

ANY DYSPEPTIC CAN GET WELL

By Taking "Fruit-a-tives" Says Capt. Swan

Life is very miserable to those who suffer with Indigestion, Dyspepsia, Sour Stomach and Biliousness. This letter from Captain Swan (one of the best known skippers on the Great Lakes) tells how to get quick relief from Stomach Trouble.

POAR BURWELL, Ont., May 8th, 1913.

"A man has a poor chance of living and enjoying life when he cannot eat. That was what was wrong with me. Loss of appetite and indigestion was brought on by Constipation. I have had trouble with these diseases for years. I lost a great deal of flesh and suffered constantly. For the last couple of years, I have taken "Fruit-a-tives" and have been so pleased with the results that I have recommended them on many occasions to friends and acquaintances. I am sure that "Fruit-a-tives" have helped me greatly. By following the diet rules and taking "Fruit-a-tives" according to directions, any person with Dyspepsia will get benefit."

H. SWAN

"Fruit-a-tives" are sold by all dealers at 50c. a box 6 for \$2.50, or trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

"Now is the time to think about setting your fishing tackle. Get it here. Ours is the strong, light, well-made kind that all the expert anglers use. They are better but they don't cost any more than the ordinary kind. The Two Macs, 149 Great George Street.

PRESIDENT WILSON AT NEW YORK TO REVIEW ATLANTIC FLEET.

NEW YORK, May 17.—President Wilson, on board the naval yacht Mayflower, reached New York from Washington shortly before 11 o'clock tonight, when the Mayflower, escorted by a gunboat, passed in Sandy Hook.

Before the president's arrival arrangements had been completed for the event which brought him here, the review of the Atlantic fleet tomorrow and Tuesday and which promised to be one of the greatest naval spectacles ever held in the United States.

BIG RUSH TO BOOK PASSAGES TO ENGLAND

NEW YORK, May 14.—Seventy-six cabin passengers and 300 in the steerage were booked to sail for Liverpool today on board the White Star Line steamship Cymric. Among the cabin passengers were twenty-six women and seven children, while forty per cent. of those in the steerage were women or children. At the offices of the line it was said that the Cymric carried as many passengers as she could accommodate. There had been a few cancellations of passages but these were "quickly taken by other persons on the waiting list." In the Cymric's cargo was a large consignment of automobile trucks.

Agents of Italian steamship lines here announced that instructions had been received by them to refuse passage to women or children of German, Austrian or Turkish birth. Men of those nationalities already had been excluded.

Officials of the American Line have refused a demand by members of the crew of the steamship St. Louis for \$20 extra pay for the trip to Liverpool on which the steamer is to start tomorrow.

The officials declared that the risk to the St. Louis of being torpedoed by a German submarine is very small as the ships of that line have carried no contraband since the beginning of the war.

MILLING PROFITS RISE.

LONDON, May 15.—The report of Spillers and Bayers, recently issued, says the Times, is a distinctly cheery document to the shareholders. The profits have increased from £89,000 to £368,000, the distribution to shareholders is raised from 15 per cent. to 20 per cent., but the bulk of the extra profits, £150,000, is placed to reserves while the amount carried forward is nearly £109,000 larger at £258,112.

But in making comparisons with 1913 is should not be forgotten that that year was a difficult period for the milling trade in this country. The profits of the company were £46,000 less than in 1912, and in order to maintain the dividend, the undivided profits were encroached upon to the extent of £15,000.

The company is one of the leading flour milling concerns in the country, and its profits have, no doubt, been expanded by increased prices obtained for foodstuffs and by the operations of its subsidiary and allied companies. Recently also the company has gone into the insurance business, so that profits which in the past have gone to outside institutions have been retained by the company. It is proposed to increase the capital by £250,000, and it is hoped to offer the new shares to the shareholders toward the end of next month.

SUGAR PROFITS HIGHER.

