### WHERE TO SHIP SMELTS AND EELS

As the season advances smelts and eels are in good demand on the American market. Prince Edward Island shippers who wish to secure a ready market for their fish consignments should write to R. W. Sandford, 38 Fulton Fish Market, New York, whose business was established in 1870 and has had a most successful career since. He will pay highest prices, make prompt returns and offers the best of testimonials.

Willis H. Rogers, 24 Fulton Market, New York, whose name is familiar to shippers in this province is advertising in another column for consignments of smelts and eels. With his modern business methods and prompt returns business with Mr. Rogers is sure to be satisfactory. His firm has been established since 1885 and is thoroughly up to date in every way. A trial order will prove his ability to make good sales.

### CUT THIS OUT AND PASTE IT UP

Almost every day The Guardian receives orders by mail to insert news matter of an advertising nature. In most of these cases the sender, who is frequently not known to any member of the staff and who has no account in the advertising department, writes "Please insert the following and oblige," thus apparently implying that they think the items will be inserted free. Only a few weeks ago a reader wrote asking that his advertisement of Farm for Sale be inserted free from day to day until he cancelled it, as he is a subscriber to The Guardian. In this connection it may be said that the subscription price is not sufficient to even pay the actual cost of paper, ink, presswork, mailing, bookkeeping and other expenses of the Circulation department proper, and thus subscribers have no privileges of free advertising and are on the same footing as non-subscribers. Seldom ever does the sender state whether the item is to appear Daily, whether for one or more times in either Daily, or in both, whether as a display advertisement, announcement, business local, classified ad or otherwise. When for church or charitable purposes they seldom ever say so, or do not enclose sufficient money to pay for same, all of which will be returned by first mail in the event of the item not being chargeable, or if more money is sent than necessary to pay for the item the surplus will be returned at once, there being a greater discount for cash with order for advertising of churches & than for regular business. In all such cases the Advertising department communicates with the sender as quickly as possible by mail or phone, often paying the messenger service to get them to the telephone if not too far distant, thus saving all possible time. People write this office to know if News, Letters to Editor, etc., are charged for, and to all such there is

### FERRY BOAT RUNS AMUCK.

HALIFAX, Oct. 22.—The ferryboat Dartmouth is out of commission, and the Pickford & Black liner Anita lies at the Furness-Withy wharf with damaged bow plates, as the result of a collision at the latter point about 7.30 o'clock this morning, and this after the Dartmouth, a few minutes before, had been in a collision with her sister ferry boat, the Chebucto. It appears that the Dartmouth, heading for Dartmouth, and the Chebucto, heading for Halifax, got into trouble about one-third of the way across from this side. It is stated by those on board the Chebucto at the time that they saw the Dartmouth bearing down on them, apparently at full speed, and looming up large and dangerous looking in the thick fog. The Chebucto stopped, but the Dartmouth kept on. They struck, the Dartmouth's paddlebox striking the other, with the result that the paddlebox was badly damaged. The Chebucto escaped practically unharmed and continued on her way to Halifax, but the Dartmouth was not so fortunate. In the mixup, the captain was looking after his boat and the mate was at the wheel. The fog was very thick, and though there are many stories of the affair, the consensus of opinion appears to be that the wheelman became bewildered. The result was that instead of bearing away toward Dartmouth, the Dartmouth swung about out of her course, and finally brought up, at half speed, against the bow of the steamer Anita, lying tied up at the Furness-Withy wharf. The collision smashed in the bows of the ferryboat but, apart from a few dented plates, the Anita escaped uninjured.

### CHARLOTTETOWN AND ELSEWHERE

J. P. Gordon, Charlottetown, was among the recent visitors to St. John.

The S. S. Swansea Trader arrived at Charlottetown from Montreal, at eight o'clock last night with a large general cargo.

