SOURIS

Mr. Arthur D. Seaman, Alberton, spent a few days in Souris the past of relatives.

Recent motorists to Souris included Mr. and Mrs. F. E. Matheson, of Dundas.

Friends in Souris will regret to learn of the indisposition of Mr. A. E. Clarke, at the Prince Edward Island Hospital, Charlottetown.

Mr. Arthur McAllum, Souris, left recently for Charlottetown to take up a position in that city.

Mr. J. Wilfred Cheverie, of Souris, spent a day in Charlottetown this week on business.

The Department of Public Works Dredge No. 9, which has been working in Souris Harbour all summer has completed the Dredging and we understand will now go to Georgetown to work.

Mr. E. T. Higgs, of Charlottetown was a recent visitor here.

The many friends of Miss Margaret Hockin, of Souris, will regret to learn of her indisposition at the Pictou Hospital at Pictou, Nova Scotia, and join in wishing Miss Hockin a speedy recovery.

We understand that the first Potato Boat of the season will dock in Souris on Monday or Tuesday and will be here for a short time to load a part cargo. At the present time the farmers are actively engaged in the hauling of the potatoes to our Souris Frost Proof warehouse on the C. N. R. wharf. The most of the potatoes are being packed in barrels for shipment.

Mr. Arthur Bradley of the Tip Top Tailors at Toronto, paid a short visit to Souris this week.

Miss Catherine McLean, Junior Red Cross Organizer, Charlottetown, spent a few days in Souris this week in the interests of this work.

Mr. Ralph Dingwell, Charlottetown, passed through Souris this week enroute to the Eastern end of the Island.—G.

PLEASANT CIRCLE INSTITUTE The September meeting of Pleasant Circle Institute was held at the home of Mrs. Emmet Croken. Fourteen members and nine visitors were present. The President opened the meeting by singing "It's a Good Time to Get Acquainted." Roll call was answered with "Different Ways of Preparing Corn." Minutes of previous meeting were read and adopted. Two new members were welcomed. It was moved by Mrs. Emmet Croken, seconded by Mrs. Arthur MacKay that an annual grant of money be given to Sanatorium. School committee reported the need of two brushes for blackboard and new broom. It was de-

THE Y'S MEN'S CLUB are holding their annual Halloween dance Friday, Oct. 28th, at the Odd Fellows' Hall. 5745-10-11-21

NORTH RIVER GROUP of Baptist Churches. Services Sunday, Oct. 16th, will be held as follows: Long Creek at 11 a.m.; Clyde River at 3 p.m.; Kingston at 7 p.m. Rev. J. G. Wakeling, pastor.

LONG CREEK Church of England services will be conducted by Captain A. E. Wittig, C.A. on Sunday, Oct. 16th at 11 a. m. and 7 p. m., to which all are cordially welcome.

RUSTICO, St. Mark's Anglican Church, Harvest Thanksgiving and Holy Communion service, 3 p. m. Special preacher, Rev. H. D. Raymond, M.A., B.D. Curate-in-charge, Rev. E. O. Lancaster.

SUNDAY SERVICES, Oct. 16th: Milton, St. John's Anglican Church, Sunday School, 10 a. m., Morning Prayer and Harvest Thanksgiving service, 11 a. m., Evening Prayer and Harvest Thanksgiving service at 7.30 p. m. Curate-in-charge, Rev. E. O. Lancaster.

POLICE COURT—At the police court yesterday morning there were five drunk and incapable, two had their \$5 ball estrated, another two were given 20 and 14 days respectively and another had his \$6 ball estrated. For the unlawful possession of liquor an offender was fined \$200 or 4 months. Two cases of driving motor vehicles while intoxicated were heard. The accused in one case was given 7 days, while the other case was adjourned until Friday.

PERSONALS

Misses Marjorie L. Cox, R.N., and Margaret Burden, R.N., of this City left yesterday morning on a month's vacation in Barbadoes.

Miss Marion MacDonald, R. N., who has been spending a vacation for the past two months at the home of her father, Mr. D. M. MacDonald, Hunter River, returned recently to New York City to resume her duties. Enroute there she visited relatives in Somerville and adjacent cities.

