The other 500 packets are in such a condition that the addresses are practically undecipherable. The time was well chosen for the vandalism, as Thursday is settlement day on the Stock Exchange. READY'S BREWERIES LIMITED, have Head Office and Aerated Waters Buildings in St. John, N. B., with large Brewery Buildings in Fairville, adjoining the City of St. John. The following letters has been received from the President of the Company: (LETTERHEAD OF READY'S BREWERIES LIMITED) St. John, N. B. November, 20, 1912. Dear Sirs: Referring to the purchase made by you of the Preferred and Common Stock of READY'S BREWERIES LTD. I beg to say: That the Company has been incorporated under the Companies' Act of Canada, for the purpose of carrying on the business of Brewers, Bottlers, etc. Starting brewing Lager Beer in 1879 and branching into brewing Ale and Porter in 1891, the premises today occupy an area of 32,200 square feet, buildings five storeys high, and private railway siding in connection with the main line of the C. P. R. We have two Artesian Wells, 600 feet and 150 feet deep respectively, the source of a very pure water supply, proved by Expert Analysis eminently suited for brewing Ales, Porters, and Lagers. The Capacity of the Brewery has grown from a small beginning to an extent that enables production of 50,000 barrels per annum. Purity and cleanliness are important features of the business and have contributed to its rapid growth. Sterilization of all casks and packages is a strict rule of the business. The Brewery has a complete modern Cold Storage Plant, fitted in duplicate with Refrigerating Machinery. Electric Power for Lighting Elevators, Bottling Room Machinery, etc., is generated on the premises. The Brewery is self-contained, absolutely self-contained. Plant and machinery are duplicated where necessary to avoid delay in case of any breakdown. Not only is the Machinery modern, but in a state of thorough repair and excellent running condition. The Beer is of high standard, being matured in oak casks, many of which are 100 barrel capacity. Great care is taken to maintain the high quality of the output. The Bottling Department is directly connected with the Brewery the bottle being cleaned, sterilized, filled, corked and labeled by machinery. While the sale for 1892 were 2,800 barrels, for the year ending 1911 they had increased to 15,000 barrels. The Mineral Water and Bottling Plant situated in the City of St. John was established in 1880, being then a wooden building, one storey high, but owing to rapid growth in the business, this has been replaced by a large solid brick building with an area of 7,500 square feet. The Factory is fitted with all modern improved machinery for the production of Aerated Beverages, and fully equipped for increased business. The General Offices of the Company are located in this building. I will remain in the Company as heretofore in the interests of the Shareholders. Yours very truly, JAMES READY President. IMPORTANT FEATURES OF THIS ISSUE 1. James Ready, with his thirty years of experience continues in business, as President of the Company, 2. The Board of Directors will include James Ready, J. M. Robinson, of J. M. Robinson & Sons, Bankers and Brokers, St. John, N. B. and Montreal, and Joseph L. O'Brien, who has been for years connected with the business. 3. With total Assets of \$447,035.55, deducting the Bond Issue \$250,000, and Preferred Stock \$115,000, there remains a balance of \$76,035.55, representing an Equity on the Common Stock Issue of \$66.00 Per Share 4. A large increase in sales and profits can be confidently looked for, owing to the progressive policy of the Management and Directorate, and additional Capital in the business. 5. The Net Earnings not only guarantee regular payment of Interest on Bonds and Dividends on Preferred Stock, but leave an unusually large amount AVAILABLE FOR DIVIDENDS ON THE COMMON STOCK, REPRESENTING OVER 19 p. c. Average in the Past Six Years 6. The capacity of the Plant is 50,000 Barrels per annum, and the net profits about \$3.50 per barrel. As the present output is about 15,000 barrels, the great possibilities for increase in business and profits become immediately apparent. 7. There is a large increasing public demand for Lighter Beers such as manufactured by this Company. 8. The Assets as given do not include anything for the GOOD WILL OF THE BUSINESS NOR FOR THE TRADE MARKS. The addition of these two items would make the total amount very considerably larger. 9. Earnings for 1911 show a large increase, being \$54,674.86. After allowing for Interest on Bonds and Dividends on Preferred Stock, leaves 27.5 p. c. on the Common Stock Subscription List opens Saturday, Nov. 30th, and closes Monday, Dec. 9th, at 12 o'clock Noon. Allotments will be made in order of Subscriptions received. Subscriptions may be sent through any Branch of The Bank of New Brunswick or The Bank of Nova Scotia. Prospectus and Subscription Forms will be sent upon request. All Applications for Shares should be addressed to J. M. Robinson & Sons St. John Bankers Montreal MEMBERS, MONTREAL STOCK EXCHANGE
