ABLE REVIEW BY HON. A. F. ARSENAULT

Criticisms of Opposition Leader Effectively Answered by Able Member from Summerside, who deals with Agriculture, Fisheries, Public Works and Other Matters in Debate on Draft Address.

Following Premier Stewart in the debate on the Draft Address in the Legislature Wednesday, March 15th, Hon. A. F. Arsenault warmly congratulated the mover and seconder of the resolution...

Patriotism in Schools We hope, too, to celebrate Canada's Diamond Jubilee in a manner befitting the "Cradle of Confederation..."

Encouragement has also been given to the School Fairs, these institutions are perhaps the most important that the farmers have...

Attention has been given to Night Schools and the short courses are meeting with gratifying success. Great encouragement to fruit growing is another activity...

People Satisfied. We are also glad to note (continued Mr. Arsenault) that in the last two or three years conditions in this Province have been very much ameliorated...

The Leader of the Opposition had asked to be shown one thing that this Government as done for the people. Surely he must have a very small conception of the many things that transpired during the last three years...

Mr. Arsenault took up the criticism of the Leader of the Opposition that the \$40,000 received from the Railway Commission in lieu of taxes was obtained without any effort on the part of the Provincial Government...

When You Catch Cold Rub On Musterole

Musterole is easy to apply and works right away. It may prevent a cold from turning into "flu" or pneumonia. It does all the good work of grandmother's mustard plaster.

Musterole is a clean, white ointment, made of oil of mustard and other home simples. It is recommended by many doctors and nurses...

My hon. friend was strong in comparisons. I will now give him a comparison to think over. You remember in 1923, when the question of presenting these claims to Ottawa was discussed here, Premier Bell got up on his feet and said: "I have done something..."

But Mr. Bell said something more. He said: "I have gone as far as I was able to go. I have received no assistance from the legal minds of my side of the House..."

The Premier has read to us the correspondence which shows what efforts he made to secure the money from the Railway Commission. It was not, as the Leader of the Opposition would like to suggest, just a matter of saying, "Send us a cheque..."

Continuing, Mr. Arsenault outlined the steps taken to secure the \$40,000 grant, and explained the generous treatment of Premiers Exalté and Rhodes in giving us more than our actual share on a mileage basis...

Mr. Arsenault went on to deal with other criticisms of the Leader of the Opposition; he rather because the Premier was acting as Minister. But we know that members of the legal profession are more in contact with farmers than possibly any other professional men...

Nujol method is modern treatment for Constipation... said physicians

THE daily use of laxatives for constipation is or. Eight doctors out of ten now recognize that the Nujol type of treatment is better from every point of view than laxatives and cathartics.

bring on the laxative habit and do not remove the cause. Doctors Advise Nujol Eight doctors out of every ten told us they were advising the Nujol type of treatment for their patients in place of laxatives—and for these reasons:

- 1. Nujol is not habit-forming. 2. A more natural method. 3. A lubricant is better than a laxative. 4. Does not grip. 5. Is not irritating. 6. Nujol gives lasting relief.

Unlike Laxatives Laxatives and cathartics act by irritating the intestinal tract. They cause the bowels to frantically expel the contents of the intestines and thus rid the system of the drugs that pills and poisons contain.

Nujol appeals to the medical man because it is a simple, scientific and safe remedy for constipation, no matter how severe the case may be. It is gentle in its action and pleasant to take. Children love it!

Get a bottle of Nujol from your druggist today. Doctors advise it for constipation, whether chronic or temporary. Avoid substitutes.

Education. The Leader of the Opposition has also criticized us for having as consulting engineer and superintendent of Education, Mr. Shaw; that he must make a plea of some sort to the Education Department. Such a statement to make? Does it follow necessarily because we have a superintendent who has a first-rate knowledge of engineering that he is going to mix the two subjects and make a failure?

Alabastine

BY THIS SIMPLE METHOD

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body go quickly by a simple method that just dissolves them. To do this get about two ounces of peroxide powder from your druggist—sprinkle a little on a hot wet cloth—rub over the blackheads briskly for a few seconds—and wash off. You'll wonder where the blackheads have gone. Pinching and squeezing blackheads only open the pores of the skin and leave them large and dirty while the simple application of peroxide powder and the water dissolve them right out, leaving the skin clean and the pores in their natural condition.