NEW YORK, May 15.—The American Beet Sugar Company's gross sales in the year ended March 31, amounted to \$8,204,423, a gain of \$220,727 over the record of 1914. Expenses were reduced by \$68,824, and net income in consequence of these changes was considerably better than twice the revenue of the preceding period. The total was \$1,601,642, as compared with \$544,104. After paying \$300,000 in preferred stock dividends and reserving \$1,766,988 for depreciation and additions, a surplus of \$1,124,654 remained, against \$152,975 the year before.

"The rapid and phenomenal advance in price during August and September," says the pamphlet report, "was due primarily to England rushing in to the cane markets, regardless of price, to secure a supply, which customarily is taken from the Continent, the importation of Great Britain annually being about 1,200,000 tons of European beet and 400,000 of cane.

"The price of refined sugar (New York basis) jumped from \$4.20 for 100 pounds (the average June and July basis) to the high point of \$7.50 a hundred in the early days of August, and it maintained an average of \$6.34 throughout 1914. Since that time to March 1, 1915, the average price has been \$5.75 per 100 lbs."

CANADIAN CAVALRY HORSES ARE BEING SENT FORWARD.

OTTAWA, May 17.—While it is quite probable that the cavalry regiments now training throughout Canada will go to the front to fight as infantry no orders have yet been received to discontinue the sending forward of horses. In this connection it is pointed out that while many British cavalry regiments fought all winter in the trenches their mounts are in force. The Strathcona Horse, Royal Canadian Dragoons, and King Edward Horse, which recently left England to fight as infantry, took their horses with them. It is altogether likely that a similar plan will be followed in regard to Canadian mounted infantry regiments should they be utilized as infantry.

While there is little opportunity for the mounted wing of the army to do effective work on the western front at the present time, a break in the German lines at any point compelling a general or partial retreat, would at once change the situation, and the cavalry would at once be required to pursue and harry the enemy. For that reason, every cavalry regiment which goes forward, is likely to be accomplished by its compliment of horses.

WHO WOULD DARE.

"We want no hearsay testimony," said the judge severely. "We must have evidence which no one dares to dispute."

"That's what I'm giving you," said the witness. "My mother-in-law told me this."

Always Cane Sugar

Lantic Granulated is pure cane sugar—no beets—no substitutes! Made in a new Refinery by new and improved methods—packed by automatic machines in original packages.

Lantic Granulated is perfect for cooking and preserving. Sold in 2 lb. and 5 lb. sealed cartons, also in 10 lb., 20 lb. and 100 lb. bags. Weight guaranteed.

NEW RUSSIAN LOAN \$500,000,000.

PETROGRAD, May 12.—A Governmental announcement made public today instructs the Ministry of Finance to issue a second internal loan of \$500,000,000.

CALLS AMERICANS WHO DIED "SNOBS"

BERNE, May 15.—The German press propagandists continue to fill the newspapers with reports justifying the sinking of the Lusitania. The "Berne Tageblatt," says:

"It was positively revolting to hear how certain American snobs seized with delight this opportunity of exceptional titillation of nerves, and set sail on the Lusitania to enjoy for a few days the nervous excitement of danger. They have all but very slight claim on our pity. There were enough neutral steamers at their disposal which, however, would not have afforded them as much sensation."

STRANGE STORY FROM NORTHPORT.

MONCTON, May 17.—Readers will recall vague, but alarming reports, which reached this city shortly after the outbreak of the war, in regard to the activities of an alleged German spy who was reported to be acting in a suspicious manner near the little village of Northport, a place in Cumberland Co., N. S., on the shores of Northumberland Strait, where he had purchased a small strip of land.

The story has been again revived by rumors of an interesting nature which reached Moncton today. According to these reports, the man was in the habit of making frequent trips to Halifax, and on his last visit to the garrison town he was arrested by the military authorities who found on his person documents tending to confirm the suspicions of espionage.

ALIEN ENEMIES ARRESTED IN MONCTON.

MONCTON, May 17.—Twelve Austrians and Germans, who have been coming into Moncton by twos and threes for some days past, were this afternoon rounded up by the city police and placed under guard, pending a decision as to what is to be done with them. They last came from St. John and all have registry cards from Chief Simpson and Captain L. W. Peters, who are in charge of all alien enemies in that part of the provinces. The men have violated the registry law by failing to report themselves to the proper authorities here as per agreement at time of registry. They will be held until the military council has considered their cases. The surveillance of foreigners has been sharper than ever since the "Lusitania" outrage.

