Try Making Your Own Cough Remedy

You can save about $2, and have a better remedy than the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made, and saves easily $2. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

MORTGAGE SALE

To be sold by public auction in front of the Law Courts Building in Charlottetown, in Queens County, in Prince Edward Island, on Wednesday, the 30th day of October A. D. 1918, at the hour of twelve o'clock noon:

ALL That tract, piece and parcel of land situate, lying and being on Township Number Sixty-one, in Kings County, in said Island, bounded and described as follows, that is to say:—By a line commencing at a stake fixed on the south side of St. Mary's Road and in the northeast angle of Farm Lot No. 23, formerly in possession of Philip McDonald, and now owned and occupied by Edward Hughes, and running thence by the magnetic meridian of 1764 south fifty-five chains and fifty-five links or to the division line between said Township and Township Number Sixty-three, thence along same east nine chains, thence north to the Road afore-said, and thence along same west to the place of commencement, being known and described as Farm Lot No. 22, and is more particularly delineated and described on the plan of said Township Number Sixty-one, containing by estimation fifty acres of land a little more or less.

The above sale is made under and by virture of a power of sale contained in an Indenture of Mortgage bearing date the 5th day of July A. D. 1884, and made between Patrick McKearney, of St. Mary's Road, in Township Number Sixty-one, in Kings County, Farmer, and Sarah McKearney, his wife, of the one part, and Harriet May, of Charlottetown, in Queens County, spinster, of the other part, and which said mortgage is vested by assignment in the undersigned, and because default having been made in payment of principal and interest secured thereby.

For Further particulars apply to James D. Stewart, Barrister, Charlottetown.

Dated this 1st day of October, A. D. 1918

Benjamin Clow
Assignee of Mortgage.

THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kep me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

BUSINESS STAND FOR SALE AT KINLOCK

Being store, warehouses and other buildngs formerly occupied by John Grant and later by M. G. Anderson. This place will be sold at a bargain. For further particulars apply to Johnston & Inman, Solicitors, Charlottetown, or Joseph F. Power, Mount Ryan.

Minard's Liniment used by Physician

::Miller's Worm Powders are not surpassed by any other preparation as a vermifuge or worm destroyer. Indeed there are few preparations that it has to recommend it. Mothers, aware of its excellence seek its aid at the first indication of the presence of worms in their children, knowing that it is a perfectly trustworthy medicine that will give immediate and lasting relief.

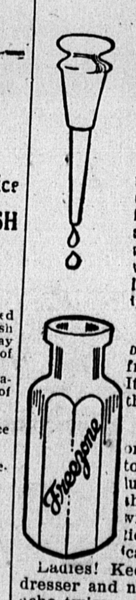
COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody else can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

No Humbug! Lift Off Corns



For a few cents you can get a small bottle of the magic drug freezone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezone. Apply a few drops upon a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, shrivel up and fall off without hurting a particle. It is almost magical.

Ladies! Keep a tiny bottle on your dresser and never let a corn or callus ache twice.

NOTICE

To whom it may concern. Any one found shooting or trespassing in any way on Campbellton Island, New London will be prosecuted.

EVERGREEN PROTECTION.

Get Ready to Do This Planting Next May.

Unless the intending grower of evergreens is willing to wait until spring to commence planting he must get work in that line done early. Evergreens are somewhat difficult to transplant successfully at the best of times and they should never be set out in the fall. Even though trees of this class require considerable attention at the start, they are well worth the time spent on them, especially to dwellers in sections of the country that are not well provided with natural wood growth. Their chief attraction lis in the color they show throughout the winter season, when all other trees have lost their foliage, but almost as attractive a feature is their ability to provide shelter for dwellings and farm buildings in general.

To suggest evergreens planted as hedges for the protection of farm fields would be going a little too far with the idea in the direction of encouraging beauty at the expense of utility, because where tree roots exist farm crops will not grow satisfactorily, but it would be to the benefit of any farm land to have clumps or more considerable plantations of evergreens set in portions of the farm not entirely suited to the growing of ordinary crops, and in fact the sacrifice of a fair proportion of the best of farm land to the growing of trees. In cases where all of the soil is suited for cropping, would be found a paying undertaking in the long run. Where a very considerable acreage is to be reforested other trees than evergreen will naturally be considered, and it is mainly with the idea of improving the appearance of the place that evergreens must be considered for planting on the average farm; the hardwood being better qualified to provide fuel, are the trees that make the strongest appeal in these days of shortage of coal and other material for that purpose.

Though this summer is now too far advanced to allow of considering the planting of evergreens this year, unless the supply of nursery stock is right at hand, it is not too early to start to plan for planting next May. The ground in which it is intended to plant windbreaks or ornamental clumps can be broken this fall, while a visit to some of the best nurseries and a talk with an experienced nurseryman will help one in making a selection of the varieties best suited to various conditions of soil and climate. There are, of course, some farmers so fortunately situated that they can procure their young trees from the natural forest, but even in such cases it is well to secure information regarding varieties, and the practice of transplanting, from someone who has had experience in the work, as evergreens are difficult to transplant, and young trees need careful protection from exposure when being moved. A few hints from a qualified landscape gardener will also be found valuable by the person who wishes to get the best possible returns from his planting in the way of appearance of his grounds.

The masculine idea of an intellectual woman is one who is as thin as a match and wear glasses.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well known physician.

To keep these poisons and toxins well flushed from the stomach, liver kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

As soap and hot water act on the skin, cleaning, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

::For sprains and bruises—There is nothing better for sprains and contusions than Dr. Thomas' Eclectric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain as if by magic. It will take the ache out of a bruise and prevent the flesh from discoloring. It seems as if there was magic in it so speedily does the injury disappear under treatment.

SOURIS EXHIBITION Train Arrangements

In connection with the Souris Exhibition to be held on Wednesday, October 9th., tickets will be issued at one single one way fare and one third from Charlottetown and all stations East, good to return or same day and day following.

Passengers from Charlottetown and intermediate stations will take the regular morning train, arriving at Souris at 11 oo o'clock.

A freight train will leave Elmira at 8.00 a.m. and carry passengers and stock, which will be returned by regular train in the evening.

The Exhibition will be formally opened to the public at 11 oo o'clock, and judging of Live Stock will be commenced immediately afterward.

STIR YOUR TEA

Stir the pot of Tea a minute or so before pouring. This evenly distributes the Tea essence that has been drawn from the leaves, but is lying mostly at the bottom of the pot. You will then get the full flavor from your Tea. And if it is KING COLE Orange Pekoe, note when you stir, the delightful fragrance of the infused leaves. Note also the rich color of the Tea when poured—both indications of unusual quality.

KING COLE Orange Pekoe is different from other Teas.
ASK YOUR GROCER FOR IT BY THE FULL NAME
SOLD IN SEALED PACKAGES ONLY.
