URGES NEED OF SANATORIUM FOR PROVINCE

Address by Provincial Health Officer at Rotary Club Yesterday.

In an address before the Rotary Club yesterday the urgent need of a sanatorium for Prince Edward Island for the effective prevention and check of the spread of tuberculosis was strongly urged by Dr. P. A. Creelman, provincial health officer. Citing a number of cases which came under his observation the speaker said it was indeed unfortunate that in this Province there is no available hospital for this class of patients. It costs about \$1,000 a year per patient for treatment in sanatoria on the mainland, and it sometimes takes months to get Island patients into these institutions. As far back as the oldest citizens can recall, nobody has scaled the aforementioned heights. The gentleman referred to above is a former Charlottetown boy, and is a brother of Mrs. W. H. Scott of this city with whom he visited last summer.

THE INFLUENZA—Many exaggerated reports are in circulation regarding the epidemic of influenza throughout the Province. It is true the epidemic is general both in city and country, but the number of cases that have come to the attention of the doctors is comparatively small, indicating that the disease is of a mild type, really not any more severe, than in the majority of cases, of a cold. As in the case of colds prudence demands that proper precautions be taken against unnecessary exposure, and, if the condition warrants it, the safest course is to lie in bed until the symptoms have disappeared. There is nothing to be alarmed about.

THREE OBTAINED—On Sunday morning, December 23rd, All Saints Cathedral, Halifax, was the scene of an ordination service, when W. J. Jones, of Ship Harbour, and Rev. C. F. Johnson, in charge of Milton, P. E. I., were ordained to the priesthood and Mr. W. P. Phillips, of Alberton, P. E. I., was ordained to the diaconate. His Grace the Archbishop of Nova Scotia officiated. Matins were read by Canon Morris at 10 a. m. The Litany was sung by Dean Lloyd and Ven. Reverend Archdeacon Watson, preached the sermon. Rev. Mr. Jones and Mr. Phillips are graduates of St. Paul's College, England, while Rev. C. F. Johnson is a graduate of Wycliffe College, Toronto. Each returned to his respective parish on Wednesday.

Reference was made to the splendid work carried on during the past year in Prince Edward Island by the Red Cross Society and the Anglican Tuberculosis Association. During that time 881 cases were examined and there were 325 well-defined cases of tuberculosis. It is estimated that there are from 700 to 1000 cases on the Island. During the past summer Dr. Creelman held eighteen clinics and examined 250 cases. Early this year he plans starting clinics in Charlottetown, Summerside, Souris and other central places.

He then spoke of what the Women's Institutes were doing towards securing a sanatorium, and suggested the appointment of a committee to form an investigating board to determine what the cost of a sanatorium would be. His remarks on tuberculosis were preceded by a general review of health conditions in Canada. Last year, he pointed out, sickness cost Canada \$31,000,000, 93.4 per cent of which was borne by the individual and the balance by the state. \$6,000,000 was expended for the prevention of disease but a great part of this amount was wasted owing to lack of proper health organization.

Rotarian R. L. Cotton presided at yesterday's meeting. The musical programme included vocal solos by Mr. E. W. MacKinnon, who was accompanied. The president read the season's greetings from international and district officers and from the secretaries of various clubs.

Cross, has purchased Dingola from Mr. H. Wood of Red House.

Despite the fact that there is no snow we note that J. S. Francis & Sons are shipping sleighs to various parts of the Island as well as to the Magdalen Islands.

Mr. E. J. Campbell, general agent for "Better Farm Equipment" of Rolla, Mo. was a very pretty caller from the International Harvester Co. for distribution. The scene entitled "In Rural England" by Fred Hines, is charming and shows a typical rose-embowered cottage with a cobblestone walk leading to a sheetrock. In the distance is a shepherd boy herding his sheep. Beautiful breezes also add beauty to the picture. The colouring is delightful.

Mr. Wesley McKenzie, Bay Fortune, was a visitor to Souris recently.—B

A Remedy for Saraché—To have the saraché is to endure torture. The car is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

ST. MARY'S SUNDAY SCHOOL SERVICE AND TEA—In St. Mary's Church, Summerside, on the Feast of the Holy Innocents, December 28th, a service was held for the Sunday School children. The children assembled in the Parish Hall and marched in a body to the church, where Ven. Archdeacon C. de Wolfe White officiated and preached an appropriate sermon to the children. Mrs. (Dr.) Bell, formerly of Crapaud, very kindly played the organ for the special hymns for the day. After the service children with their teachers returned to the Hall, where a treat was in store for them. The hall was tastefully decorated with bolly from British Columbia, sent by Mrs. James, daughter of the late Mr. John Grady, in memory of her father, and other Christmas decorations, besides a Christmas tree laden with gifts and prizes for the children. Ven. Archdeacon White presided over the happy gathering and distributed the prizes to the children for their good work in the Sunday School during the year. Mr. Staver, Toronto, former Superintendent of the Sunday School, gave an excellent address. An ample treat was then provided and needless to say was very thoroughly enjoyed. Unfortunately quite a number of the children were unable to avail themselves of the treat through sickness.—S

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil, speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in favor, owing entirely to its manifold uses in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its records beyond reproach.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

UNCLE RAY'S CORNER

HAPPY NEW YEAR

So the old year has rolled behind us, and the New Year has come along! Do you feel very different? Probably not—you are only a day older than you were yesterday, not a year older.

You may even fancy that the ball is thrown aboard an ocean liner. Then it will have still another motion—the motion of the ship. The fact is that the earth has more than two motions, but I do not want to make you dizzy by speaking about the others now.

How far do you think the earth travels in a year? If I tell you, you must promise that you will not think your Uncle Ray is making a joke. Scientists have taken the greatest care to find out, and they have learned that a complete journey around the sun is about 800 million miles long!

Think of going that far between now and January 1, 1929! It is a mighty trip which costs nothing extra, and the ship on which you travel is a steady one—we do not feel any rocking, and the voyage does not make us seasick.

Let us make the best of the glorious adventure called Life, and let it do better in 1929 than we have done before.

SUDDEN DEATH—The sudden death of Harry Hibbet, which occurred at his home in San Francisco on December 23th, has been a shock to his many friends in Georgetown. Possessed of a kind and sympathetic disposition he endeared himself to all with whom he came in contact. In the home he was of a delightful personality and those who shared in the hospitality will not forget his graciousness of manner and charm. He was the eldest son of Conductor G. W. Hibbert of Georgetown. He left P. E. Island twenty-seven years ago. In the loss the immediate relatives have sustained their grief out of a feeling of deep sorrow to his wife and father. He leaves to mourn besides his sorrowing widow and father his step-mother, Mrs. G. W. Hibbet, also one half brother Charles and one half-sister, Mrs. J. A. B. McConnell, of Georgetown, and one uncle, Conductor John Macdonald, of Charlottetown, to whom the sympathy of the whole community is extended.
