

Children Cry for Fletcher's

CASTORIA

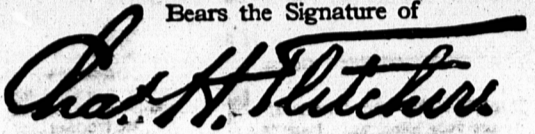

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Deserters Gave Themselves Up

ST. JOHN, June 6.—Two deserters from H. M. S. Valerian, Leonard Foster and Edward Cook, arrived at the central police station about 10.30 on Saturday night and gave themselves up. They said that they were unable to obtain work either on a steamer or in any of the cities which they had visited.

The men said that they had left the cruiser on May 31 while she was lying at Charlottetown, (P. E. I.) They had decided to try to obtain work on a steamer or along the water front but had been unsuccessful. They found that the times were so hard that they thought it better to give themselves up and return to the cruiser.

The cruiser from which the men deserted was in this harbour three weeks ago and was visited at that time by a large number of the citizens. These men were on board the vessel then and did not leave her until about a week ago.

The local police have taken charge of the deserters, although no official notice has been received yet from the naval authorities to be on the look-out for them, and they expect that the men will be taken back to the cruiser to answer the charge of desertion, but they think the fact that the men voluntarily gave themselves up will tend to mitigate their punishment to a certain extent. The cruiser will be due shortly at Quebec and they consider it likely that the men will be taken there for trial.