Thursday's mail brought us a long letter from Mrs. G. A. Dickinson, who though in her eighty-second year is greatly enjoying a long visit in P.E. Island.—Amherst Exe.

H. A. Richardson, general manager of the Bank of Nova Scotia and now prospective head of the amalgamating Banks of Nova Scotia and New Brunswick, is a maritime province man and was born and educated in Hallifax. He joined the Bank of Nova Scotia when a lad and was successively manager of the branches of that institution at Sussex (N. B.), Newcastle (N. B.), Charlottetown (P.E. I.), Yarmouth (N. S.), and Toronto. In February, 1910, he was appointed general manager, succeeding H. C. McLeod. Mr. Richardson is well known throughout Canada as a very capable and conservative banker and should be well able by his early training to carry out, in the large scope of his bank's activity in New Brunswick, a policy that will be beneficial to the province.—St. John Exe.

### CUT THIS OUT AND PASTE IT UP

It is surprising the large number of people in Charlottetown who when they want to inquire about the Morning Daily Guardian or subscription, ask Central for the News phone No. 133, or for the Advertising phone No. 132.3, instead of 132; or when they want to inquire about advertising ask Central for the Subscriber phone No. 132-2, or for the News Phone No. 133, instead of 132-3; or when they want the News or Editorial Department ask Central for the Subscription phone No. 132-2, or the Advertising phone No. 132-3, instead of 133, although all those departments and their respective phone numbers are plainly given in the telephone book. Some people, instead of looking at the book, even phone one of the above departments to find out what number to ask for to get an other department. All this is a great waste of time on the part of the person phoning, the operator at the Central, and the clerk in the department wrongly phoned. The news staff, on an upper floor, cannot give the necessary information about either advertising or subscriptions, nor the advertising staff about subscriptions or news, nor the subscription staff about advertising or news. If other words the clerks know and care but their own work in their own departments, and if it were otherwise they would be continually running from one department to another, up stairs and down, mixing work, wearing themselves out and causing the greatest possible confusion. On and after 6.30 p. m. daily it is useless to ask for any phone number except 133. Patrons who consult their phone books for the numbers they really want will greatly lessen the work of the patient Central telephone and Guardian clerks and thus help make their lives much brighter and happier. 3-16Mf

The eastern accommodation arrived in Charlottetown yesterday at 5.20 on time, and the Tignish express at 5.5, five minutes late.

There was a diversity of opinion as to the leader at the People's Theatre Charlottetown, last night, but with out doubt, the Vitagraph production "Auntie's Romance" was as pretty a love story as has been seen projected on canvas, with Maurice Costello and Florence Turner in the leading roles. The Bison reel, "The Buffalo Hunt," was exceptionally good and nicely timed which added considerably to its attractiveness. The Edison "M and Dad" was a comedy drama and was a mirth producer from start to finish. Miss Chapman in illustrated song as usual pleased her audience and in her spot light specialty, "Motor King," published by Hallifax, New York, she took the house by storm. Mrs. Tomlin's accompaniments for the songs and her ready conception of the pictures were favorably commented on.

### A \$9,000,000 WILL.

NEW YORK, Oct. 20.—Provisions in the will of Sebastian Duffy Lawrence, who left an estate of \$9,331,252.26, verify the statements of his executor that he was a man of remarkable peculiarities. In making elaborate arrangements for the preservation of his fortune after his death, Mr. Lawrence, who was eighty-six years old when he died in New London, Conn., on May 28th, 1909, did not overlook his grave.

The report of the value of the estate which was filed with the Surrogate in this city yesterday, by Deputy State Controller Fraser, contains a copy of the will, which directs that the executors paint the fence about his burial plot "once a year with pure white lead paint, as this will make the fence last longer."

Besides ordering that the names on the tombstones be relettered every two years Mr. Lawrence directed that the executors should be careful not to remove the moss and other growth from the tombstones, as these would preserve the marble for a much longer time.

