**New hatching equipment with government approved flocks is your assurance of quality chicks. Hatching twice weekly. Early orders receive preference at reduced June prices. The P. E. I. Co-Operative Hatchery. L-1183-6-7-9-11.

**Special on hard wheat flour at 3.30, its great value also laying mash chick feeds, poultry equipment, brooders, remedies, etc. The P. E. I. Co-Operative Egg and Poultry Association. L-1183-6-7-9-11.

WOMEN TURNED DOWN

BELFAST—(CP) — A bill to admit women to the Synod of the Church of Ireland was refused second reading, 180 to 130, at a Synod meeting.

Crop Prospects Promising In Province

Eradication Of New Weed Here Is Urged.

Crop prospects in Prince Edward Island were promising, Dr. J. A. Clark, superintendent of the Charlottetown Edperimental Station said last night. Practically all the grain had been sown and a large part of the potatoes planted. As soon as weather conditions permitted planting of the remainder of the potatoes and the turnips would be completed. Although the season was somewhat late conditions had been very favorable for the growth of grain, Dr. Clark said. Germination had been rapid. Hay and pasture was very promising. The apple crop gave promise of being about average while the outlook for small fruits was good.

A weed apparently new to most sections of Prince Edward Island had made its appearance this season, the Agriculturist announced. It was "Yellow Rocket" or "Winter Cress," he said and was a member of the mustard family and therefore he believed steps should be taken to eradicate it. It appeared in new meadows from Tignish to East Point and had apparently came in grass seed. Some farmers believed it had been in the alsike.

The plant could be recognized from its clusters of yellow bloom and its height, 8 to 10 inches above the grass. It appeared in quantities varying from 100 to 200 plants to the acre. The only method of control was pulling, Dr. Clark believed and he advised farmers to make every effort to exterminate it this season before it spread further.

Returning again to the discussion of crop conditions the Experimental Station Supervisor said that the outlook for fodder corn was fair. A late season such as this was not favorable unless there was a good deal of hot weather during the summer. However at present other fodder crops were very promising and the corn crop was a less important factor for this reason. Corn at the Charlottetown Station had been planted Saturday. Dr. Clark believed there was only one way to protect corn fields from the ravages of black birds and that was to stand guard over them with a shot gun for several days just as the corn was coming up. The birds make the greatest destruction in the early morning, it was said.

France Prepares For Royal Visit

PARIS, June 6—(CP Havas)—A white and gold yacht was being outfitted at Trouville today to take King George VI and Queen Elizabeth less than two miles down the River Seine in 15 minutes during the ceremonies scheduled for June 29.

Workers at the English Channel seaside resort are refurnishing the Danunia, a trim 50-ton craft owned by Georges Enault. In a few days it will be ready to sail from the mouth of the Seine to the Bridge of Alexander III in Paris, where it will be tied up to await its royal guests.

Making preparations for the visit of the British King and Queen, the French Government has overhauled a crack locomotive to take the royal visitors on their travels through France.

Rotarians Launch Banff Convention

BANFF, Alta., June 6—(CP)—Because the 116th district of Rotary International, stretching from the head of the lakes to Baniff, is "too large in the matter of area," Oliver C. McIntyre, Edmonton, governor of the district, suggested in his report to the 23rd conference here today that it should be divided and the eastern section joined with the district including Duluth.

Nearly 400 Rotarians and their families gathered here to attend the two day conference which started its business sessions today, with Paul P. Harris, Chicago, founder of Rotary Clubs and president emeritus of Rotary International, in attendance. W.C. Sinclair, Port Arthur made the response to welcome addresses.

CONSENT OF PROVINCES NOT OBTAINED

Promised Umemployment Insurance Bill Unlikely To Be Introduced This Session.

(By The Canadian Press)

OTTAWA, June 6—The Federal Government has a national unemployment insurance law drafted and will submit it to parliament as soon as it meets with the approval of the provinces, Prime Minister Mackenzie King told the House of Commons during a busy session today. It is unlikely, however, it will be introduced this session as the Government does not intend to "coerce" the provinces.

The Prime Minister was answering a question from Harry J. Barber (Con. Fraser Valley) who said he had been urged to support an unemployment insurance measure and wished to know whether one would be forthcoming.

Sought Co-operation

Early this year the Government asked the provincial governments to agree to an amendment to the British North America Act which would give the Federal Parliament jurisdiction to deal with unemployment insurance. Some provinces agreed but Quebec, Ontario, New Brunswick and Alberta refused or reserved decision.

