VICTORIAS WIN THE TWO GAMES

Defeat Senior Crystals 9—4 and Intermediates 5—4

The Victorias won a double header in the P. E. I. Hockey League last evening in the Arena when they defeated the Crystal seniors and intermediates, the former by a score of 9-4 and the latter 5-4.

The senior game was a decided improvement over the brand of hockey seen in Charlottetown this season While the first half was good the second and was full of exciting ?ituations,the penalizing of a man from each team for the balance of the game near th end of the first half making it a six man game thereafter—and fast hockey resulted.

Both halves were rather strenuous for the players, the first being rough throughout while the second was—as the six man variety usually is—very hard on the participants.

The two teams were the same as when they met in Summerside two weeks previously with the exception of Grady of the Crystals who was back at his old position at cover.

For the Crystals Perry, Philips and Grady, and McDonald in the first half were the hardest workers. They were good individually and made good attempts at combination work which at times brightened up the game and improved the pace. Doucette in goals was not so good in the first half but in the second half h turned aside countless sure looking ones. His work saved a much greater score against his team. Clark and Adams played their usual aggressive game. The Crystals seemed to be unable to successfully work a good "get away" and some opportunities to score were lost.

For the Vics Rattenbury, Burns and Rodd did the fastest work. Murphy played a very aggressive and steady game, holding his wing down well. After the first half Arnold went to left wing and Burns took cover and both acquitted themselves honorably in their newly found places. Cornfoot, while he played, was good and "Benny" and McAskill were excellent performers on the defence though the latter had little to do in the last period.

The game started at 8.37 and Rody McDonald carried the puck to the Vics goal. It went back and one its way collided with Burns' forehead,doing slight damage. Rody got a good shot but it was well met by McAskill. After four minutes play Phillips tallied the first score.

Rattenbury and Rodd combined for a good gain, and Murphy was sent to the boards for threatening Grady. Cornfoot and Adams followed and there were six Crystals to five Vics The Vics held their opponents wel until the penalized men returned and two minutes later Rodd evened th score. In one minute the Crystals, through Perry, took the lead again only to be evened up after five minutes fast play, by Burns. Charles was showing up well and displayed hi old time form. He was out for goals and after a series of runs, and combination with Rodd, Murphy and Rattenbury, dropped in two more Rodd made number 5 for the Vics after a pretty run and on resumin play McDonald secured the puck an started down the side. He was checked by Cornfoot and the tw grappled with one another, going t the promenade. They they stuck and were parted by Referee McMillan. On separating McDonald attempted to hit Cornfoot who retaliated and the two again closed in and fell to the ice. They were parted and each wa penalized for the remainder of the game. Clark took McDonald's place on Wing, Rattenbury went to left wing and Burns to coverpoint and the game resumed. There was no further scoring in the remaining minutes of the half.

The second half was fast and a splendid demonstration of the six man game was given. At no moment was there a lack of interest and the good combination work on both sides, the fast skating and spectacular individual work of the Victorias kept the excitement abounding throughout. Half a minute after play opened Rattenbury scored and after six and a half minutes good work Rodd dropped one in, followed half a minute later by Murphy. The game then, for the first time in the half, went to the Victoria end and Perry scored one for the Crystals, Grady two minutes later added another, making the Crystals fourth and last notch. In three minutes on a rebound of a shot from Burns to Doucette's pads A. Rattenbury scored the ninth for the Victorias. The half closed without further scoring.

NOTES.

Burns "came back" and tallied four for the blue and white.

The Fourth Regiment Band was there—as usual—and dispensed its customary musical prescription with good effect.

The officials, notably the referee and judge of play, were well acquainted with their work and gave eneral satisfaction.

Perry played a good, clean and consistent game, as also did Clarke and Phillips. Grady received a good deal of punishment and took it graciously.

The attendance was larger than at any game this season. The reserved seats were all sold out a day after opening the plan. There were nearly one thousand present at last night's game.

