P.E. ISLANDER MAN IS NOW RUSSIAN ADMIRAL

VANCOUVER, B. C., March 10.—Prince Edward Island has contributed an admiral to a foreign navy in the person of Capt. John L. Read, for many years in charge of the Dominion government ice breakers, plying between the island and mainland during the winter season. Twelve months ago Captain Read took the ice breaker Minto over to Archangel. The Russians, being so pleased with the exploits in rescuing seven of the ships from the icy grip of their freight zone on his first visit, asked him to return again, and he has again complied with their request, this time going in command of the new Dominion government ice breaker, J. D. Hazen, which has been disposed of to the Russian government and renamed the Mikula Selianinotich. Captain Read has now been asked to attach himself to the Russian navy as superintendent in command of the entire fleet of ice breakers, with the rank of admiral.

Captain Read is a native of Summerside, P. E. I., and is regarded as one of the most capable master mariners in the Maritime Provinces, having had varied experiences. He acted as mate with his father at the time of the South African war. He comes from a seafaring family, being the son of Captain Joseph Read, a noted mariner of his day, at present a prominent merchant of Prince Edward Island, who had four brothers master mariners.

LONDON, March 12.—Irish nationalists made their reappearance in the Commons this afternoon and assured themselves of another early debate on the subject of Home Rule by securing from the government a promise that Irish estimates would be introduced some day next week. Those present included, Premier Matheson, Sir Charles Dalton, Hon. Murdoch McKinnon, Mr. A. A. McLean, Mr. P. Colwell, the Honorable Sir R. Jenkins, Judge Aeneas McDonald, Mr. F. W. Hyndman, Mr. J. E. B. McCready, Mr. D. B. Stewart, Mr. C. H. B. Longworth, Mr. George J. Rogers, Mr. A. E. Morrison, Mr. A. W. Hyndman, Mr. Bruce Stewart, Mr. Harold Jenkins, Captain T. G. Taylor, Mr. John Anderson, Mr. H. H. Shaw, Mr. John Bradley, Mr. Oliver Craswell, Mr. Wm. L. Aorn, Mr. Reuben McDonald, Mr. J. R. Burnett and Mr. J. J. Enman. Mr. F. W. Hyndman explained that at a preliminary meeting he had been appointed acting president. He briefly explained the objects of the league.

Mr. A. A. McLean, M. P., read a communication from Mr. G. R. Lighthall, of Montreal, who told of the organization of the Aerial League in that city. The object it was explained, in this letter, was to encourage and stimulate the invention and manufacture of aerial craft, and disseminate knowledge and spread information about aerial navigation. Mr. McLean explained that while in Montreal recently he had met Mr. Lighthall and conversed with him about the matter. Mr. Lighthall said he was anxious to see a branch of the League formed in every province.

Mr. McLean told him the formation of a company having for its object aerial transportation between this province and the mainland was contemplated. Mr. Lighthall recommended him to a certain gentleman who would give him further information as to construction and costs, of manufacturing a company was in favor of passing before the Legislature for the running of aeroplanes.

On motion of Mr. F. W. Hyndman it was decided to proceed with the election of officers for the Charlottetown Branch of the Aerial League. The following were elected: President, Mr. F. W. Hyndman; Secretary, Mr. Oliver Craswell. An executive of five was elected as follows: Messrs D. B. Stewart, A. A. McLean, M. P., C. H. B. Longworth, A. E. Morrison, and R. H. Jenkins. Treasurer, Mr. G. W. Harrison.

It was moved by Mr. A. E. Morrison, seconded by Mr. G. J. Rogers that Sir Charles Dalton be vice-president for the Branch. Carried unanimously. It was decided that the annual fee of the League be \$1.00. A committee of three to draw up by-laws was appointed as follows: viz.—The president, Mr. F. W. Hyndman, Mr. J. E. B. McCready, and Mr. A. A. McLean, M. P. It was decided to immediately take steps to form a company, Messrs McCready, Taylor, F. W. Hyndman and Judge McDonald, were appointed a committee to organize a large committee, with a view to organizing an aerial company for the purpose of establishing aerial communication with the mainland.

