The Wonderful Kenwood Blanket \$10.25

KENWOOD BLANKETS, perhaps the finest thing on the market in bed coverings, are made of purest wool, sound thick and bulky then lightly twisted. This produces a "lofty" fabric honey-combed with protective air cells and therefore warmer in proportion to weight. Take a pinch of the nap of a KENWOOD between your finger and thumb, it will support the entire weight of the blanket. Nap as firm as this does not wash away.

Kenwoods are used as ordinary blankets or as rugs or substitutes for down comforts. They are made in plain colors or cross bar patterns. The popular colors are tan and white, rose and white, and a three tone check of blue, white and rose. Plain Kenwoods are in tan, blue and rose, 72x84 inches Satin bound, each blanket \$10 25

MOORE & McLEOD LIMITED

AN ANCIENT PASTIME
Kite-flying, which seems to have become a lost art with the school-boy of to-day, was a human diversion before civilization was out of the cradle.
Even before the fourth century, B.C. kites were used. Perhaps they were flown first in connection with religious ceremonies—as they are flown by the Maori tribes to-day. Perhaps savages employed them in celebrating triumphs of various sorts. History is a little obscure on this point. But certainly the flying of kites as a pastime is one of the greatest diversions among Asiatic races to-day.
The flying of kites is still a national pastime with the Chinese, Japanese, Koreans and Indians.

—PATRIOTIC SERVICE —Armed Day was celebrated in Kensington with significant import. The pupils of the High School were assembled in the King George Hall under the direction of their teachers. Mr. James Profit, chairman of Trustees, presided. He introduced the event by some nicely appropriate remarks, after the pupils had spiritedly rendered the patriotic chorus, "O, Canada." Then an interval of two minutes was spent in silence in commemoration of the honored dead. A recitation was most acceptably given by Miss McArthur, which was followed by a Flag Drill, that displayed most skillful performance by the younger pupils. But the number that completely animated the audience was the eloquent and comprehensive oration delivered by Rev. Mr. Williamson. In matter and from the eloquent oration was most fittingly in harmony with the subject and the speaker demonstrated the importance that must be attributed to such an event. Kier Duggan and James Milburn both recited in a most pleasing manner, and Miss Bertha Thompson and the pupils rendered a recitation and chorus that were well received. Then the number, Recessional, was presented, followed by some very appropriate remarks by Principal Lowther. The whole celebration was a distinctly successful and much credit is reflected upon Principal Lowther and his staff for the merit that they shown in the event. It is an impressive object lesson for the pupils who are thus enabled to realize the salutary effect of true patriotism. Y.

Sir Henry's Strong Plea For Maritimes

(Special to The Guardian)
MOOSEJAW, Sask., Nov. 16.—An appeal to the people of western Canada to consider the problems of the Maritime ports and to assist in the solution of those problems was made by Sir Henry W. Thornton, chairman and president of the Canadian National Railways, in an address which he delivered here last evening to more than seven hundred business men of Saskatoon, Moosejaw and Regina, on the occasion of the celebration marking the opening of the new rail and highway bridge of the Canadian National railways over the south Saskatchewan river near Dunblane.

Sir Henry, who had followed the Lieutenant Governor and Premier Gardiner of Saskatchewan had been dealing with some of the present day major problems of the Dominion and more specially to the part which the ports of Canada were taking in the development of the trade and commerce of the Dominion when he introduced his appeal for consideration of the claims of the Maritimes.
"The ports of the Pacific are ours," he said "but remember also that the great ocean ports of Halifax and St. John are also Canadian, the problems of the Maritimes are your problems. It is unthinkable that there should occur anything which would divorce the Maritime Provinces and the ports of Halifax and St. John from Canada, these eastern ports provide the only outlet during the closed season of navigation that Canada has to the Atlantic, can you imagine the Dominion, Ont., for traces of Atlantic Canada being cut off from Robinson, wanted in connection with the shooting of Charles B. Poirer, one of these Atlantic Charles, the Madoc ballist. ports? From a military point of view and that of economic strategy these ports must remain Canadian a bill of seizure against the Maritimes and I say to you here and to the people of Canada that in the Dominion must make confederation a profitable existence for the brother and sister lived, the people of the Maritime Provinces, shots were fired, the ballist Posses of the Provincial Police are that he will recover.

"I Can Now Do My Work Without Feeling Tired"

Mrs. Thally, St. Paul, Alta., writes—
"For two years I suffered from pain in the back. For three months I could not walk. The doctor told me I had severe kidney trouble, and that it would take a long time to get better. I tried everything I could get, but was not improving. Then I saw Dr. Chase's Kidney-Liver Pills advertised in your Almanac. I tried one box, and they did me good, so I took six, and in less than a month I was feeling fine and could do my work."
