HUMOR OF THE BORDEN TOUR IN ONTARIO.

Mr. Borden has had excellent weather for his tour in Ontario with close attention to what he had to say and much respect paid to himself personally as well as to his principal lieutenant, ex-Judge Doherty of Montreal.

The Ontario man does not display his enthusiasm in the manner of his brother from Quebec. The good people of this fair province do not give vent to their feelings, political or otherwise, through the medium of their mouths. Undemonstrative to a degree, the thousands who have heard Mr. Borden and Mr. Doherty this past week have paid the supreme tribute of keen attention.

And it is impossible to tell how far this thing may spread. From the little kids, the venerable grandfathers and daisy Auntie Wright the cordial feeling toward Mr. Borden may mount upward and trickle downward to that great body of young and middle-aged voters who so far have repressed their enthusiasm.

Enthusiasm there have been some scenes and incidents of human interest, illustrating also the ways of politicians, and some good fun. At Campbellford Mr. Borden, we are told, was presented with a bouquet of American beauty roses by a little girl, all resplendent in starched dress and gay ribbons.

This was all very pretty in its way, but there was more fun in what happened at Ingersoll when Auntie Wright, the negro woman, secured the \$10 gold piece for being the handsomest young lady on the grounds.

and was later called upon for a speech at the garden party there. The old lady made a courtesy of the vintage of fifty years ago, and, grasping her gold piece, said: "I wish Mistah Borden would come here every day."

Thirty years ago the seagoing vessels entered and cleared at Canadian ports were 2,990 British, 10,219 Canadian and 5,161 foreign. The total tonnage of these vessels was 6,786,714 tons.

PROTECTION AND THE CANADIAN CARRYING TRADE

Thirty years ago the seagoing vessels entered and cleared at Canadian ports were 2,990 British, 10,219 Canadian and 5,161 foreign. The total tonnage of these vessels was 6,786,714 tons.

Something like a threefold increase took place between 1880 and 1909, the last year for which the figures are available. In the latter year the number of vessels entered and cleared was 5,795 British, 10,946 Canadian and 13,441 foreign.

This is the great shadow that protection has left upon Canada. Amid the general prosperity that has come to the Dominion from the opening up of our fertile west, and the great industrial development that has come, along with the influx of a million settlers, the Maritime Provinces have lost their shipping, without any compensating advantages, and hence have not been able to keep pace with the rest of the Dominion.

THE BIG PROVINCES LAND GRAB

The extension of the boundaries of Manitoba figures in the Provincial election campaign in that Province. Premier Roblin blames Premier Laurier, and vice versa, for the delay.

"Sir Wilfrid Laurier took the proper course when many months ago he called representatives of all the Provinces into conference in order to arrive, if possible, at a fair and final settlement. At that conference it

was agreed that the boundary of Quebec should be enlarged to include the part of Labrador that belongs to Canada, and that the part of Keewatin between Northern Saskatchewan and Northern Ontario should be divided between Manitoba and Ontario by a line then and there agreed to by all parties.

Surely this is startling if true. The Globe also says the only reason why the division of the Northland has not been carried out is because Manitoba has not passed the necessary co-operative legislation.

Placing the tonnage of each nationality arrived and cleared in 1880 and 1909 respectively, we have the following contrast:

Table with 3 columns: Year, British tons, Canadian tons, Foreign tons. 1880: 2,642,935, 1,794,210, 2,349,569. 1909: 10,405,370, 2,806,278, 6,554,228.

In other words, where Canadian vessels were doing one-quarter of our carrying trade thirty years ago, they are now doing but one-seventh part. The protective policy has wrecked the Canadian shipping industry as it did that of the United States, put us far back in the scale of ship-owning nations where we once stood fourth, and given our carrying trade over to free trade Britain and Scandinavia.

This year we have devoted our whole time, personally to the home garden, Mr. Campbell taking charge of the retail market, and we believe we are in a better position than ever before to attend to our large number of customers at home and abroad.—Below we give a partial list of our plants—

Gay's Plants

Annual bedding flower plants—Aster, Phlox, Verbena, Stocks, Petunia, Marigold, Zinnia, Balsam, Portulaca, (double and single), nasturtium, (tall and dwarf), Mignonette, Calliopsis, Chrysanthum, Candytuft, Salpiglossis, Larkspur, Lobelia, Golden Feather, Bachelor's Buttons, Snapdragon, Seeding pansy, Ameranthus, Ice plant, Dusty miller. All the above annuals 15c per doz.

Perennials Wintered over—large clump plants—Pansy, Daisy, Carnations, Dianthus, Sweet William, Forgetmenot 5c each 50c per doz.—Hollyhocks choice double 6c each 60c doz.

We mail annuals postage free, but Perennials add one cent extra for postage—Late cabbage 5c extra—Transplanted Early cabbage and cauliflower 8c extra—Celeriac do. Late Tomato 3c extra, and extra early tomato, 6c extra for postage must be added.

It would be advisable for large orders to have plants go by express or freight. A number clubbing together will find it to their advantage and a liberal discount will be made.

As our market business is open every day it will be to the interest of customers to call there when at all convenient and personally select their plants. Flowers have been so much improved of late years that the old time stock would not be recognized.

Many American newspapers are referring to "Prosperous Canada" in cordial terms these days. The New York Herald, foremost as a newspaper, has now a well-conducted correspondence bureau at Ottawa and gives daily clippings from leading Canadian journals. This is especially valuable to Canada, in making letter known to American readers the resources, the progress and the opinions of the Canadian people.

And now the airships have begun to earn money, apart from prize. Lady Adby paid \$630 for the privilege of being the first English woman to be taken on a flying trip. After that she was to have two more trips for \$72.50 each. But the airship, owned and driven by Graham White, the noted English aviator, fell and was smashed when only ten feet from the ground. Neither he nor Lady Adby were injured, however, and they will try again.

Chief Commissioner Cummiskey is taking in hand the people who are encroaching upon the public highways. There are many—far too many—of these. They are now officially notified to remove forthwith the fences or other incumbrances that they have placed within the lawful road limits, and that if they fail to do so they will be prosecuted.

It is hot in Manitoba now and going to be hotter. The thermometer registers in the nineties and the election campaign is on. Sir Wilfrid is to speak in Winnipeg on July 11. Premier Roblin has fixed the same date for polling day. Next day will be the 12th, of "glorious and immortal memory," so to speak, redolent also of the shouts of the victors and the groans of the vanquished in the election fight. If all these don't make a hot time in the old town of Winnipeg then we shall miss our guess.

Next census will be taken in June 1911. Previous enumerations were taken in April. Artful Sir Wilfrid will catch the inflowing immigration of the spring of 1911 and so swell his totals. The ten years will be stretched to ten years and two months this time, but with everything progressing and growing by leaps and bounds why shall not the decade also expand? These are expansive years!