Rapid progress with three important bills was made in the House today but discussion of the occupation of the Vancouver Post Office by single unemployed men held up proceedings when the Government moved to set up the committee to supply on the estimates.

Finance Minister Dunning saw his bill to authorize the loaning of $30,000,000 at two per cent interest to municipalities for self-liquidat-

N.S. WOMAN DISAPPEARS

Search Underway At River Denys.

RIVER DENYS, N. S., June 6—(CP)—Somewhere in the deeply wooded slopes of River Denys mountain, Catherine Campbell remained missing tonight after posses from this Inverness County village totalling 170 men had tramped the section throughout the day without finding a trace of her. The 54-year-old woman has been missing since Saturday afternoon.

Plans to have a plane from the Cape Breton flying club at Sydney join in the search were abandoned when it was deemed impracticable to conduct a search from the air over the heavily wooded area.

Hopes for discovery of Miss Campbell's whereabouts appeared to rest on a German police dog, expected to arrive from Moncton, N. B., early tomorrow with its trainer. The dog will be placed on a scent already 60 hours old.

Miss Campbell arrived here from Whycocomagh, Saturday on a visit to a sister. She disappeared while walking a half-mile stretch of highway leading to the sister's residence.

BUDGET NOT YET READY

(C.P. By Guardian's Special Wire)

OTTAWA, June 6 — The budget will not be brought down this week, Finance Minister Dunning said tonight when reports it might come down this Thursday were referred to him. Recently he assured the Commons he would advise it well in advance of the date.

Nazi Press Resumes Bitter Attacks On Czechoslovakia

BERLIN, June 7—(Tuesday)—German newspapers attacked Czechoslovakia today with a bitterness that indicated a new period of tension leading up to next Sunday's Czechoslovak elections, the last of a series of municipal voting.

Papers gave sweeping play to the Bodenbach Whitsuntide incidents, in which police broke up a Sudeten German demonstration, and to the assembly of Slovaks Sunday at Bratislava in which wide autonomy demands were made.

"Czechoslovaks break Whitsuntide peace" was the headline on Chancellor Hitler's Voelkischer Beobachter. The local Anzeiger announced: "Czechoslovak gendarmes use blackjacks on Sudeten Germans."

On the subject of the Slovak demand the Voelkischer Beobachter said: "The war cry of 2,000,000 Slovaks will find a sharp echo in the hearts of 3,500,000 Sudeten Germans, for their sufferings come from the same source. The incidents in Bodenbach and Libor demonstrate that the Czechoslovak rabble, armed and uniformed, has once again been let loose."

The papers for the most part maintained silence concerning today's counter-demonstrations at Bratislava, at which Premier Milan Hodza spoke in reply to Sunday's Slovak gatherings.

His Fate Still Unknown

Blond, blue-eyed James Bailey Cash, Jr., five and a half years old, was kidnapped on May 28th from his home in Princeton, Florida. His father paid $10,000 as ransom, but the boy has not been returned.

(A.P. By Guardian's Special Wire)

PRINCETON, Fla., June 6—The Cash family returned to business today and this hamlet slipped into routine ways amid fading hopes for an early solution of the kidnapping of five year old James Cash, Jr.

Federal agents released the only two men they were known to be holding while a small posse continued a last-chance search of islands south of here.

James Bailey Cash, Sr., reopened his filling station and lunchroom for the first time since his only child was abducted a week ago Saturday. Mrs. Cash—who shares her husband's conviction the boy was killed—could be seen sitting just inside a window, apparently engrossed in sewing.

The men released from the Federal Bureau of Investigation office in Miami were M. F. Braxton, unemployed Princeton carpenter, and his son, James, a Cape Sable commercial fisherman.

French Fire On Spanish Warcraft

Anti-aircraft Defences Organized To Cope With Territory Violations.

PERPIGNAN, France, June 6—Premier Edouard Daladier today toured the frontier in a personal effort to put French anti-aircraft defences on a war footing.

Aroused by three aerial incursions from Spain within 12 days, the Premier, who also holds the portfolios of war and national defence, flew south from Paris.

Arriving at Toulouse he set out on an automobile tour of the mountainous borderland 4 1-2 hours after a squadron of planes from Spain circled over France's Cerdagne Valley in the central Pyrenees.

