

Wind in the Stomach

Indicates poor digestion, and the digestive organs require toning up by BURDOCK BLOOD BITTERS. The wind is caused by the fermentation of gas from imperfectly digested food or a faulty condition of the digestive organs, which, if neglected, must lead to stomach and blood troubles, such as indigestion, jaundice, biliousness, or bad blood. All these are common complaints which B.B.B. cures in any stage of the disease.

We now give you testimony from those who have used B.B.B.:

January 28, 1900.
"With gratitude I can testify to the wonderful curative powers of BURDOCK BLOOD BITTERS. Last summer I was troubled with indigestion so badly that whatever I ate caused me torture. Eating became a dread to me. I tried Doctors' medicine, but got no relief; then a friend recommended B.B.B. I got a bottle and after taking a few doses began to feel better. By the time I had taken two bottles I was as well as ever and have had no trouble in that way since."
MRS. MINNIE CADE, Arden, Ont.

April 5, 1900.
HANNAH MULLINS, Highland Grove, Ont., writes: "BURDOCK BLOOD BITTERS has done me more good than anything I have ever taken for my stomach. I could not eat, had pain in side and back and felt very miserable. I was run down to a shadow, but one bottle of B.B.B. made me feel perfectly well, and have not been troubled since."

CHINESE CHEAP LABOR.

The bill now before the Legislature to impose a special tax upon the Chinese laundrymen may serve to recall to some minds the occasion upon which Bret Harte and his partner suddenly concluded that they "were ruined by Chinese cheap labor," and "went for that heathen Chinese." There is a pretty general disposition to treat the Chinese with illiberal and un-Christian severity. We, as British subjects claim the right to go pretty much where we please about the world, even to China, and settle or enter upon business. We would resent any special discrimination against us on the ground of color, race or creed. But we forbid the Chinaman coming to Canada except after payment of a heavy head tax, and now it is proposed to place a special tax upon the Chinese laundrymen, such as is not imposed upon men of other nationalities, whether British or foreign engaged in the same calling.

Of course the objection is made that the Chinese are heathen, that they do not spend their money where they make it but deport all their gains to China, that they do not become citizens or subjects of the land in which they take up their abode, and that they can live on a mere fraction of what it takes to support a born Canadian. Moreover it is pointed out that if restrictions were not imposed, so many millions of Chinese would come to this and other countries of the white man that they would entirely overturn the existing order of things and destroy the means which laboring men have of earning a livelihood.

These arguments will have weight with many, but it is only fair to point out that so far but few Chinese have come to this Province, and their intrusion in very limited numbers has created very little disturbance in any walk of life. Those who have come have been industrious, peaceable, law-abiding citizens, and apparently about as honest as the Christian people among whom they live. Our inspired writings teach us that we must treat the stranger kindly and fairly, and the bill before the House might be thought not to be quite in that line. No doubt many measures quite as severe have been launched against the Chinese in various parts of America, but so far as we know this has only occurred in cases where the Celestials have thronged in much greater numbers, and where their presence has caused much more trouble than has yet happened here.

There ought to be some inspiration for poor boys of energy and character in the life of Andrew Carnegie. His father was a Scotch weaver. When big enough to

work the boy entered a cotton factory at \$1.25 per week. Then he took service as a telegraph messenger, and was in due time promoted to be an operator, and so on. Always industrious, economical and shrewd, he made his way onward and upward until he became a multi-millionaire, retiring from active business at 65 years of age, and has since been distributing his wealth, mainly for educational purposes, at the rate of a million dollars a month. He has given more for libraries and other means for promoting enlightenment than any man in any age of the world's history. He has no visionary ideas, but is intensely practical and utilitarian. He has no desire to abolish poverty. "We should," he declares, "be quite willing to abolish luxury, but to abolish honest industry and self-denying poverty, would be to destroy the soil upon which mankind produces the virtues which enable our race to reach a still higher civilization than it now possesses." His own life proves the truth of these words. And it also proves that men who win great fortunes give more freely than those who inherit them.

Our despatch published on Saturday relating the shooting affair in Amherst, was in error in stating that it was a son of Rev. G. W. Fisher who fired the shot. A later despatch says the young man is a son of Rev. J. M. Fisher of Lunenburg. We gladly make the correction, and the many friends of Rev. G. W. Fisher on the Island will also feel relieved by this statement.

"To-morrow, and to-morrow, and to-morrow—
Creep on in petty space from day to day
And all our yesterdays have lighted fools
The way to dusty death."

Procrastination is the thief of health as well as the thief of time. There are few things in which procrastination is so much indulged as in letter writing. I mean to write, but "to-morrow and to-morrow creep on" and we neglect it. This is bad enough when the correspondence is social or business in its character, but when it concerns the vital issue of health it is infinitely worse.

This touches you, if you are one of the women who have felt inclined to take advantage of Dr. Pierce's offer of a consultation by letter, free. You have studied the evidence, which shows how other women have been cured. You cannot doubt but that Dr. Pierce's Favorite Prescription does cure diseases peculiar to women; irregularity, ulcerations, inflammations, bearing-down pains. You cannot doubt it, because of the force of the testimony of hundreds of thousands of weak women made strong, and sick women made well, and you mean to write—to-morrow.

Write to-day. Your letter will be read in private, its contents guarded as a sacred confidence, and an answer promptly mailed you in a plain envelope without any printing upon it. Address Dr. R. V. Pierce, Buffalo, N. Y.
"When I wrote you about my ailments I was living in Richmond, Iowa," writes Mrs. M. Constance of 67 South Liberty Street, Galesburg, Ill. "I took six bottles of Dr. Pierce's Favorite Prescription, four of the Golden Medical Discovery and four vials of Dr. Pierce's Pleasant Pellets. Before I had taken four bottles of the Favorite Prescription I was a new woman. I cannot make pen describe my heartfelt gratitude, but will confirm the truth of all I say if those who write inclose stamped envelope for reply."
Dr. Pierce's Pellets are a natural aid to beauty. They clear the complexion.