The Crystals brought their usual large number of standard-bearers from the western capital and they were none too lax in encouraging their team with their voices at opportune times.

The Starr Trophy should be getting acquainted with P. E. Island by this time. Now that the Vics have won enough games in the league to give them the championship of P. E. Island it is up to them to defend the silverware from the onslaughts of the invaders. Swastikas and Shamrocks are next.

The second game was fast and at times furious. The juniors played rough hockey and received numerous penalties, at the end of first period the score was 1-0 for the Vics. The latter in the second half had 5-0 before the Crystals commenced to score. Four were tallied before the bell rang.

The encounter in the first half was discreditable to the game and the players. The penalty was a severe one and showed the officials' intention to discountenance such tactics in future. A bystander prominent in sport maintained that Cornfoot did not deserve his penalty but the officials were well within their rights in imposing it even though the public sentiment was otherwise.

THE NAVY READY

(Canadian Press)

GLASGOW, Feb. 8—Speaking here today Rt. Hon. Winston Churchill, First Lord of the Admiralty, at a luncheon of the Clyde Navigation Trust referred to British Naval resources and said the rumors of unpreparedness were absolutely groundless.

The navy is a necessity of Great Britain's existence, and to other powers, such as Germany, more of a luxury.

The Government, he said is firmly resolved to maintain our naval supremacy.

British resources are sound and money plentiful.

What is most needed is the steady building of ships year by year.

Great Britain will be the first power to welcome the slackening of armaments, but would have no difficulty in meeting any increases on the continent.

The Island lies in front of Canal entrance and fortification will render it inaccessible by a hostile vessel.

It is planned to make the de[illegible] of the most modern type.

Similar work will be commenced at the coast shortly but here it will be carried on under greater difficulties, the ground being of a marshy nature.

ENGLAND AND THE GERMANS

LONDON, Feb. 6—Most of the leading London dailies print this morning Berlin despatches, quoting the Vossosche Zeitung as follows: "From a trustworthy source we hear that at the present moment important negotiations are proceeding between Berlin and London, the publication of the results of which, in a few weeks time, will constitute a political event of the first importance. We gladly note this information and shall be honestly pleased if these expectations are fulfilled."

The Daily Telegraph's correspondent adds:

"Vague rumors of similar purport have appeared in other papers and did not seem to have more substantial foundation than conjecture. The Vossoche Zeitung, like most of its contempiraries, treats Lloyd George's latest speech and other conciliatory utterances from England, in the grudging spirit of a man whose grievances has not yet ceased to rankle."

The Standard suggests that the statement refers to negotiations in connection with the division between England and Germany of the Portuguese territories, if the latter are offered for sale.

BELFAST COMEDY IS PLAYED OUT

Even Rabid Unionists Admit Failure. A London Journal Veering Around

(Canadian Press)

NEW YORK, Feb. 9—A London cable to the Times this morning says:—

With the inglorious ending of the Belfast comedy now conceded by Unionists even of the rapid type, the opposition to Home Rule as represented by Sir Edward Carson can no longer be regarded as a serious factor.

"A significant straw showing the way the wind is blowing is the likelihood that one of the leading London newspapers which has hitherto fought against Home Rule is now veering round, if not to approval of Irish autonomy, at least to the acceptance of it under the conditions outlined by Mr. Churchill and agreed to by Mr. Redmond.

MURDER MOST FOUL

(Canadian Press)

ST. SCHOLASTI, Pa., Feb. 9—To day a stone cutter named Dufault was discovered, covered with knife wounds and blood frozen stiff, in a living room of the man's house near here by friends of the dead man.

A brutal murder was indicated by the circumstances. The victim had no enemies but was known to have a considerable sum of money. No money was found in the house but the room was in a state of disorder, showing signs of a terrible struggle.

Detectives are on hand and an inquest will be held.