Warning shots from French anti-aircraft batteries caused the nine planes to wheel about after 10 minutes of flying over French soil.

As they crossed the border Spanish Government anti-aircraft batteries at Puigcerda fired more than 100 shots at them, without scoring a hit but indicating Government troops believed the planes to be enemy craft.

France's anti-aircraft defences already had been tightened to prevent repetition of a 50-mile invasion yesterday by nine planes of "unknown nationality" which unloaded their bomb racks near Ax-Les-Thermes in Ariege department, 15 miles within the border.

The Sunday bombardment marked the deepest inroad by alien fighting planes since the Spanish civil war started July 18, 1936. There were no casualties yesterday and no bombs were dropped today.

Annual United Church Meeting Will Open In Sackville Today

SACKVILLE, N.B., June 6—(CP)—The Maritime Conference of the United Church of Canada will open its annual meeting here tomorrow with the president, Rev. H. T. S. Gornall, Saint John, presiding.

Between 500 and 600 delegates, representing 334 pastoral charges and more than 176,000 members and adherents, will attend the conference. Next Sunday 19 young men will be ordained.

An outstanding event of the conference will be the bi-centenary anniversary celebration of the conversion of John Wesley.

FRENCH-OWNED HOSPITAL HIT, PROTEST MADE

Terrific Havoc And Heavy Death Toll Wrought In Bombings.

BULLETIN

(A.P. By Guardian's Special Wire)

HONG KONG, June 7—(Tuesday)—For the ninth successive day Japanese war planes raided Canton today, according to reports reaching here, and bombed the crowded city still digging out from the ruins of yesterday's bombardment.

The raiders came at dawn after a sleepless night in which authorities endeavored to cope with 1,500 casualties from yesterday's deadly attacks.

CANTON, China, June 6—Japanese air raiders killed or wounded an estimated 1,500 persons today in two raids on Canton.

Chinese officials feared the toll might be even higher as rescue workers searched the ruins of more than 1,000 buildings destroyed or damaged.

Today's attacks raised to 6,000 the estimated total of casualties in this large South China city since raids began May 28.

More than 100 bombs fell on the metropolis as the planes swept over in droves in one attack at 8.30 a.m. and another two hours later.

French Hospital Struck

One side of the French-owned Doumer Hospital on the river front was blown out. A French military surgeon was wounded slightly, two Chinese patients were killed and seven were injured.

French colonial infantrymen from Shameen Island, where there are British and French concessions, sped to the scene to guard the property.

LLOYD GEORGE TAUNTS GOV'T

War-time Premier In Bitter Attack On Foreign Policy.

STAFFORD, England, June 6—David Lloyd George declared tonight Great Britain's "twittering little protests like a frightened bird" to the Spanish Insurgents were becoming a world joke.

"It is a sad thing for an old fellow in his 76th. year to see the British flag becoming the jest of nations," the former Prime Minister said.

(The British Government announced May 30 it was protesting vigorously to the Insurgents over the sinking of the British freighter Thorpehall May 24 off Valencia. The following day the British freighter Penthames was bombed and sunk by Insurgent bombers raiding Valencia.

(Last Saturday four British seamen lost their lives when the British tanker Maryann was bombed near Alicante and today five more were killed aboard the British freighter St. Winifred in another raid on Alicante.)

By-election Address

"Do we send a protest to Italy and Germany?" Lloyd George asked.

"Oh, no! We are afraid of them. Since when has the British lion been like that?"

The former Prime Minister, a Liberal, made his address during a by-election rally in which he spoke for the Labor Party candidate.

He shook his fist angrily as he accused the Government of "craw-

U.S. Studies British Proposal To Investigate Aerial Attacks

(A.P. By Guardian's Special Wire)

WASHINGTON, June 6 — State Secretary Hull said today he was examining every phase of a British proposal that the United States join in an international investigation of aerial bombings in Spain.

The proposal was communicated to the state department by Sir Ronald Lindsay, British Ambassador, in an interview with Under-Secretary Sumner Welles.

Lindsay suggested that this government agree to be represented on an international investigation committee. After studying the proposal, state department officials decided to ask Great Britain for further details.

While Mr. Hull conferred with his division chiefs on the British suggestion, reports continued to flow in of additional Japanese air bombings at Canton, taking hundreds of lives.

