Anent the recent victory of Michael Thomas the Sydney Post says:—Thomas hails from Prince Edward Island, is some runner. He first made a name for himself in the spring of 1909, winning several races in the island province and coming over to Truro to take a ten mile race. He invaded New Brunswick the same season and won a race at Campbellton on July 1st. Just about this time an industrious press agent for the Indian got busy. Papers were full of romantic stories of his running his heart out for the sake of winning the hand of the dusky daughter of the P. E. I. redskin chief. Whether or not Michael's legs are inspired by love, he certainly covered the ground in the Herald race and practically had the running to himself. He runs like Longtoat.