The following were appointed to the larger committee:—A. W. Binning, A. W. Hyndman, Hon. John McLean, A. J. McFadyen, H. T. Holman, J. A. McDonald, Cardigan, A. C. Saunders, Fred McArthur, F. R. Hearty, Ivan Redden, D. B. Stewart, W. F. Tidmarsh, Robert Rattray, John McNevin, Dr. McLaughlin, St. Peters, Dr. McIntyre, Montague, Donald Nicholson, M. P., A. B. Warburton, ex-M. P. Sir Charles Dalton, J. B. McFadyen, Augustine Cove.

The appointing committee was given power to add such names as they saw fit to the above list. In the course of his remarks during the proceedings Mr. McLean stated that already a recruit for the air service from this province had volunteered, Mr. George M. Milford.

Mr. McCready nominated Mr. Craswell as secretary because he said he took a great interest in the work and was well posted on different matters connected with aerial navigation. Mr. Hyndman said he had been in communication with the manufacturers of different machines and all had recommended the idea of starting a local company. Mr. Hyndman thought the Government would refuse a subsidy to the project. After some further discussion the meeting adjourned to meet again at the call of the president.

ADVERTISING THE SILVER BLACK FOX ON P.E. ISLAND

Continued from Page Four

When in Honolulu I was told that the Hawaiian Islands could produce double the amount of pineapples the world could consume and yet by cooperative sales management and cooperative advertising, the market is held stable and profitable and they advertise the pineapples so extensively—just Hawaiian pineapples—that the average consumer asks for Hawaiian pineapples though I have seen in Cuba, the Philippines and other countries pineapples that looked as good to me as those grown in Hawaii, yet I invariably call for the latter when ordering pineapples.

I know there is more money wasted in advertising than there is made by judicious advertising. It is made by big, in fact, advertising has made many an article a household word until the reputation and trademark, made known by advertising, is worth more in dollars and cents than the whole factory and stock of goods themselves, even when the last named asset runs up into the millions of dollars.

Money wasted in advertising we see the country over, such as advertising snow shovels and skates in the Philippines where they never have ice or snow or white duck suits for Alaska. On the other hand, every fox farmer would be financially much better off by this general making known to prospective buyers of breeders that P. E. Island was headquarters for silver black foxes, and the most critical buyer could find from thousands of pairs just what he wanted and eventually the price would be settled, instead of varying as it does today on pairs of equal quality from \$1,000 to \$3,000, and the whole atmosphere would be clarified. I am, sir, etc.

EXTENSION OF TELEPHONE MONOPOLY

Sir.—It is currently rumored that the Telephone Company of Prince Edward Island intend to apply to the Legislature at the coming session for a further extension of the monopoly which has been in existence since 1885 and which expires in two years time.

Before any further monopoly is granted I trust the Legislature will make inquiries as to the workings of this Company, also who are the present shareholders and the means adopted in 1910 to squeeze out the Island stockholders.

I am, Sir, etc.

DUCHESS OF CONNAUGHT'S CONDITION SERIOUS

(Special to the Guardian.) LONDON, March 12.—A bulletin issued this morning says the Duchess of Connaught passed a restless night. The attack of broncho-pneumonia persists and the heart action is weaker, complications incidental to her severe illness of four years ago having supervened.

(Special to the Guardian.) OTTAWA, March 12.—Reported establishment of extensive shipbuilding in Canada is officially confirmed.

MRS. JOSEPH FERGUSON.

The death took place yesterday morning, of Mrs. Isabella Ferguson, wife of Mr. Joseph Ferguson, engineer, at her late residence, Prince St. Mrs. Ferguson had been suffering from a distressing ailment for some time and had been under treatment in the P. E. Island Hospital for several weeks. She recovered somewhat and as her sister, Mrs. Lindsay, of Los Angeles, had come to Charlottetown, she returned to her home, the intention being that she should proceed, accompanied by her sister, to Montreal, for special treatment, and thence to California for rest and recuperation. She had a sudden relapse however, on Sunday night, and passed away yesterday morning. Her demise is particularly tragic, as her husband is at present in hospital undergoing medical treatment. Mrs. Ferguson is survived besides her husband, by two sons, and her sister above mentioned. The funeral takes place this afternoon at 3 o'clock to the People's Cemetery.

