Why Robin Hood Oats has Better Flavour

In thousands of homes Robin Hood Oats has been served for over a generation. This New China-ware Package with the "RED SPOT" label contains the same high quality Rolled Oats you have always known; a distinctive because of the "PAN-DRIED" flavour. The scientific "PAN-DRIED" process of making porridge oats, as developed by Robin Hood Mills, is adapted from an old Scotch formula. This is a method of pre-cooking

in the hull, which retains the valuable food elements of the oats and improves the flavour as baking improves the flavour of a potato.

Serve Robin Hood Rapid Oats at least once a day; save the modern, new English China from the packages. Give your family Nature's most nourishing food and set your table with modern China that will win the admiration of everyone who sees it.

—ISLAND CLEBGYMAN—Rev. C. DeWolfe and Mrs. White, have recently been settled at Annapolis Royal where they are already enjoying the kind hospitality of that place. On Monday, the third inst., Mrs. White was "At Home" to friends when a very large number were entertained graciously and all extended a cordial greeting to the new Rector and his wife. Before leaving the King's Collegiate School here where both were very popular, the boys of the Upper School presented them with a handsome mantel clock. The farm hands and domestic staff, not to be outdone by the boys, presented them with stainless steel knives and forks. The teaching staff and Mrs. Howard added a wonderful glow to the entire presentation by the gift of a lovely standing lamp. To Mr. and Mrs. White this expression of good will came as a great surprise and will give to their happy future the added pleasure of sweet memories of their days at King's Collegiate School at Windsor. (The above is taken from Windsor Tribune and Church Work. Rev. Mr. White is a son of Venerable Archdeacon and Mrs. White, Summerside.)

—ICE RACING AT NAIL POND—When it comes to ice racing the Western part of the Province is able to hold its own with any other part, and Old Nail Pond Ice, the scene of many hectic battles in days of yore, when race horses were owned by nearly all farmers, was the scene of another racing event on Tuesday, Jan. 26th, when the ice speed kings of Norway and Tinish met again to battle for supremacy. The ice was good and a large crowd gathered and were not in any way disappointed in witnessing a very closely contested race between "Soldier Boy" owned by John Ryan, "Governor General" owned by Reginald McHugh, "Madame Queen" owned by Fred Ryan, and "Black Diamond" owned by Grattan McCue. "Soldier Boy" won the first heat (course 1-4 mile) being closely pressed by "Governor General" while "Madame Queen" fought it out neck and neck for third place, "Madame Queen" forging ahead at the wire. In the second heat, "Governor General" won handsomely, "Black Diamond" and "Soldier Boy" following. In the third heat "Soldier Boy" and "Madame Queen" fought hard for first position, "Soldier Boy" winning out at the wire with "Madame Queen", "Governor General" and "Black Diamond" all in a bunch. The fourth was a race from wire to wire "Soldier Boy" winning the heat and the race with "Black Diamond" losing this heat by only a length, with "Madame Queen" and "Governor General" just a few feet behind. The racing caused much excitement and spectators are looking forward to the next event, of its kind with great interest. The Officials were as follows: Starter J. B. Christopher, judges, D.P. MacCarthy, E.P. Hogan, J. B. Morrissey.—T
