Mrs. HOWARD GOULD, ON WAY TO COURT.
NEW YORK, July 14.—Arrived in brilliant princess gown, with diamonds and pendants gleaming in the sunlight, Mrs. Howard Gould created a small sensation recently among even the blasé and hardened court spectators when she appeared as a witness in her divorce trial. Mrs. Gould was Katherine Clemmons, the actress. Her husband named Col. Wm. F. Cody (Buffalo Bill) and Dustin Farnum, the actor, in his suit. Mrs. Gould "didn't remember" on the stand as often as the shrewdest trust magnate witness.

THE MORNING PAPER

Some Reasons Why it Makes the Best Advertising Medium.

A woman's curiosity to know about society, marriages, births, deaths, forces her to read it. The Morning Paper is before her all day long, and it is when she is doing her household duties, arranging and improving the appearance of her home, that the missing and necessary articles of furniture, rugs, carpets, curtains or other necessities, show up the plainest, and there could be no more opportune time for a dealer to tell about the new designs, the new styles and the bargains offered, for the day or week.

In a majority of homes the newspaper it practically the bulk of the reading matter, and the long, all-day life from 5 a. m. to 10 p. m. of The Morning Paper gives not only the housewife but every member of the family an opportunity to read it. The Morning Paper is read at the breakfast table, again at home at noon, on the trains, in the restaurants. It is read in doctor's offices, professional offices, clubs, hotels, cafes, barber shops. It is read by daylight everywhere you go by both employer and employee.

It is a known fact that throughout the world, possibly with a half-dozen exceptions, the papers with editorial influence and national reputation are Morning Papers.

With these facts in mind, the business man who is looking after the real money-spenders of the family to interest in his goods will consult his best interests by placing his announcements where the women will read them.

Race Record 219
Do you know him?

Every horseman knows him to be king of sires for the Maritime Provinces of 1908, with 2 to 1. He was a champion colt trotter, and is a sire of champion colt trotters. He has ten in the stand list to-day, and a dozen more ready to drop in with the asking. 3 of his colts have brought in upwards of \$2,000 in the last few months. Did you see him, and his four year old son "Ozen" D. (3) 1/2, step on exhibition mile at the Kings County fair last September at Georgetown in 2:25 without any preparation. "He is a dandy." Did you ever see the like? was the expression of every one, and it was well said for it was never before equaled in Kings County. If you don't know all about him, look him up, before you risk breeding you with the more obscure ones.

I have a little booklet which is yours for the asking, that will tell you all about the Leading Sire of the Maritime Provinces and his progeny. "BRAZILIAN" will make the season of 1909 at owner's stables, Montague. For further particulars, terms, etc call and see or write the owner. T. GORDEN IVES, Montague, P. E. I.

Another "Sunshine" Feature

This is an entirely new idea, and will especially interest people who reside in natural gas districts. The gas ring takes the place of the lower Sunshine fire-pot, thus making it possible to burn gas in your furnace without inconvenience. Such is not possible in a furnace where the ordinary gas log is inserted; for, should the gas give out, a coal or wood fire could not be started until the gas pipes were disconnected.

The Gas Ring

To provide against sweating in the summer time, Sunshine Furnace is equipped with a nickel-plated steel radiator and dome. All bolts and rivets are nickel-plated, all rods copper-plated. This special treatment, besides meaning quicker and greater radiation from the radiator and dome than cold chill iron could possibly give, acts as protection for the bolts, rivets and rods from inroads of gas. When cast iron comes in contact with nickel-plated steel it is coated with our special Anti-Rust treatment, which prevents the slightest possibility of rust commencing anywhere in Sunshine Furnace.

FOR BREAD AND PASTRY

IT NEVER VARIES SUPERIOR QUALITY ALWAYS

GENOESE PASTRY

Four ounces of STAR flour, three of butter, four of almond paste, four of sugar and five eggs. Melt the butter in a bowl, taking care it does not get very hot. Break the eggs into bowl, add the sugar to them, stand the bowl in a saucepan of boiling water and whip eggs and sugar for twenty minutes, but they must not get very hot; take the bowl from the water, add the almond paste, crumbled fine, to it beat till smooth then add the flour, and last of all sift in the flour, stirring lightly all the time. Line a round jelly-cake pan with buttered paper, neatly fitted and standing an inch above the edge; bake in a rather quick oven for half an hour. When it is done, no mark should remain on it when pressed with the finger.