(Special to the Guardian.) NEW YORK, March 10.—The Associated Press tonight sends out the following: The British advance in Mesopotamia which has covered more ground in a short period than almost any other movement of the war has been assisted materially by extensive defections of the native tribes from Turkish rule, according to private mail advices received from Asiatic Turkey. Last month the Turks apparently were entrenched securely on the Tigris below Kut-el-Amara where they had held the British since the capture of General Townshend's army at Kut. The new offensive on the Tigris has developed with such speed that since the recent capture of Kut, on February 28, the British have advanced nearly 100 miles, and are now within a few miles of Bagdad. This has been made possible, it is now reported, by the fact that the Turkish troops are menaced not only by the British but by strong forces of Arabs, organized by the British as their Allies, who are harassing the fleeing Turks. A communication from Iraq states that as a result of the action of the Grand Sheriff of several months ago, in declaring independence of Ottoman rule, various Bedouin tribes have put away their enmities and united. Peace has been made

between the Emir Arab or Rowfeh, from near Damascus, and Hakim Ibn Mahid Hakim, Emir of the great Anzai tribe, in the vicinity of Aleppo. These two powerful men have covenanted to unite in assembling for one thing, a troop of horsemen to fight the Turks, and have issued a proclamation to their followers calling for men and equipment. In preparation for actual warfare they were supplied with drill-masters, presumably by the British who effected the organization of an Arab fighting unit. They are provided with a great quantity of arms and ammunition of the latest type. Their marching orders are sent from a convenient central base "somewhere in Mesopotamia."

The importance of the union of the two powerful Anzai and Shamir tribes is in the fact that they number not fewer than 4,000,000 souls. This covenant or peace means the union of two tribes which have been bitter enemies for hundreds of years. Now the Emirs are studying modern warfare together that they may rid their land of Turkish rule.

It is also stated that the great and powerful Sheikh Khazal Khan has sent a deputation to the Sheriff-Suleiman I., King of Hejaz—announcing his co-operation and submission as well as his readiness to respond to a call for men and money. It is believed that an offensive and defensive treaty has been made between him and the Emir of Kuwait, Sheikh, Jabir, Ibn Marak BE Subah. If this report is true it means that other important tribes will rally to this movement, inaugurated by these two really powerful men.

Child Was Nervous Irritable, Tired Out

SHE HAD NO APPETITE, AND HER COMPLEXION WAS PALE AND SALLOW

How many parents realize the strain which going to school means to the child who is naturally nervous and of delicate health?

You see them come from the schools daily with pale faces, many wearing glasses, and looking tired and worn. At home they are irritable, do not sleep well at nights, and are upset by a little extra excitement. If they are to grow to healthy manhood and womanhood their systems must have attention now. Such treatment as Dr. Chase's Nerve Food does wonders for children in this condition. We are constantly receiving letters from grateful parents telling what the Nerve Food has done for their children. This one is a fair sample. Mrs. Stephen Hartman, Italy Cross Lunenburg Co., N. S., writes: "My little sister at eleven years of age became nervous, irritable and seemed all tired out. She had no appetite

was lifeless and drowsy and her complexion grew pale and sallow. Finally she had to keep her bed and have somebody with her all the time. She was afraid of everything, would get excited and tremble till the bed would shake. As she seemed to be getting worse under the doctor's treatment, mother decided to try Dr. Chase's Nerve Food. After she had used about four boxes, improvement was noticeable and it was wonderful to see how much brighter and stronger she grew week by week. She used ten boxes altogether and they cured her. She got fat and rosy and went to school every day with an ambition that she never seemed to have before. I do not hesitate to recommend Dr. Chase's Nerve Food to anyone, for it was indeed wonderful what it did for her."