AIRSHIPS FOR ARTIC RESCUE

The Aero Club of America has officially endorsed the suggestion to send an aeroplane fleet to the rescue of Stefansson, the explorer, who, with several Arctic regions. It is proposed to fit out a suitable boat which will locate at a point in the Alaskan waters, and from which base daily trips by aeroplane will be made. In the course of the month which would be available for work of this kind, a thorough exploration of the whole area within which the Stefansson party should be made and the members rescued, if yet alive. The project has been endorsed by several Arctic explorers, who seem to think that it is feasible, and the air experts are very keen to make this test of the aeroplane. The cost of the expedition is estimated at \$100,000, and an effort will be made to raise this amount, a large part of which has been pledged continually.

DID NOT ACCOMPLISH MUCH

From the Toronto Daily Star

With all its plans laid for a campaign which would make Germany master of Europe, we find that Germany has succeeded in occupying the territory of a little, inoffensive neutral country, of a small part of France, and of a part of Russian Poland. This was all it could do while it was at the height of its power, and could take full advantage of its state of complete preparation against countries that were comparatively unprepared.

Wasting Light

Mrs. Bacon—This paper says distinct traces of light have been detected in the ocean at depths of more than 3,000 feet by an English oceanographical expedition.

Mr. Bacon—Perhaps some of those mermaids forgot to turn off the gas.

HARRY THAW WINS TRIAL BY JURY.

NEW YORK, May 17.—The appellate division of the Supreme Court decided yesterday that it would not interfere with the plan to have Harry K. Thaw's mental status placed before a jury for determination. The court dismissed the prohibitory writ which, if sustained, would have enjoined the Supreme Court from submitting the case to a jury next Monday.

TELLS OF SEEING GERMANS BAYONET THE WOUNDED

ST. THOMAS, May 16.—Private Geo. B. Johnson, of the 1st Battalion, who was wounded at Langemark, having his shoulder shattered while helping a comrade and who is now in University College Hospital, at London, in a letter to his parents said he saw Germans bayonet the Canadian wounded on the battlefield, but adds that the Germans themselves ran, when it looked as if they would get a taste of the bayonet. Private Johnson lost everything in the battle, even to his shoes and hat, but managed to bring a Prussian helmet, which he is sending home.

GRASS-GREEN FOR GERMANS

THE HAGUE, (via London), May 15.—The German troops will be clothed in grass-green uniforms during the summer months, according to private information received here from Ghem, where a large factory is said to be working day and night making the new clothing. Field grey will be the color worn again in next winter's campaign, for which the Germans are making great preparations, according to the stories of people arriving in Holland. The German War Department, it is asserted has ordered many kinds of new materials, including medical stores, and trenching tools sufficient to last until the end of December. The original belief of Berlin, it is asserted, was that the campaign would be concluded at the latest in August of this year.

ON THE WRONG TRACK

A good many years ago, says the National Magazine, a steamer was sailing down a certain river, which a shrewd old Yankee captain in command. Suddenly the engines stopped, and the steamer remained motionless for several minutes. The passengers began to talk among themselves, and one of them, a portly, pompous person advanced to the captain. What seems to be the trouble, captain? he inquired. "Why have we stopped?" "Too much fog," answered the captain curtly. "But I can see the stars overhead quite plainly," argued the persistent individual. "Mebbe ye can," admitted the captain grimly, "but unless the bilers bust we ain't going that way."

This School Girl Had Bad Fainting Spells

WAS WEAK AND RUN DOWN, BUT DR. CHASE'S NERVE FOOD MADE COMPLETE CURE.

The most critical time in a girl's life comes during the school years, when she is impelled by rivalry to put forth her best efforts in studying for examinations. At the time she should have healthful and outdoor exercise and abundance of fresh air, to keep the blood pure and rich, she is confined by her studies. Is it any wonder that she becomes run down in health and suffers from headaches, indigestion, loss of appetite and spells of weakness or fainting?