Mr. Lawrence, whose friends described him as being exceptionally frugal and, while liberal to charity never spending money for commodities when he could avoid doing so, wasted little cash on stationery. Early in life he formed the habit of replying to his correspondents on the back of the sheets of paper which he had addressed to him. This was a part of the careful observance of the motto of frugality which his acquaintances say made him a much wealthier man than any one believed, until after he died.

Mr. Lawrence, who never married and who lived in such a modest manner that a clerk's salary would have supported him, was one of the leading financiers of New England, and was one of the largest individual holders of the securities of the New York, New Haven and Hartford Railroad. He was interested financially in many commercial enterprises in New London, where he made his home and which were the beneficiary of numerous gifts by Mr. Lawrence. Before his death he gave much to the city institutions of New Haven, and he will give an additional \$800,000 for the endowment of the Joseph Lawrence Free Hospital, as a memorial to his father.

The will gives to New London an additional \$50,000 for the erection of an almshouse, but sufficient must be saved from that sum to provide an annual Christmas dinner for the residents of the home. The Protestant Episcopal church of Connecticut let \$20,000 for the establishment of small churches and \$10,000 for the fund for the aged and infirm members of the Episcopal church. To St. James' Parish, in New London, he left \$22,000 and to St. Mary's Roman Catholic church of that city \$5,000 to complete its tower.

As careful of his fortune after death as before, Mr. Lawrence, in his will, establishes a trust fund of the residue of his estate, of more than \$8,000,000. The United States Trust Company and the Union Trust Company shall guard this fortune for eighteen years for the benefit of his heirs. Then it is to be divided, a part being given to the heirs and the balance placed in trust again for them for fifteen years. The nearest relative to Mr. Lawrence are nephews and nieces.

### KILLED FOR SAYING ROOSEVELT DESERVED DEATH.

PITTSBURG, Oct. 22.—Because he declared in the presence of a crowd that Roosevelt deserved the bullet he got, James W. Colbeck, aged 56, a dry goods merchant, was killed by two men whom the police are seeking.

Colbeck in a cafe heard a group of men discussing the shooting of Col. Roosevelt. He got into the discussion.

"Well, anyhow," said Tony Breck, the bartender, "I'll bet that bullet puts him in the White House and will be twice Teddy's been shot into the President's chair."

"He deserved what he got," said Colbeck.

Colbeck got a blow in the face that floored him. He arose and rushed at the man who struck him. Another man who Breck says was an Italian plunged a long knife into Colbeck. He died an hour later at the Ohio Valley Hospital.

### ATTEMPTED ASSASSINATION OF EX-PRES. ROOSEVELT.

At the Eden Musee, New York.

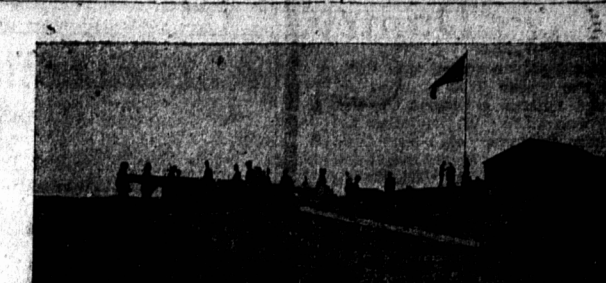

There is no place of amusement in New York as well known as the famous Eden Musee, on West Twenty-third St. It has always been noted for its quick grasping of situations in the public mind and press and with this idea, the Management has just installed a most interesting group in the Chamber of Horrors called, "The Attempted Assassination of Ex-Pres. Roosevelt."

The group shows the Ex-President stepping out of his automobile just as John Schrank, an alleged crank, went up to him and drawing a pistol fired at the Ex-President, the bullet hitting him in the breast. It is said that a bunch of manuscript which Roosevelt carried in his breast pocket saved his life, as it retarded the progress of the bullet. Schrank was immediately arrested and sent to prison, where he will be charged with attempted murder.

