

AVIATION

Aircraft builders report a big shortage of trained men. It is expected that the industry will be able to meet the demand for new biplanes. It is free to men over 18. It outlines the opportunities in this field and a short intensive training designed by leaders in the industry.

FINANCIAL NEWS BRIEFS

(Received over Pitfield and Co's Private Wire)

NEW YORK, Dec. 17—London and Amsterdam are quiet this morning with American issues about the same as last night's close at New York. President Green of the American Federation of Labor sent a letter to the House yesterday morning urging that the Wage and Hour Bill be sent back to committee for revision. In spite of this, Washington advises that every effort will be made to pass the Bill today. Jesse Jones of R. C. F. says this corporation will loan money to railroads to tide them over until they receive rate increases. The House is expected to pass the Housing Bill tomorrow. We would expect a quiet, irregular market again today although there may be some further improvement in the copper, oil, steel and chemicals.

TORONTO, Dec. 16—Lapa Cadillac—Advises that the December 15th instalment covering an option on 40,000 shares at 40 cents under agreement dated Nov. 30, 1936, as amended has been received. Balance of agreement comprises an option on 80,000 shares at 40 cents payable by January 15, 1938. Total issued capital is 2,891,765 out of an authorized 3,000,000 shares.

MONTRÉAL, Dec. 17—National Steel Car to pay 50 cents January 15 to holders at Dec. 31st. Same amount as was paid October 15.

Eldorado—Raising from 590 foot level reported in high grade ore. Cross cut at 940 feet has intersected vein with width of 20 feet with high grade pitchblende and cobalt in evidence, which management believes is same ore body as on 590 foot and extension of original discovery.

Western Pacific ordered 22,000 tons of rails divided between Colorado Fuel and Iron and Columbia Steel, the latter Pacific coast subsidiary of U. S. Steel.

Letch Gold—November output \$48,251 new high from 1979 tons which compared with \$45,127 in October from 2,275 tons.

Read Authier—Issued report showing all around improvement in the two principal mines in which it is interested, namely, Lamaque and Sigma.

TORONTO, Dec. 17—Powell Rouyn Gold Mines—In deepening the main shaft from 643, to 825 feet has intersected the vein at depth of 725 feet in the shaft, D. C. Chisholm, secretary, informed the Financial News Bureau. No assay results are available yet, Mr. Chisholm said, but the vein looks the same as in the upper workings of the mine. The shaft is being sunk to 825 feet with a fifth level to be established at 800 feet. Ore shipments are being made at the rate of 300 tons daily to the Noranda smelter.

TORONTO, Dec. 17—Dome Mines—Have heard some talk about Dome splitting stock on basis of 2 for 1 but nothing official at all on this. It is significant, however, that big buying in Dome is coming from New York. Julius S. Bache, of the New York firm bearing his name is the president of the company. The small capitalization of Dome only 1,000,000 shares authorized and 973,334 issued would seem to lend credence to the story.

TORONTO, Dec. 17—Western Oils—The Turner Valley wells are just above the lime contact this morning. West Flank No. 2 is below 6,500 feet with the lime expected at any time. Brown Corp. No. 3 important central west flank test, is below 6330 feet within 40 feet of the lime. Two other wells are running neck and neck in the race to completion. West Flank No. 3 is 283 feet in the lime at 6,891 feet and Sunset Oils is 259 feet in the formation at 7,276 feet. The potential at West Flank No. 1 has been set at 425 barrels daily allowing a flow of 149 barrels daily under prorotation to 35 per cent. The initial acid treatment apparently did not completely open the producing horizons and a second acid treatment will probably be applied soon.