STOCKHOLM, June 6—Sweden tonight accepted in principle a British invitation suggesting an international commission to determine whether Spanish bombings that have killed hundreds of civilians were directed toward military objectives.

OSLO, June 6—Norway's government circles today were favorably disposed toward Great Britain's plan for an international inquiry into air raids on Spanish cities. It was expected the cabinet would act on the proposal this week.

Freighter Struck In Insurgent Air Raid On Alicante

Raiders Sweep Down In Series Of Attacks On Mediterranean Coastal Centres.

ALICANTE, Spain, June 6—(CP)—Insurgent air raiders swept down the Mediterranean coast today leaving at least 84 dead and 300 injured in a bomb-pocked trail from Castellon de la Plana to Alicante.

Result of the swift aerial attacks was:—
Alicante—30 dead, 118 injured.
Valencia—17 dead, many injured.
Segorbe—12 dead, 30 injured.
Small coastal villages—25 dead, approximately 100 injured.

Insurgent and Spanish Government armies were locked in a stalemate along the eastern fronts while the Insurgent airmen sallied behind the Government's sternly defended lines.

Alicante's dead included five British seamen aboard the British Freighter St. Winifred when it was struck and set afire.

CIVILIAN VICTIMS

The raid carried out at 11.30 a.m. by five trimotor German-type Junkers, caused 30 deaths and 118 wounded. Among the dead were 12 women and one child. The bombardment was more intense than previous attacks, but the alarm was sounded sooner and the civil population was able to seek refuge.

The Britons killed on the St. Winifred, which had brought a cargo of coal from Newport, Wales, were Engineer Halliday, two seamen named Hennessy and MacMillan and two cabin stewards whose names were not immediately revealed.

Bombed Previously

The St. Winifred was bombed two weeks ago during a similar raid on the same port. The British Freighter Maryann was still burning today as result of a bombing last Saturday in which Second Engineer A. P. Williams was killed.

Formerly the Manchester Hero, the St. Winifred is a 5,775-ton ship operated by the Barry Shipping Company of Newport, Wales. Under command of Captain Ormston, with a crew of 33, it left Newport about a month ago with its cargo of coal.

A commercial building owned by the British concern of Hawes and Kew, above which the Union Jack was flying, was among property destroyed.

Encircle Albocacer

HENDAYE, France, June 6—Spanish Insurgents reported tonight their forces had encircled Albocacer, centre of Government resistance blocking the southward drive toward Castellon de la Plana and Valencia.

Dispatches from the front said capture of the town was "only a matter of time."

Albocacer's civilian population of 3,000 was reported to have been evacuated just before the last exit was closed by General Franco's troops.

The town is 16 miles from the Mediterranean and six miles from the main highway leading 26 miles south to Castellon de la Plana.

The other main spearhead directed at seaboard highway by way of the Teruel-Sagunto road was held stationary. This zone is about 40 miles west and slightly south of Albocacer.

Island Youths Are Given Sentences

WOODSTOCK, N. B., June 6—(CP)—A fifteen-year-old boy from Charlottetown appeared in the police court here today, admitted theft of a car Saturday night and was sentenced to three months in jail. His companion, a year older and also from Charlottetown, was charged with vagrancy and committed to jail pending communication with his parents.

Police said the younger boy had taken a parked car and driven away, leaving the other youth behind. The car and young driver were overtaken a few hours later.

MISS GEORGINA POPE, VETERAN NURSE, DIES

Notable Career In Service Of Empire Is Recalled.

An honoured figure in the nursing history of Canada, a veteran of two wars, and a daughter of one of Prince Edward Island's distinguished Confederation statesmen, passed away in Charlottetown yesterday morning in the person of Nursing Sister Cecily Jane Georgina Fane Pope, Royal Red Cross. She was in her seventy-sixth year, and had been in failing health for some years.

Known as Prince Edward Island's "Florence Nightingale" for her splendid service in the Boer War and subsequently in the World War, Miss Pope came of a family which played a prominent part in Canadian history. She was a daughter of the late Hon. William Pope, a Father of Confederation, a niece of the late Hon. J. C. Pope, at one time Minister of Marine and Fisheries, and a sister of the late Sir Joseph Pope, K.C.M.G., C.V.O., C.M.G., I.S.O., who was Undersecretary of State for External Affairs, Ottawa, Private Secretary to Sir John A. Macdonald, and author of the Life of that distinguished Canadian statesman.
