally to the people of our fair Province and visitors from the mainland for their generous attendance.

I wish to express my very sincere thanks to our Directors for their hearty co-operation given at all times and I would be remiss indeed if I did not pay a very special tribute to our Secretary, Mr. J. W. Boulter, M.B.E., whose services in connection with this Exhibition have been invaluable. Mr. Boulter gives his services free not only to our Association but also the Provincial Live Stock Exhibition. I feel sure our exhibitors know and appreciate his worth and I am confident our shareholders are of the same mind. As in the past the work done by Directors and management has been given freely and in full measure.

In closing I would like to express our deep regret at the passing of our esteemed auditor, Percy Williams, which occurred late in December. He had been our helpful friend for many years and we would rely implicitly on his handling of all our cash receipts. His passing was indeed a great loss to our Association and to our City. Our Directors by a resolution of sympathy endeavored to convey to his wife and family our appreciation of the assistance he had given us.

Respectfully submitted,  
D. A. MacKINNON, Lt.-Col.  
President, Charlottetown Driving Park and Provincial Exhibition Association.

The above report was well received and complimentary references made to it by several shareholders. Secretary J. W. Boulter then submitted his annual statement of receipts and expenditures and had supporting documents to show. While the cash surplus for the year was not large he explained that considerable repairs had been done and some new work, all of which was necessary and would make for the better efficiency of the plant. Mr. Boulter's report was unanimously adopted and he was complimented very highly on the good work he has done in connection with Old Home Week and the Exhibition.

A discussion took place which was joined in by practically all present regarding the Exhibition, particularly in view of the crowded condition of the cattle barns and a motion was passed giving the President and Secretary authority to proceed with the construction of more housing accommodation for the exhibits.

### KEEP GROOM'S RING

The Fair-Mutual system was also talked over and a suggestion was made that instead of the machines, tickets would be sold with

a totalizer in the centrefield that would show the odds.

Authority was given for the signing of vaudeville contracts and other entertainment for this season as these have to be secured early to make routing easier. In connection with the vaudeville mention was made that although we are very far away from the New York and Chicago circuits yet many acts come here because of good treatment accorded their predecessors. "Our Province," said the President, "has a good name all over America and acts will come long distances to perform for us. They like our management and our people."

The condition of the track was brought up by a shareholder who said that quite a number of horsemen had spoken unfavorably about it. It was pointed out that the 3,000 loads of clay which had been put on it the previous year had not thoroughly mixed in that it usually takes two years for a process like that to get consolidated. There was also the fact that between 40 and 50 horses of all sorts trained over the track practically all summer and it meant a great deal of expense keeping stalls in repair and the track in shape. Without doubt more care and expense was expended on the Charlottetown track and stalls the past two years than ever before. Next year applicants for stalls will be asked to co-operate so as to prevent damage to stalls and also to give time to the caretaker to place the track in shape during the week before the Exhibition.

Fitting reference was made to the passing of Miss Maude Trainor, who was connected with the clerical work of the Exhibition for so many years. Miss Trainor was very competent and very faithful and a most trusted employee, whose death will be greatly regretted not only by the Association but also by the many exhibitors whose entries she handled so expertly.

The death of Mr. James Brown, superintendent of the electrical connections of the Association, was another big blow. Mr. Brown had been some 25 years in charge of the work and was responsible for all the lighting including the stage lighting which is rather intricate. By his careful attention to detail not one single bit of trouble was ever experienced.

The meeting ended with the feeling that the Exhibition Association which had been a going concern continuously for 56 years, was in a generally healthy condition and would be quite prepared to carry on its role of providing entertainment and recreation as well as facilities for displaying the Garden of the Gulf's finest live stock and poultry next August 12th to 15th.

The maid of honor is usually custodian of the groom's ring in a double wedding ceremony.

## MOORE & McLEOD Limited

### VINTNER RED

### MARITIME STATIONERS

# ELECTRIC POWER RATIONING

## VOLUNTARY RATIONING

Heavy increases in electrical consumption and delays in our reconstruction program caused by strikes tying up factory production of new equipment, have resulted in the demand for electricity being greater than our generating plant can supply. Unless a general reduction of use by all our customers is made immediately service must be discontinued periodically in one or more areas at the time of heaviest load which is normally from four P. M. to nine-thirty P. M. each day.

Voluntary Rationing on the part of each customer is requested so that the available supply may be fairly shared and interruptions reduced to a minimum. If each customer reduces load by one-third from four P. M. to nine-thirty P. M. each day until further notice, service can be maintained. It will be necessary that ALL customers co-operate in this respect, the efforts of a few will not be sufficient.

Your immediate help is requested so that you and your neighbours may each receive service and avoid the necessity of our blacking out an entire district.