ALBANY SCHOOL

Report of Albany School for the month of September:

- Grade X-1, Helena Keough; 2, Sutherland MacKay; 3, Audrey MacKay. Grade VIII-1, Jean Boulter; 2, Mary Tierney. Grade VII-1, Margaret Boulter; 2, Marjorie Donnelly; 3, Daniel Keough. Grade VI-1, Elma Large; 2, Joseph Kelly; 3, Fred Kelly. Grade V-1, Mildred Walker; 2, Eileen Walker; 3, Jean Keough. Grade IV-1, Ralph Dawson; 2, Eldred Boulter. Grade III-1, Kathleen Boulter; 2, Blanche MacDonald; 3, Verna MacDonald. Grade II-1, Mary Gamble; 2, Ruth Croken; 3, Vernon MacNeill. Grade I (a)-1, Florence Gamble; 2, Kathleen Kelly and Alice Bernard. Grade I (b)-1, Everett MacNeill. Grade I (c)-1, Gerald Kelly. Teacher—Ada M. MacDougal.

Making Steel Wire

Fifteen plants in Canada report a production of 221,631,292 pounds of steel wire in 1931. Much of that went into the manufacture of nails, screws, galvanized wire etc. in the same plants. The amount sold as steel wire was 42,556,818 pounds valued at \$1,446,997.

Galvanized wire was made to the amount of 62,579,211 pounds and 26,344,303 pounds sold at \$883,049. Other coated wire was produced to the amount of 8,090,749 pounds and 6,877,448 sold at \$305,960. The amount of barbed wire produced was 8,743,437 pounds, and 12,466,120 sold at \$376,291. Both quantities and values were considerably lower than in the four preceding years. There are 7 plants in Ontario, 5 in Quebec, and one each in British Columbia, Nova Scotia and New Brunswick.

Don't Submit to Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Trinity United Church

WEDNESDAY

3.30—Mission Band—Opening meeting of the season—All girls under 9 are eligible, and parents are asked to have them attend the weekly meetings of the Band—Social Hall.

7.30—Weekly prayer service—Visitors welcome—Hearth Memorial Hall.

Interprovincial Home For Young Women

The Rev. Peter A. Walker is in the city in the interest of The Interprovincial Home at Coverdale, near Moncton. He is Field Secretary of this Home which stands between the young woman who is over sixteen years of age and the common jail. He succeeds the late Rev. J. H. Cavers who carried on the work of Field Secretary for several years.

Asked about the relation of this institution to the Maritime Home for Girls in Truro Mr. Walker stated that the latter place now has no representative as its building program is complete. But each place is for all three Maritime Provinces. The Truro Home takes the wayward girl up to and including fifteen years of age and keeps her until she is twenty-one years of age. The Moncton Home takes the young woman sixteen years of age or over and must keep her for the time the court commits her—usually two years.

When asked about the technique used to turn social liabilities into social assets Mr. Walker stated that the personal influence of a very competent staff was the main thing. These young women are the under privileged who have had little or no opportunity to meet the quality of women who teach here and who use constructive discipline to bring about the good results The Interprovincial Home achieves. They are taught how to be useful women both in indoor and outdoor work and are given also handcraft teaching. And when the term of commitment is through they are found a place to work in a suitable home and correspondence is carried on with them. But when the term is done the Home has no more legal control over them.

Asked about the capacity, the reply was that until this year it was thirty one, but six more rooms are now being completed and this will exhaust the capacity of the place. There have been times when no more could be taken. Over sixty have been released since the building was erected about seven years ago. There is at times sent to the home a young woman too feeble minded to do anything for. But the home was not designed for feeble minded. These should be cared for elsewhere.

The Interprovincial Home is under the co-operative care of different denominations. The Provinces contribute towards the board of those sent there by its own courts and food is raised on the farm by the work of the young women who often get back health by such work. They also get the care of a doctor and dentist and a nurse is in the institution. But the agreement entered into with the Provinces was that the building should be erected by private gifts. It is the church doing work beneath this roof that cannot be done under the roof of any church building and it gives visibility to the interest the Christian Religion takes in those who have missed life's best way. And this work pays no matter what way it is looked at.

Extra Expenses Of Government

OTTAWA, Ont Oct 10—Unforeseen expenses of the Government provided for by Order-in-Council and covering the period from May to Oct. 1, 1932 totalled \$24,208, according to a return tabled in the House of Commons today by Hon. E. N. Rhodes, Minister of Finance. Included in the list were the following items: grant to the Canadian Olympic committee \$10,000; sterling silver candelabra presented to Sir Josiah Stemp \$2,000; grant to Hamilton district Trades and Labor Congress for the annual meeting of the Trades and Labor Congress of Canada \$500; Association of French speaking Doctors of North America \$2,000; City of Ottawa taxes on "Earnscliffe" home of Sir William Clarke, British High Commissioner to Canada and on French Legation \$4,443; Sir Josiah Stamp, noted British economist conducted an investigation into grain marketing in Canada for which he refused to accept any remuneration. Accordingly the Government presented him with the candelabra.

