

Heart Palpitated.

Faint and dizzy spells.
Feet weak and nervous.
Could scarcely eat.

**MILBURN'S
HEART and NERVE
PILLS**

Cured Mrs. Edmond Brown, Inwood, Ont., when she had almost given up hope of ever getting well again.

She writes: "I was so run down that I was not able to do my work, was short of breath, had a sour stomach every night and could scarcely eat. My heart palpitated, I had faint and dizzy spells and felt weak and nervous all the time. My husband got me a box of Milburn's Heart and Nerve Pills but I told him it was no use, that I had given up hope of ever being cured. He however persuaded me to take them and before I had used half the box I began to feel better. Two boxes made a new woman of me and I have been well and have been able to do my work ever since."

Milburn's Heart and Nerve Pills are 50 cts. box, or 3 for \$1.25, all dealers or **THE T. MILBURN CO., Ltd.**, Toronto, Ont.

THE MORNING GUARDIAN

MONDAY, MAY 4, 1903.

A GENERAL ELECTION,

The Opposition newspapers are repeating the rumor that Parliament will be dissolved after the termination of the current session. There are some reasons to doubt this, while at the same time there are other reasons which might go to give to the rumor some show of probability. The reasons why no dissolution need be expected are briefly that the present Parliament is now in but its third session and members who have so much trouble to secure an election naturally desire to sit out the full term and draw their five sessional indemnities; that the country is prosperous, the party in power apparently firmly seated, and there are no disturbing questions of a national character which seem to call for an appeal to the people at this juncture. Moreover, with the single exception of 1874 there has been no dissolution until after the Parliament had continued for at least four sessions, and in that case there were special reasons of an extraordinary character for the course taken.

The election of 1874 followed the accession of the Liberal party to power after the Pacific Scandal revelations, and was abundantly justified by the facts disclosed during that remarkable episode. There

THE AGONIZING PAINS OF RHEUMATISM.

Swollen, aching joints, muscles are stiff and sore every movement accompanied by pain. The most potent remedy is Polson's Nerviline, which has five times the pain-subduing power of any other preparation. Apply the Nerviline copiously, rub it on well and then bind in a hot flannel bandage. This will cure the worst cases in a short time. Try Nerviline for Rheumatism, Neuralgia, Sciatica or Lumbago—it's all right and only costs a quarter.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

is nothing similar in the present situation. Governments naturally desire to go to the country in prosperous times, and if there were at present any clear intimation that a period of commercial depression is near, it might afford a reason for a dissolution. But in that regard the sky is almost cloudless. We must therefore seek for other reasons than those above, referred to if we are to conclude that the Laurier Government are seriously contemplating an appeal to the people in what is approximately the middle of a regular parliamentary term.

One such reason is to be found in the fact that the census has called for a redistribution of more than ordinary magnitude in the representation of the several Provinces. The great west which stands to have its representation quite largely increased in the first new Parliament hereafter to be elected, will no doubt desire to realise their advantage as speedily as possible. And it has been held both in Britain and Canada that an extensive alteration in either the distribution of seats or of the voting franchise, ought to be followed by an appeal to the country. On this ground a dissolution might be justified, should the Government so decide. Federal elections followed the redistributions of 1872 and 1882. But on the other hand the general election of 1891 was held just on the eve of taking the census of that year. So there are Canadian precedents of a quite contradictory character. And it is to be noted that if Manitoba, the Territories and British Columbia should now call for an election because of the new representation they would gain, Ontario and the Maritime Provinces could hardly be expected to be in haste to lose the members which the redistribution bill will take away from them.

The probably deciding factor in the case lies within the Cabinet itself. The Premier's health is admittedly not so robust as his friends would desire. The Secretary of State is now far advanced in years; Sir Richard Cartwright is a martyr to rheumatism. These facts together with the recent withdrawal of Mr. Tarte, who seems drifting into opposition, all point to a somewhat extensive reconstruction of the Cabinet in the near future. And it might be thought desirable on many grounds that before it shall take place the party shall appeal to the country with an unbroken front. It would be easy to amplify these considerations and to find in them stronger grounds than exist elsewhere for giving some credence to the rumor of an election next fall. Most Liberals would feel that the Government might this year reasonably hope to carry the country, and this done, and with some strong new blood infused into the party a radical reconstruction of the Cabinet would be comparatively easy, and, at the beginning of a parliamentary term comparatively safe.

PILLS KILLED HER.

St. John, April 30.—The two-year-old child of Theodore Vandward, North End, swallowed four sugar coated pills this afternoon and soon after died in convulsions. The father is an electrician, now in the employ of the Reid Company in Newfoundland.

W. H. CALVERT, M. P., ILL.

OTTAWA, April 30.—W. H. Calvert, M. P., West Middlesex, and chief government whip, is ill at the Russell House, and his physicians have ordered that nobody is to be allowed to see him.

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—