The case described in this letter is a good illustration, and you can read here the splendid results of using Dr. Chase's Nerve Food to help through this critical period.

Mrs. H. Houston, Highland Grove, Ont., writes:

"While attending school my daughter became weak and very much run down. She was frequently troubled with bad fainting spells, and nothing we tried seemed to do her any good. We were advised to try Dr. Chase's Nerve Food, and did so with most satisfactory results. I am pleased to tell you that after using five boxes of the Nerve Food she was completely cured, and has no return of the fainting spells."

This statement is certified to by Mr. Hamilton Houston, Justice of the Peace.

The reason Dr. Chase's Nerve Food is so effective in cases of this kind is because of its extraordinary blood-forming influence. By creating an abundance of rich, red blood, it strengthens the action of the heart, revitalizes the exhausted nerves and builds up the system in every way. The appetite is restored, digestion improves, you rest and sleep well, and the new vigor and energy is felt in every organ of the human body.

Dr. Chase's Nerve Food is doing wonders for men, women and children and children whose systems have become weak and run down. 50 cents a box, 6 for \$2.50, all dealers or Edmanston, Bates & Co., Limited, Toronto.

Shall the MIGHT of the German Millions trample RIGHT underfoot?

Shall the Handful of Prussian Militarists who have already trampled the people of the German Empire underfoot Dominate the World at a Crisis Like This?

TEN PLAIN QUESTIONS to the People of PRINCE EDWARD ISLAND

1. If the lives of our Empire's finest manhood are not too precious to be spared in the campaign against Germany, is a Canadian Dollar too precious to be spared?
2. Do you consider that the "Wait and See Policy" is inspired by feelings of patriotism—or by the unqualified SELFISHNESS of men who, for their POCKET'S sake or for their APPETITE'S sake, refuse to contribute one dime from their abundance to the assistance and relief of our boys at the front?
3. We went to War with Germany because she said MIGHT WAS RIGHT, and trampled Belgium underfoot. DO YOU propose to allow the MIGHT of the German millions to trample Right underfoot? Do you propose to allow a handful of men who have militarism on the brain to dominate at a crisis like this—to jeopardise the destiny of the British Empire in order that their accumulation of gold shall go on undisturbed whilst millions of our best men are throwing their all into the balance?
4. Are you banking upon the good influence of the King's magnificent lead in voluntarily stopping intoxicants during the War to check the serious delay drink is causing in the manufacture of war material? Granting that his Majesty's noble example will be promptly followed by every loyal subject who has command of himself, do you seriously suggest that the money thus saved will be of any benefit, if you refuse to contribute what it represents to keep the boys at the front?
5. If the FULL STRENGTH of the Empire is imperative to crush German militarism, why do you hold back your contribution to the comfort and relief of the brave men who are sacrificing their all for you?
6. Do you seriously believe that you will reap any blessing by withholding that dollar or quarter which your conscience tells you owe to your Country now?
7. Which would present the greater difficulty, the rebuilding of the trade after the war, if suspended in the meantime, or the rebuilding of the British nation and the re-establishment of British prestige if our cause should be lost through your lack of promptness and generosity in contributing to the comfort and relief of the hungry and wounded soldiers in the battle line?
8. Is it possible that interested parties have led you to believe that the War will soon be over, notwithstanding the costly advertising for recruits, the registration of women workers, and the new appeals for every available man to help in the production of war material?
9. Since the best men among us have cheerfully sacrificed the comfort and security of their homes for the wretchedness and peril of the trenches—since mothers have given up their sons, and wives their husbands, can you seriously doubt for a moment that the country is READY to sacrifice of its means cheerfully in order that the Britons shall be free? When a War tax was levied it was paid without a murmur. Were we asked to walk barefooted in the roadway to help the boys in the trenches we would do it willingly and gladly. At what do you value your patriotism in hesitating when called upon to sacrifice a dollar for an Island Field Kitchen and Ambulance?
10. Are you aware that every little counts in carrying on a great War and that the sentiment behind a gift of this kind will be of infinitely more worth than the intrinsic value of the gift?