CURIOUS FACTS ABOUT OYSTERS

Investigations Into Oyster Culture In This Province Cited By Dr. Needler

Oysters in the shell belle their looks.

The shell is inert and, at a casual glance, not very interesting looking, but as a matter of fact there are many interesting points in the oysters' life story.

For instance, one reason why oysters are valuable in diet is because, in addition to containing vitamins, they are rich in iron in an assimilable form, and have copper, too, so that they are useful in preventing anaemia.

That's on the dietary side, and it is a bit of information worth keeping in mind.

It's worth keeping in mind, too, that oysters of excellent quality are produced both in British Columbia waters and on Canada's Atlantic coast.

But there are many interesting facts in the natural history side of the oysters' story.

For instance, in the course of investigations made in Prince Edward Island waters for the Dominion Department of Fisheries in the past two or three years it has been found that when the oysters are two years old about three out of four of them are males but "as they grow older the proportion of females increases until, among old oysters, three-quarters or more may produce eggs." The eggs, by the way, are only about 1-500 of an inch in diameter when spawned.

In a few hours after it is fertilized the egg develops into a small larva, which swims about by using tiny vibrating hairs upon its surface. Before long a shell grows over the larva, which can still swim slowly. After about three weeks the free-swimming period is ended and the oyster, now about 1-75th of an inch long, is ready to "settle" or, in other words, to cement itself to some suitable surface, such as a rock or a shell or a piece of brush.

Travelling Days Over

After that, the oyster can do no more moving. It cannot go about after the minute plants or animals upon which it fed when at the larval stage of life.

"For the rest of its life," to quote Dr. A. W. H. Needler, the Biological Board scientist who has carried on the Prince Edward Island investigations arranged by the department, "it obtains its food from the water which is made to flow through its shell by minute hairs beating rhythmically. It has an elaborate mechanism by which the solid particles are taken from the water; some are selected and taken into the mouth and the rest are rejected."

But the oysters do not feed all the year 'round, neither the young nor the mature. Canada's Atlantic coast oysters stop feeding when the temperature of the water is lower than about 41 degrees Fahrenheit. As the water is usually colder than this from November to April the oyster's growth is in the other six months of the year. They usually take from three to five growing seasons after their first winter to reach "marketable size," which is a size of three and a half inches for those of round shape and four inches in the case of the "long" fellows.

Shaped by Environment

Nor is it by chance that one oyster is of rounded shape and another is not. The shape of an oyster, as Dr. Needler explains, is influenced by the conditions under which it grows. "If growing on soft bottom where it sinks slowly, or if growing in a place where silt is settling, the oyster, being unable to move, must grow long to keep the lips of its shell above the mud. On soft bottom an oyster tends to be long and narrow and its shape is rounded on hard, clean bottom. "Under conditions which favor rapid growth it appears that the oyster grows flatter and has the edges of its shell less curved, the most 'cupped' oysters being found where the growth is slow. Oysters of the most valuable shape, i. e., most nearly round, with strong, cupped shells—are produced where they grow singly on hard, clean bottoms where the water is relatively cool and salt."

Year's Output

The oysters found on the Dominion's Atlantic coast is the species known scientifically as Ostrea virginica.

virginica. In British Columbia there are three species—the Native, and two varieties introduced originally by means of seed oysters, the Japanese, and the Eastern. All told, more than 24,300 barrels of these tasty shellfish were marketed from the Dominion's fisheries last year. New Brunswick produced some 13,400 barrels of the total, Prince Edward Island over 5,300 barrels, British Columbia 3,555 barrels, and Nova Scotia more than 2,000 barrels.

O'Leary and Vicinity

The new cement bridge at McKinnon's Brook, Hebron, Lot 8, has been completed, and is a creditable structure. Incidentally the first car to pass over this new bridge was a Whippet Super 6, bearing a Massachusetts license, driven by Mr. Clarence Shea, of Beverly, Mass. He, with his wife and little son Joseph, are visiting friends on the Island. They motored from Tignish on Oct. 2 and were the guests of Mrs. Margaret McKinnon, Hebron, an aunt of Mrs. Shea. They were accompanied by Mr. Shea's parents, of Tignish. They have also been visiting friends and relatives in Grand River, Lot 14.

A large number of children of O'Leary and Glenwood and surrounding districts were inoculated for diphtheria and quite a number were vaccinated at public health clinics held there on Oct. 7th, by Dr. J. B. Champlin, and Miss Leslie, R.N., Alberton, and Miss Dorothy McKenna, R.N., Public Health Nurses.