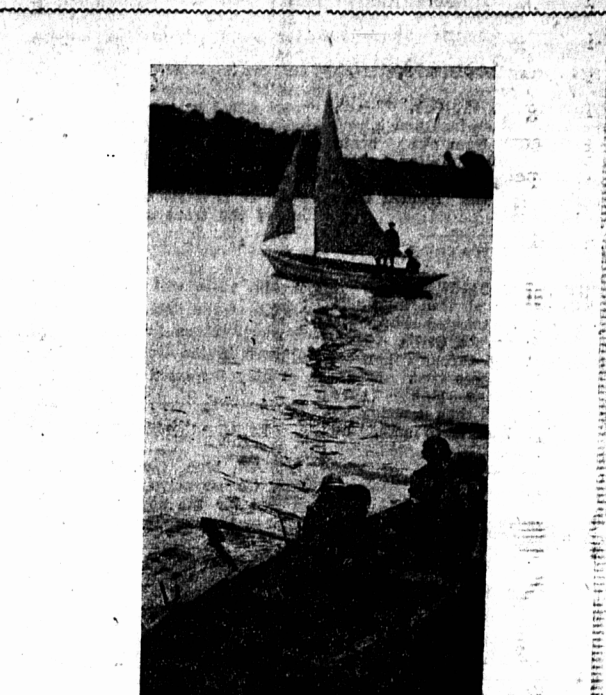

In addition to the World in Wax collection, the Cinematograph de Luke can be seen every hour, and in the Concert Hall, Contea's Classic Quartette render a concert every afternoon and evening. Additional features are programmed and no visitor to the City should leave it before they visit this ever popular place of amusement.

### HON. F. D. MONK'S RESIGNATION IS ACCEPTED.

OTTAWA, October 22.—Hon. F. D. Monk no longer is minister of public works. The minister today at noon drove out to government house and placed his resignation in the hands of his royal highness. The resignation was duly accepted.

George H. Perley, minister without portfolio, who was so successful and efficient in the summer as acting prime minister, will administer the department of public works, until Mr. Monk's successor is appointed. Mr. Perley is not altogether new to the department, as he repeatedly has administered it during Mr. Monk's absences. Towards the end of last session Mr. Perley found himself acting minister with the task of putting the supplementary estimates of the department thru council. He mastered the details so as to be able to explain them to his colleagues with a rapidity which astonished the officers of the department. The department will shortly have a new French Canadian minister at his head.

### NURSE GIVES PATIENT POISON BY MISTAKE.

NEW YORK, Oct. 23.—Mrs. Alice Haight, a patient in the Yonkers Homeopathic Hospital and Maternity, died there early yesterday from the effect of a poison administered in mistake for a medicine and Miss Florence Harris, the nurse, who was attending her, was so overcome when she saw the patient die that she fell into a state of unconsciousness from which she had not been aroused late last night.

The hospital authorities have begun an investigation, but because of their inability to get any statement from Miss Harris are at a loss as to how to proceed. A statement was issued that oxalic acid appears to have been given to Mrs. Haight, but how the poison came to be in the hospital is a mystery. It is not used by the physicians or nurses, nor is it kept in stock at the hospital pharmacy. The only explanation offered is that possible a cleaner left it in the room. Mrs. Haight was the wife of Abram H. Haight, a machinist for the Otis Elevator Company. She was taken

### to the hospital last week and gave birth to a baby boy three days ago.

Miss Florence Harris, who has been a student at the hospital for the last two years and who has been regarded as a competent nurse, was assigned to the patient.

A few moments before 6 o'clock yesterday morning Miss Harris summoned the night supervisor and told him her patient had become violently ill immediately after taking her medicine. The resident physician and the attending physician were called quickly and everything was done to relieve Mrs. Haight, but she died within ten minutes.

### GOT A BAD SPRAIN
