**Reasons For purchasing a Peintzman Piano.**

1st.—Mr. Peintzman and sons, all being practical piano makers, personally supervise the whole manufacturing.

2nd.—All the Scales are drawn and Patterns made by themselves personally.

3rd.—The Peintzman & Co. Pianos have always been awarded First Premiums wherever exhibited.

4th.—A majority of manufacturers and so-called "Associations" claim to make pianos "exactly like Peintzman," to have "Peintzman's Foreman" or best workman, etc., etc., showing conclusively that the Peintzman & Co.'s instruments are universally conceded to possess the highest degree of excellence.

5th.—Peintzman & Co., with their immense working capital, have at all times been able to command the choice of workmen, the employment of the most useful and costly machinery, the selection of lumber and its vast and essentially necessary accumulation for the thoroughly seasoning purposes. They use only first-class Ivory upon their keys, and none but the very best veneers, and only the very choicest and absolutely faultless materials.

6th.—The fact that the greatest caution should be exercised in the purchase of a piano, and that the established reputation of its maker should be as much relied upon as the apparent quality of the instrument and far more than its cost. A good and perfect piano is welcome as a home in every home and will remain a source of pleasure, while a poor instrument in the deplorable material, will, by continuing to get out of tune and order, soon become an intolerable nuisance, which, if purchased from an irresponsible water-carrier, is obtained only at a heavy sacrifice. Peintzman & Co. warrant each piano they sell, and their guarantee means just what it says.

### THE EDITOR'S MAIL.

Rev. Adam Gunn Speaks.

SIR,—Do not think but that you have the hearty sympathy of the religious community in denouncing the recent flagrant act of Sabbath desecration in order to accommodate or gratify a New York family. The common excuse made by those who have work done on the Lord's Day is that such work is a necessity. But what necessity there was for the present act of Sabbath desecration in running steamers, in conveying the party around the city in carriages, and sending a train with them to Summerside I fail to see. The family in question were not so poor but that they could bear the expense of accommodation in Plover over the Sabbath. They seemed in no hurry to get to their home. It looks like deliberate action to do dishonor to the Lord's Day without any excuse of either necessity or mercy.

Are there not two branches of the Lord's Day Alliance within our Province? Surely it is a time for them to speak. Have not our churches committees on Sabbath observance? For what do they exist? ADAM GUNN.

Cardigan, Oct. 9th, 1901.

## What Shall We Eat

To Keep Healthy and Strong? A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet, of grains, fruits,

and meats is undoubtedly the best, in spite of the claims made by vegetarians and food cranks generally. As compared with grains and vegetables, meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables or grains.

Dr. Julius Remuson on this subject says: Nervous persons, people run down in health and of low vitality should eat plenty of meat. If the digestion is too feeble at first it may be easily strengthened by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three or four hours, while the malt diastase also contained in Stuart's Tablets cause the perfect digestion of starchy foods, like potatoes, bread, etc., and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets because they supply the pepsin and diastase so necessary to perfect digestion and any form of indigestion and stomach trouble except cancer of the stomach will be overcome by their daily use.

That large class of people who will come under the head of nervous dyspeptics should eat plenty of meat and insure its complete digestion by the systematic use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, pepsines and diastase, which actually performs the work of digestion and give the abused stomach a chance to rest and furnish the body and brain with the necessary nutriment. Cheap cathartic medicines masquerading under the name of dyspepsia cures are useless for relief or cure of indigestion, because they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its forms is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the indigestion is to make daily use at meal time of a safe preparation which is endorsed by the medical profession and known to contain active digesting principles, and this can truly be said of Stuart's Dyspepsia Tablets. All druggists throughout the United States, Canada and Great Britain sell them at the uniform price of fifty cents for full treatment.
