"The Flour Barrel," by Herbert Vanderhof, which is announced for the May number of the Metropolitan Magazine, is said by those who have read the proofs to be one of the most remarkable industrial articles of recent years. It describes the Peace River Country, where wheat, is grown and flour made, four hundred miles south of the Arctic Circle, and shows how every inch of this great land, once considered barren and worthless, is being made to blossom for the benefit and profit of mankind.

La Grippe is prevalent in and around New Glasgow owing to the sudden cold snap after a season of mild and balmy weather.

Richard Binns of New Glasgow has been visiting his old home this winter after having spent ten year in the West. He speaks highly of his native province as a place for spending a visit etc., but he purposed residing permanently in the west where he may soon take a home stead. Many of the young people here are getting up a dramatic entertainment for April 3rd. We wish them every success. Miss Mab McLeod late of Prince of Wales College, one of New Glasgow's popular young ladies has accepted to principalship of Hunter River School. The New Glasgow Literary Society held their last meeting this season on Saturday Mar. 14th which a good entertainment was given. —Com.

The attention of the Prince Edward Islanders Association of Winnipeg was recently directed to the condition of a young man from P. E. Island who in poor circumstances and unable to work owing to a very bad leg. Some of the members at once went to work and in two days collected the sum of \$168, which paid the expenses of having the leg amputated and replaced by an artificial limb. The young fellow has been sent to Minneapolis where he received every care. The P. E. I. Association certainly is to be recommended for their splendid spirit of fraternity as exemplified in the foregoing instance. The President of the Association is Arthur Sullivan and H. S. McKay is secretary.

A veteran of the sea, but a man still young, is Captain S. R. Hill, of Halifax, well known in Charlottetown, who sailed recently for London by the Furness line steamer Kanawha. He will be absent in Europe for some months on important business. It is a quarter of a century since Captain Hill first navigated a steamship into Halifax harbor. He was in command both of sailing and sailing vessels and steamships for twenty-one years and has a record in that time of having lost not one vessel—a splendid way of "coming of age." To the people of Halifax and the travelling public between New England, Nova Scotia and this Province, Captain Hill became best known as master of the steamer Halifax. To and fro with the regularity of clockwork, no matter what the conditions of wind or weather, he captained the good ship and became as popular as his ship. Fourteen years ago he retired from the sea, when he was appointed steamboat inspector under the Dominion government.