Mrs. J. N. Ladner and son Wilbur of Gardiner, Maine, arrived on Oct. 3, to attend the funeral of the former's sister, Mrs. Chaster Easter, O'Leary.

Mrs. Melvina Wedge has returned to Boston, after spending the summer months with her parents, Mr. and Mrs. F. D. Arsenault, Carleton, Lot 6.

Mr. Norman McWilliams, Carleton, is busily engaged in building a new bungalow, which he expects to occupy soon.

The J. F. Arnett prize, which was donated to the pupil from the Glenwood School Fair, winning the largest number of prizes at the Central Fair in Charlottetown, has been equally merited by Bessie Boulter, Dunblane, Jessie McPherson, Dunblane; Randall Boates and Lulu Boates, Montgomery, and drawn by Jessie McPherson.

Carleton School is progressing favorably under the skillful management of Mr. Dignan, teacher.

Mrs. F. P. Arsenault, Lot 6, attended the Egmont Bay Exhibition recently.

Mr. James Getson, Lot 6, is doing a wonderful business sawing lumber in his new plant, and has the good wishes of his many friends for his success.

Mrs. Lyman Caseley and son Wilbur, Cascumpee, were recent visitors at the home of Mr. and Mrs. H. B. Boates, West Point.

Miss Lulu Boates, West Point, is spending a very pleasant vaca-

Georgetown

tion visiting relatives in O'Leary and Tyne Valley.

Miss Flora Boulter, teacher of West Point, is spending her vacation at her home in Glenwood.—O.

Miss Mildred MacLaren, Charlottetown, spent her Thanksgiving holidays in Georgetown, the guest of her parents, Mr. and Mrs. E. B. MacLaren.

Dredge No. 9 is dredging at King's Wharf.

Rev. George MacDonald, Messrs. Leo MacDonald, Manuel Gallant, and Mr. and Mrs. E. J. H. Morrissey, Charlottetown, motored to Georgetown.

Miss Isobel Morrissey is visiting in Charlottetown, the guest of her brother, Mr. E. J. H. Morrissey, 22 Bayfield St.

Mr. and Mrs. Earl Walsh, Vernon, are warmly welcomed by their many friends in Georgetown to their new home in Burt Point, Georgetown.

Mr. Allan McCormack, who is attending St. Dunstan's University, Charlottetown, is spending his Thanksgiving holidays in Georgetown, the guest of his parents, Mr. and Mrs. John McCormack.

Mrs. Felix Morrison recently visited Kelly's Cross.

Mrs. Wilson, who has been the guest of her brother, Rev. O. Kiggins, left recently for her home in Cardigan.

Misses Susie and Mary Hemphill, Montague, spent the week end at their home in Georgetown.

Mrs. Frank MacDonald accompanied by her son Clarence and daughter Evelyn, Halifax, N.S., and Mrs. Clarence Harris, Summerside, motored to Georgetown last week.

Mr. and Mrs. Balderson, accompanied by Mrs. (Dr.) A. J. Fraser, Mrs. Westover and Miss Bessie Dillon, Montague, and Mr. Albert Fraser, motored to Georgetown recently.

Miss Rhoda Easton, Boston, is visiting in Georgetown, the guest of her parents, Mr. and Mrs. Easton.

and Miss Agnes Murnaghan, Charlottetown, motored to Georgetown.

Hon. Frank and Mrs. MacPhee, Charlottetown, recently visited Georgetown, the guests of Capt. and Mrs. MacPhee.

Mrs. Flora MacPhee accompanied by Miss F. McAulay, left Georgetown Monday to spend the winter in Providence, R.I.

Mr. and Mrs. Lester Gay and little son Eddy recently visited Georgetown, the guest of Mrs. Gay's mother, Mrs. MacLean.

Mr. Alf. Doucette, of the Queen Square School staff, motored to Georgetown recently.

Mr. and Mrs. Angus Weir, Charlottetown, were the guests of Mr. and Mrs. Donovan.

Mrs. Johnson, Georgetown, is visiting friends in Boughton Island.

Mr. William MacLean, De Grè Marsh, recently visited Georgetown.—A.

"MYSTERY FLIGHTS" POSSIBLE Adopting the idea of the "mystery trains" in this and other countries, a company at Esti Czechoslovakia, on the River Elbe has started a series of "mystery steamers," which offer tours at fixed prices to unknown destinations. These and the "mystery trains" of the State railways have been so successful that an airplane company is considering a series of fixed-price "flights into the blue."

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a tonic up for children that are run down in consequence.

Minard's prevents "Badminton-foot."