ALLIES INFORMED

(Canadian Press)

LONDON, Feb. 9—It is now officially admitted that both the French and Russian Governments were informed of Vicount Haldane's trip to Berlin by the British Government before the Secretary of War arrived.

It was stated that the visit was of a private nature, but added that if political questions were discussed both would be notified.

It is believed Haldane is commissioned to extend feelers regarding the slacking of armaments.

It is also believed that Churchill's speech in Glasgow was part of a plan to encourage the belief in Germany that Great Britain would go one better than any one else in naval matters.

NEW YORK MYSTERY GROWING DEEPER

NEW YORK, February 7— The mystery surrounding the murder of Helen Taylor, killed by the explosion of a bomb in her apartments last night with the disclosure that the package containing the infernal machine was apparently sent by mail instead of having been delivered by messenger as had been supposed.

The police and Coroner Fineburg both admited today that their case against Charles M. Dickinson, who was with the woman when the explosion took place, and who will be arraigned by the coroner today on the charge of homicide, had many weak points, and unless more definite evidence comes to light meantime it was intimated that Dickinson would be discharged.

A new development in the case came yesterday when the police found a letter carrier who said that on Wednesday last he delivered to a woman he believes to have been Mrs. Taylor a package about five inches long, three inches wide and two inches high. This description tal with the bomb package.

With this statement in their hands the police turned to scrutiny of the package wrapper and portions of postage stamps picked up in the room last Saturday night, grew deeper lies well, so far [illegible] is concerned, where the explosion occurred and which are now thought to have been attached to the manila paper covering. The markings on the stamps showed, according to Deputy Police Commissioner Dougherty, that the stamps were cancelled at the Grand Central station here, but there was no date, as is usual with fourth class mail matter. This coupled with the story of the letter carrier, indicated the possibility that Mrs. Taylor kept the package for a few days before opening it. The motive of the murder is, however, as much a matter of mystery as ever.

INDEPENDENCE OF CANADA

MONTREAL, February 6—"The independence of Canada will come like that of the United States, and when that time comes I would rather stand alone and see my childten go down to their death in battle before my eyes to attain the independence of Canada than to be subordinated, when we are strong enough to stand alone."

This was the declaration made by C. H. Cahan, one of Montreal's most prominent lawyers, in an address delivered before the Montreal club last evening. During the last elections Mr. Cahan threw in his lot with Henri Bourassa, the nationalist leader, and according to his address last evening he is apparently willing to go a step farther then the Quebec nationalists.

"We have no responsible government in Canada, at the present time," said Mr. Cahan. "As we have not the power to change an act made by the empire under the British North American act, we are in the same state that the United States was before the declaration of independence. Canada has been and is being controlled by the old country for the old country alone. We stand for the taxation which caused friction in the United States many years ago and resulted in the declaration of independence. We have no rights, as Canadian citizens, outside of Canada or beyond the three mile limit on the ocean.

"We as Canadians cannot live forever in this way. The people are daily becoming alive to the fact that there must be a change."

THE DAY WITH GOD

"In all thy ways acknowledge Him, and he shall direct they paths."—Prov. III., 6.

Take thou this day from God, a solemn trust,
Which He commits to thee; and that it may
Be well begun, spend its first hours with Him.
He knowth all thy needs, and hath arranged
For their supply. Thy pathway, too, this day
Is marked upon His chart in heaven, and was
Before ordained that thou shouldst walk therein.
All through the journey keep thy hand in His,
For He will surely prove thy safest guide,
Since He hath planned each step. And as there
Come fresh opportunities for service, see
Thou use each one for God, giving to Him
Glory in word and deed. So doing all
As in His sight, when this day's course is run,
Thou mayest hand its record unto Him
Without misgiving, rendering Him account
As good and faithful steward. If thou thus
Shalt live each day for Him, when sets life's sun,
Thou shalt receive the Master's own "Well done!"
